You Are What You Eat

by Shirley Weekley

One of the "fringe benefits" of writing this column is getting to try out all these new recipes. It is always fun to prepare something different and a special taste treat for the family to be served something new.

This week I tried several new recipes and I have two of them for you today.

This first recipe is a pizza lovers special, from Francie Glascock. It can be topped with just the tomato sauce and cheese or, as in pizza, can be topped with onion, green pepper, mushroom, etc. Great!

MEATLOAF PIZZA

1½ lb. lean ground beef
1 tsp. salt
¼ tsp. pepper
½ tsp. garlic powder
1 cup tomato sauce
8 oz. shredded Mozzerella cheese
1 tsp. oregano

Pat ground beef into 10 inch pie plate. Sprinkle with salt, pepper, and garlic powder. Bake at 425 degrees for 15 minutes. Remove from oven and add tomato sauce, oregano and cheese. Bake for additional 10 minutes. Serves 4-6.

This sweet and sour tuna from Betty Meni is great for lunch or add a vegetable and salad for a super quick dinner. Delicious!

SWEET AND SOUR TUNA

1 can 8¾ oz.) pineapple tidbits
1 cup green pepper
1 vegetable buillon
½ cup water
1 tablespoon cornstarch
1 tsp. soy sauce
1 tbsp. vinegar
3 tbsp. sugar
1 (7 oz) can tuna, drained
1 tbsp. margarine

Drain pineapple, reserving syrup. In sauce pan, combine 1/3 cup of the pineapple syrup, green pepper, bouillon cube, water and drained pineapple.

Heat to boiling, then simmer 5 minutes.

Blend together cornstarch, remaining pineapple syrup, soy sauce, vinegar and sugar; stir into pineapple mixture.

Cook stirring constantly until thickened and bubbling. Stir in tuna and butter and simmer until hot. Serve over warm chow mein noodles. Makes 4 servings.

BRITTON'S PAST

Tenant Moving Time

By Thelma Younglove

BRITTON — For many years, the first of March was often spoken of as moving time for a large percentage of the tenant farmers of lower Michigan.

By the first of March nearly all of the farming operations from the previous year had been completed and a new farming season was about to begin.

A few senior citizens may be quick to remind us that now and then a farmer still had shocks of unhusked corn in the field or a few rows of standing corn yet to be picked.

Little grain was left in the bins. Much had been fed during the winter months or had been sold. Straw stacks had shrunk to almost nothing, and hay mows were almost empty, leaving little hay or straw to be moved.

The fat hogs and cattle had been marketed and it was a little early for the baby animals to arrive.

During the early part of the 1900's there were quite a few farms in the area that were rented either on shares or money rent.

For numerous reasons some tenants changed locations frequently. Possibly they thought the grass looked greener on the other side of the fence.

Many hoped to better themselves, and some moved because the landlord was not satisfied with the renter.

Some tenants were go-getters. They were good farmers and took pride in their work. Seed beds were well prepared, crops planted on time if at all possible, and weeds kept under control. Buildings and fences were kept in repair. They kept lawns neatly trimmed and flowers planted.

A few tenants were greedy and tried to get all they could with as little effort as possible. Crops were neglected. Weeds thrived. Fences and buidings were not kept up. These were the tenants who found it hard to rent a good well kept productive farm.

Rental agreements were made between the tenant and the landlord weeks before it was time to leave, and financial settlements made with the owner of the farm that left.

If the family who was moving had lived in the community for a period of time and had become well acquainted with people in the area, neighbors usually arranged a farewell party which was held in the home of the people who were moving.

Neighbors and friends brought the lunch, games were played, a parting gift given to the family

On a set day, weather permitting, farmers with their teams and wagons came to help the family move. Moving was far from easy. Driveways were not graveled or graded with crushed stones and none were black-topped If the ground was frozen, it wasn't quite so hard. Wagons were loaded and the caravan headed toward the new home.

If the renter possessed a quantity of tools, livestock, and household furnishings, more than one trip had to be made. Sometimes the moving operation took several days, depending upon the distance the goods were to be taken, number of loads, and weather factors.

Adjusting to the new location was easy for some, but difficult for others. Getting settled in the new home amid the confusion was nerve racking.

Many adjustments had to be made, both in the house and outside. Sometimes previous renters had left the house, barns,and lawns in farm from desirable conditions. Trying to get settled and cleaning up after someone else was discouraging.

School children often found moving a traumatic experience. Old friends had to be left behind. For some, meeting the new teacher and pupils was far from easy.

During the era when there was much moving among farm renters, school districts were small. There were several one-room rural schools within one township.

A family might not move more than a couple of miles and be in another school district. Text books were not uniform, and policies might vary.

Some districts had reputations for being rough and tough. It isn't any wonder some children dreaded to move and shed tears.

The days when the first of March was thought of as moving time is gone. We might call the change "progress".

CAROL STUDNICKA

Studnicka Is Chairman

TIPTON — Carol Studnicka of Tipton has been named the 1977 chairman of the 1977 Nurse Hope Program of the Lenawee County Unit, American Cancer Society.

Carol is a graduate of the University of Michigan School of Nursing and is currently employed at the Emma L. Bixby Hospital. Last fall Carol helped in many of the Swine Flue clincis throughout the county.

The Nurse Hope Program is unique because it is open only to women who are either registered nurses, licensed practical nurses or students in schools of nursing who are registered nurse candidates.

The purpose of the program is to spotlight the nursing profession and the part they play in cancer care and provide a system of continued involvement for nurses in the ACS program.

Candidates are chosen on a number of factors, including appearance in a nurse uniform, poise and intelligence. Major consideration is given to the speech aspects, as a candidate must prepare and deliver a talk of approximately two minutes on cancer.

Church Offers Prayer for Intruding Vandals

CLINTON — A prayer was offered in the United Church of Christ, Sunday morning, for the vandals who did considerable damage to the sanctuary, and Sunday School rooms sometime during the night.

It was 7:30 a.m. Sunday when the Rev. Roy Wagner came in and found the sanctuary, pews and carpet sprayed with fire extinquisher foam; rock salt scattered on the carpet and eggs dripping from the altar cross and collection plates on the altar.

In the upstairs classrooms there was evidence of a fire which had been started in a Bible and scattered papers on the floor.

This was the second incident of vandalism within a week at the historic church, built in 1836, on the corner of Tecumseh and W. Franklin Streets.

On March 18, the women of the church had set and decorated tables for the father-son banquet to be held the next night. Early that Saturday morning they found that vandals had disarrayed the tables, and had mixed the salt and sugar in the dispensers.

State Police were called to the scene immediately, Sunday, photos taken, and several volunteer church officers and members spent a hectic two hours vacuuming and picking up the debris so that morning worship services could be held at 10 a.m.

Another group of volunteers worked all afternoon to restore order in the sanctuary.

Among the more serious damage was several pages torn from the memorial altar Bible.

Trustees voted at a special meeting, Sunday, to keep the church locked to prevent further vandalism.

Spaulding Agency Helps Children Find New Homes

CLINTON — Susan Train, caseworker for the Spaulding for Children adoption agency of Chelsea, showed slides and described her work with hard-to-adopt children for the meeting of the Women's Fellowship, Thursday evening in the United Church of Christ.

Since its founding in 1968 on the Spaulding farm site near Chelsea, 200 handicapped children have been placed in adoptive homes by the Spaulding agency.

The agency works with a small staff of two full-time and one part-time social workers, and volunteers, with donated funds.

United Church of Christ is just one of the many sponsoring groups and individuals.

Adoptive parents of these children who often need expensive medical or therapuetic care, do receive supplementary assistance, therapy and counseling programs and monthly financial aid from the state.

Similar autonomous adoption agencies have been formed in nine other states, based on the pioneer methods used by Spaulding for Children.

Mrs. Wes Maki was re-elected president of the Women's Fellowship during the election at the meeting.

Others elected are: vice-president, Mrs. Clayton Strolle; secretary, Mrs. Arthur Searle; corresponding secretary, Mrs. Ed Bihlmeyer; treasurer, Mrs. Frànk Prichard.

Mrs. Donald Corwin volunteered to remain on the nominating committee for another year.

Committee chairmen are to be elected at the May luncheon meeting, and all officers will be installed then.

Annual mother-daughter banquet program on April 16, will be arranged by Priscilla Class; meal by Mary Marthas and dining room decorations and set-up by Serendipity Class. Dinner will be served by Men's Fellowship.

Reservations are to be made by calling Mrs. Floyd O'Dell.

Card parties will resume next fall with Serendipity Class in charge of the first one.

Plans were made for the May 13 salad luncheon and fashion show from 11 to 1:30 p.m.

Mrs. Maki is chairman of the fashion show and Mrs. Corwin will be chairman of the luncheon committee. Volunteers are sought as models.

Several members planned to attend the White Breakfast at the Tipton Community Church, March 31.

BOOK MARK

News from the Tecumseh Library.

Marilyn Harris fans take note! The author of **Blending Sorrow** and **Hatter Fox** has published the first in a planned series of six novels, spanning from the 18th century to the present.

This Outer Eden is set on the North Devon coast of England and in London during the French Revolution. Marianne Locke had suffered humiliation at a public lashing for spurning Lord Eden's lustful advances.

Recuperating in London under the care of a bitterly envious, and hateful sister, Marianne finds her trouble only beginning. Lord Eden has come to London to claim her for his pleasure.

Lolly Ray Lasswell is the star baton twirler of Eunola, a river-rich delta town. Dressed in a gold-sequined costume with her spinning silver baton, she stops time and gives the citizens hope that their dreams will come true.

In her first book, Beverly Lowry moves from character to character, probing their minds for secret dreams and disappointments. In **Come Back, Lolly Ray**, everyone adores Lolly, but they forget she has needs of her own.

A group of wealthy Italian teenagers decides to fake a kidnapping of one of their members. The money will finance the "party". Seventeen-year-old Tino del Bro was chosen as the victim.

Envious of his older brother who did everything properly and was engaged to the daughter of a prince, Tino gets along well with his mother, but not his father. There was the incident of Tino's not closing the elevator door properly behind him.

Tension mounts quickly in **The Heritage** as the characters realize the kidnapping is not a sham. Sheila Tagliavia is the author.

Linda Lee Gabriel was graduated from Michigan State University with a bachelor of science in psychology. She is the daughter of Mr. and Mrs. Albert E. Gabriel, 9500 N. Adrian Hwy. Linda was a member of Sigma Kappa Sorority and participated in the Campus Crusade for Christ. She plans a career in public relations in Texas.

PET Course Available

A unique "training program for parents" will be available for interested Tecumseh area residents on April 4 when an eight-week session of a nationwide educational program called Dr. Thomas Gordon's Parent effectiveness Training begins.

The course will be held on eight consecutive Mondays from 7-10 p.m. at the Holy Family Center, 419 Ormsby St., Adrian. The program is open to fathers and mothers of children of all ages, to single parents, and to all interested adults working with youth.

Participants in the P.E.T. program are coached in specific skills to assist them in solving various problems of child rearing. They learn how to listen so their children will talk, talk so the children will listen, and solve problems so that no one in the family loses.

This no-lose system of child rearing offers an alternative to both the authoritarian and permissive approaches. The resulting closeness and cooperation has been reported to make children and parents happier and to eliminate the so-called generation gap.

Kathie Hyland will instruct the P.E.T. class. She and her husband are the parents of two children and are both accredited P.E.T. instructors.

Mrs. Hyland is a homemaker and previously was employed as a computer programmer.

CHS Runners Boast New 6-Lane Track

The hopes of Clinton's varsity track squad are running high for the 1977 season.

The Redskins lost only two seniors to graduation and 15 lettermen are returning. And the entire squad is excited about Clinton's new six-lane track.

Clinton opens its season by hosting Vandercook and Stockbridge on Tuesday, April 12.

Coach Ozzie Hashley — beginning his fifth season as track mentor — expects a much improved team over last year's which finished with a 6-7 record.

Returning lettermen include a strong group of distance runners in juniors Wally Pike, Jerry Cline and Mike Risner, plus sophomore Mark Prichard. This group led Clinton to its most successful cross country season ever and should be just as impressive on the track.

Clinton also has an impressive group of hurdler lettermen in senior Doug Feldkamp, junior Eric Pratt and sophomore Lance Traves. The sprint group looks to be much improved with sophomore lettermen Casey Thilo and Mike Karapas, senior Steve Hinz and senior transfer student Mike Irvine.

The middle distance races will be handled by senior lettermen Phil Martiny, who was third in the league in the 880-yard run, and junior letterman Dave Gibbard. Hashley is looking for more depth in the middle distance events, and expresses that this could be one of the team's weaknesses.

In the field events, Clinton has some good individuals, although the depth again is lacking. Junior lettermen Bill Gerard and Jeff Voorhees give Clinton a good 1-2 punch in the shot and discus. Hinz is also a good shot putter.

Gerard was second in the league in the discus as a sophomore. Junior lettermen, Chris Wojtowicz and Terry Keith, give Clinton two good pole vaulters. High jumping will be handled by Feldkamp and senior foreign exchange student Alain Ihne. Martiny, Thilo and Pike will handle the long jumping.

Non-lettermen who should add depth are juniors, Mark Haskell shot and discus, Wally Heimerdinger middle distance, Dave D'Agostino distance and Bill Willis pole vault.

Season Looks Good for THS Trackmen

by FRANK WEIR

With an experienced nucleus returning, Tecumseh's boys varsity track squad embarks on its 1977 season April 14 with a triangular meet.

The Indians will battle against Addison and Camden-Frontier at Addison.

The orange and black have 15 returning lettermen from last year's edition which won the Huron League boasting a 7-0 league record. Overall, the Indians finished with an 8-2 mark.

Standouts lost to graduation included, Scott Church, Tim Eggleston, Mike Reed, Aubrey Schroeder, Tom Schwartz, Jeff Schafer and Bruce Hughes.

Returning lettermen include seniors, Dave Bilkie, Mike Eaton, Tony Valdez, Tim Scheff, Scott Hill and Mike Martin; juniors Kim Cantrell, Jim McKinney, Jeff Robideau, John Egbert, Jim Harris and Lyndon Hughes; sophomores Jesse Castorena, Greg Borton, John Faulkner and Tom Wright.

There are 40 other trackmen out for the team including stand-outs Per Jansson a Swedish foreign exchange student in the ¼ mile, sophomores Randy Bolz in the ¼ mile and Brian Banda in the two mile.

Kim Cantrell, Mike Eaton and Scott Hill are the tri-captains of the team.

By event, the squad looks like this:

Sprints — Kim Cantrell, Tony Valdez, John Egbert, Mike Eaton, Jim McKinney, Per Jansson, Tom Wright, and newcomers Tim Mayers and Jeff Anderson.

Hurdles — Eaton, McKinney and Greg Borton, are all back. Tony Valdez, Jeff Robideau, Mike Keys, Dave Roberts and Scott Hill fill out the roster here.

Quarter Mile — Kim Cantrell, Randy Bolz, Jansson, Dave Bilkie.

Half Mile — Bilkie, freshman Phil Conklin, Jansson, Kirk Oliver.

Two Mile — Jesse Castorena, Brian Banda, Brad Rhora.

Shot Put — Mike Martin, Scott Hill, Greg Lewis, Anderson.

Coach Bill Croft confides that the team is weak in the sprints. And in the high jump and discus, the Indians have one experienced man in each event followed by newcomers. McKinney is solid in the high jump while Scott Hill as last year's league champion in the discus.

The Indians are particularly strong in the distance events and hurdles along with the shot put and long jump.

Croft figures Monroe Catholic Central, New Boston Huron and Flat Rock are the teams to beat. He goes on to say, "I'm optimistic about the season. The league is more balanced this year and the meets should be a lot closer. We should challenge for the league championship. The guys have set their goals and one of them is to win the championship."

Budget Is Reduced, Taxes Remain Same

The proposed 1977-78 fiscal year budget was presented to Tecumseh City Council Monday night. Total budget of $1,685,000 reflects about $500,000 difference over last year's record budget of $2,090,875.

Zorn explained that last year's budget was about $500,000 higher due to extraordinary income from federal sources, earmarked for projects such as Russell Road and a $215,000 bond issue.

The proposed budget presented Monday is about $100,000 over last year's operating expenses, with no real increase in city taxes. City taxes will be the same in the new budget as last year's 13 mills.

City manager Cal Zorn said that the budget was prepared on an anticipated local assessed valuation of $40,000 but the actual figure subject to audit by the county was $39,734,200.

Zorn told Council the proposed budget included $186,000 in capital improvements, but did not include such projects as the industrial park drive improvements to the community center and downtown parking. It did include sidewalks, meters for the water department, tennis courts and improvements to Globe Mill.

Zorn told Council he hopes to hire another police officer, possibly with federal funds, to work swing shift.

He expressed disappointment that the city did not receive more than $12,000 from the Tecumseh Community Fund Foundation for the new lighted tennis courts.

According to the city charter, the manager does not have to submit the budget to council until the third week in April. But Zorn felt Council should have more time to study and consider the proposals.

Advertise Hall Bid

Tecumseh will again advertise for bids for construction of the addition to city hall. Council granted permission to the city manager Monday night. Bids are to be received by May 12.

Tecumseh's city hall addition and improvements to the inefficient heating system were recommended by City Manager Cal Zorn two years ago.

City has a fund balance of $200,000 it plans to use for the construction.

Bids were received last summer but rejected when Council decided to apply for federal public works funds. However Tecumseh's request was denied earlier this year.

Zorn recommended that the city continue with plans for the addition and resubmit the Russell Road Bridge and Industrial Park Drive projects if additional public work funds become available.

13 MILE, HIGH-SPEED CHASE

Stands Mute on Charges

A Britton man, Robert L. Raymond, 29, of 225 N. Main, stood mute on six misdemeanor charges Monday morning in District Court.

Raymond was charged with fleeing an arrest, reckless driving, and improper registration by Tecumseh police. Lenawee deputies charged him with fleeing and eluding police, reckless driving, and leaving the scene of a property damage accident.

He is presently being held on $1,500 bond for the Tecumseh charges and $6,000 bond for the county charges.

Tecumseh police stopped Raymond last Thursday at 2:30 a.m. on N. Evans for having one headlight out. As police ran a check on him, Raymond sped off north on Tecumseh-Clinton Rd.

A passenger in the auto, a Jackson woman, jumped out of the suspect vehicle and told police she was being held against her will as Raymond fled. The woman did not sign a complaint.

Raymond traveled 13 and one half miles before being caught. From Tecumseh-Clinton Road, he traveled through a ditch on Allen Road and then turned north onto Mead. He turned east on Pennington and then north on Macon, where Lenawee deputies joined the chase.

He reportedly traveled at excessive rates of speed, ignored police sirens and lights, ignored traffic signs, and kept swerving his auto so police could not pass and stop the auto.

When the suspect auto turned west on Arkona and then west on US-12, the Sheriff's car passed the Tecumseh patrol car and Raymond's auto. Raymond then reportedly swerved sharply across the center line, striking the Lenawee auto.

The two patrol cars and suspect auto went into the ditch, but Raymond traveled onto a driveway and then back onto the roadway. Officers pushed the Lenawee auto out of the ditch and pursued.

Meanwhile, a Clinton patrol car had passed and forced the suspect auto to stop just outside of Clinton at a roadblock. Raymond then fled on foot through a field. Tecumseh officer Robert Young, Clinton officer Tex Dellecese, and Sheriff deputies Lee Marsh and Lawrence Ost caught the subject on foot.

Raymond was transported to Herrick Hospital and treated for a minor cut he received over the right eye during the chase. He was transported to Lenawee County Jail by Sheriff's deputies.

Sheriff's deputy Lawrence Ost checked into Bixby for a possible back injury but returned to duty.

SIMULATED INJURY — Dr. Richard Dustin treats a young man who is "injured" during Palm Sunday's tornado disaster drill. County 4-H clubs provided the 140 injuries, while the Lenawee Emergency Operation Center (EOC) dispatched, controlled, and directed emergency vehicles and victims to the disaster sights and hospitals. Other photos appear on page 10. (PHOTO BY FRANK WEIR)

Murder Case Charges Filed in Lenawee

Open murder charges against Rebecca L. Davis, 21, of 307 S. Maiden Lane, have reportedly been filed in Lenawee County and will be dropped in Hillsdale County. Miss Davis' arraignment date has not been set.

Davis was arrested March 25 by Jonesville State Police in a Hillsdale home for the death of her newborn son. She admitted the boy was hers and that she had left it on Sterns Rd..

The child was found by two young men driving along Sterns, near US-12 on March 24. Autopsy showed the boy died either from suffocation or exposure.

State attorney general Frank J. Kelley reportedly ordered Davis to be bound over from Hillsdale to Lenawee after she admitted the boy was born in her Tecumseh home.

Emergency Procedures Tested by 'Tornado'

by Kent Downing

"It worked well...It was a success and if we ever do have a disaster, we're even more prepared for it now."

According to Kent Naugle, Tecumseh fireman and the emergency dispatcher for Palm Sunday's simulated tornado disaster, the only problems were very minor ones. In fact, he felt the Emergency Operation Center (EOC), out of which he worked, the rescue squads, and hospitals handled the situation unusually well.

The drill began at 2 p.m. with a "tornado" touching down in 15 Lenawee County locations. The 140 make-believe injuries, including several deaths, were rushed by fire department rescue squads and private ambulances to the five Lenawee County hospitals.

Kent Naugle, first assistant chief to Tecumseh chief Wally MacGeorge who would normally handle the dispatching, saw to it that enough ambulances and emergency vehicles were dispatched to the locations. He also dispatched help where it was needed most and first, and had the victims transported to the hospitals that weren't already overloaded with injuries.

The dispatching was completed through sheriff's radios just down the hall from the EOC room at the Sheriff's Department. The Adrian Amateur Radio Club then set up communications in the EOC room to the hospitals, the Red Cross disaster headquarters and mass care centers.

REACT provided additional communication backup and assisted with traffic control, as the drill was directed under the assumption that most disasters would knock out telephone communication.

In total, all fire departments in Lenawee with rescue squads were involved, all police services, the five hospitals within the county, the Amateur Radio Club and REACT, the Health Department, Salvation Army and Red Cross. Lenawee area 4-H clubs provided 140 "victims."

A critique of the drill is planned the 14th at Bixby Hospital and reaction is expected to be favorable. Naugle has come up with some minor suggestions from the dispatcher's point of view.

For one, he hopes he can have a speaker installed in the EOC room at the Sheriff's Department so he can hear the calls coming in. At present, calls are received by police radio down the hall from him and must be written down and sent on. Only a short distance is involved, but the constant running back and forth can get confusing and does tend to slow the decision making process.

State Office To Locate Here

Three officials from the Secretary of State's Lansing office will be in Tecumseh Wednesday to evaluate four possible sites for a full-service Secretary of State's office in Tecumseh.

"There is no question that a Secretary of State's office will be located in Tecumseh," said Dr. David Blanden, a director of the Chamber of Commerce and chairman of the Secretary of State office committee.

The four buildings to be evaluated are the shoe mart location between Fabricare and the A&P, an office in Dr. Robert Bower's building and the Jackson-Gannun offices, both located on the same block in downtown W. Chicago Blvd.. and the Jack Pine Motel, John Underwood property.

Final decision rests with a department in Lansing that handles leasing for state offices.

The evaluators will judge the buildings on location, existing facilities such as parking, and operation costs.

The services offered by the new Secretary of State's office will include issuing drivers' licenses, change of address as well as license plates, the service currently being offered by Secretary of State office on Chicago Blvd. run by Ernest Oliver. That office must close July 1, 1977.

"Hopefully a new office will be opened by the time that one has to close," commented Blanden.

The Adrian office of the Secretary of State located in the Masonic Temple building will close in July as will the Milan and Dundee offices.

One Petitions

Very little interest has been expressed at all in the one seat opening up on Tecumseh's School Board.

Only Todd Herrick, incumbent, is circulating petitions for the June 13th election. The seat is a four-year term.

Deadline for filing is April 11, 4 p.m., with petitions available at the Board of Education office.

OK New Employee

Tecumseh City Council Monday night approved the appointment of Paul L. Preston Jr. to the office of assistant city manager and Community Development director.

Preston, 33, will officially begin his employment in Tecumseh on April 18.

Preston's family will move later this spring.

For the past six years, Preston has been associated with the Department of Community renewal at Rockford, Ill. and served as director for the past two years. He has a bachelor of arts in political science from Loras College, Dubuque, Iowa and is working towards his masters degree in public administration.

Spring Clean-up To Begin

City of Tecumseh's annual spring clean-up will begin April 11 for two weeks and follow the regular trash collection schedule as closely as possible.

Wilma Silberhorn, chairman of the subscription drive for the Band Boosters said the students will be selling subscriptions in the area and at the grocery stores. Mrs. Silberhorn may be reached at 423-4843.

The hope to top last year's record of 160 new subscriptions and 154 renewals. The band boosters earned $517 during last year's drive. Money helped pay off school board's loan to Boosters for the band's summer uniforms.

Proceeds from this year's drive will again be used to help finance band booster projects not provided for in the school budget.

Final Band Booster meeting for the school year is April 14 at 7:30 p.m. at the high school All band parents of studen grades five through 12 urged to attend Tag Day band banquet will discussed.

City Council 'Wait and See'

Tecumseh City Council took a "wait and see" attitude Monday night in response to the request of the Tecumseh Players that the city's nest egg of $2,000 for a community auditorium be transferred to the Players new theatre fund.

Council tabled the request.

"That money is available to you if this thing materializes...and is a community auditorium...You can be sure of that," Mayor Harold Easton told Players president Gerald Johnstone.

Council members agreed with the broader concept of community auditorium but questioned turning over city funds for management by any other group.

"I really don't see this as an auditorium," Easton said. "Who would own this?"

"I've always had a dream," said Counciman Carlton Cook, that Tecumseh would have an auditorium where not only The Players, but school groups and other legitimate groups could have mini-conventions, concerts and programs with authority (shared) by the city, school people and Players.

"I would like to see a more definite plan and request a year from now," Cook explained, since a new budget is almost completed.

"We have no problem with giving part or all of our monies to any group for this purpose." Johnstone told. "If no one else does, then that just means it will take us a bit longer."

"You're tired of people saying they want a theater or auditorium and not doing anything about it." Council member Mary Bowers summarized Johnstone's remarks.

Johnstone said The Players have set an 18 month goal to acquire, build or renovate a theater for Tecumseh.

On Wednesday Tecumseh will have the opportunity to demonstrate its hospitality when it welcomes city officials from Owosso. A parade and a special tea for a preview of the Promenade the Past 1977, open to the public on May 21 and 22, are being planned.

Thursday, the Tecumseh Heraldwill have an open house from 8-5.

Roger Proctor, Michigan Week Chairman, said a full-schedule of events will be released later.

'Tornado'

(Continued from page 1)

Secondly, Naugle hopes to get clerical help in the room to aid in keeping his chalk board up to date as it lays out the disaster area. The help could then also record messages coming in that he can not immediately respond to.

Finally, he hopes to have his messages color coded according to their individual urgency. Reading only a few messages until he finds the most urgent ones still wastes time.

Coincidently, the drill took place on the day after the first tornado watch of the season was issued for the county. Not so coincidently, the drill takes place on the anniversary of the tornado that lashed through the area just north of Tecumseh in 1965. That twister damaged farms, livestock, homes, and cars in excess of $1 million.

Hearing Set

Monday night, Tecumseh City set May 2 at 8 p.m. as the time for a public hearing for the purpose of hearing public comment on the proposed rezoning of eight acres from single residence to multiple dwelling for condominiums on Pearl St., just west of present Marlboro Apts.

Charles Cook, 512 N. Pearl, has requested the zoning change.

Family Flick

The Tecumseh Public Library has an Easter treat for motion picture fans. April's Family Flick feature is one of the best films of all time, Citizen Kane.

Orson Welles directed, wrote, and starred in the film which is the study of Charles Foster Kane, a newspaper tycoon.

Technically, Citizen Kane is a virtuoso piece. Gregg Toland's camera-work features wide angle shots with a pan focus which permits both foreground and background to be in focus at the same time.

Welles' radio training blossomed into brilliant audio-montage as the sound track was used more creatively than in perhaps any other film.

Citizen Kane will run from 2 p.m. to 4:15 p.m. on April 9.

FAMILY HEALTH PROJECT
TECUMSEH COMMUNITY HEALTH STUDY
900 WEST CHICAGO.

EXPANDING — Supervisor Roberta Ludwig, right, and interviewer Terry Vince stand outside their expanded Health Study office at the Mull Building, 900 W. Chicago.

Search for Health Factors

(Second in a series)

The nearly 5,000 young people who were younger than age 20 at the time of their first examination (between 1959-65) in the Tecumseh Community Health Study represent "an unparalleled opportunity to search for the factors that over time contribute to health problems," according to Dr. Millicent W. Higgins, director of one of the five U-M School of Public Health projects currently underway in Tecumseh.

According to Dr. Higgins, as many as 3,500 of these young people still live in this area and will be able to participate in the study by completing a questionnaire and visiting the Tecumseh Community Health Study building (phone 423-2181).

"Participants will be asked to undergo a 30-minute examination involving an electrocardiagram and measurements of height, weight, and blood pressure," Dr. Higgins explained.

"We hope to gather information about the influence of early growth and development upon changes in health, and to relate those changes to factors such as education, occupation, and the health of other family members," Higgins said.

Many participants are now parents, thus extending the family studies in Tecumseh to another generation.

"The health of young women during pregnancy and its effect on the health and growth of the children is another important aspect of this study," Dr. Higgins continued.

"We also want to identify factors that influence blood pressure and weight gain, and see if we can identify heart, lung and vascular diseases in their earliest stages," she stated.

She said there would be enormous advantages to preventing high blood pressure, for example, and the research may disclose the "precursors" or "predictors" of this disease.

This knowledge could, in turn, result in preventive measures leading to earlier diagnosis and treatment of high blood pressure in young people.

Effective treatment for high blood pressure is available, but no one knows how to prevent it.

"The cooperation our study has received from people in the community has been very gratifying, and they can continue to help us by visiting our clinic as soon as possible after we contact them," Dr. Higgins said.

She added that the results of the clinic exam will be furnished to the individual's personal physician upon request.

Addresses for those participants in the earlier study who have since moved from the area are being sought so that the researchers may reach them by mail.

It is hoped that all 5,000 young people will be contacted by the end of 1977. Analysis of the data and preparation of reports is expected to take an additional two years. The research is funded by the Public Health Service.

Clarifying the ways that heredity and the environment affect our health is one of the goals of another U-M School of Public Health project being conducted here, the Family Health Project.

The project will be headquartered in offices in the Townsend II Realty building at 900 West Chicago Blvd., and not at the Tecumseh Community Health Study building at 9301 Tecumseh-Clinton Road because of parking and space limitations.

A sign will be placed in front of the office (phone 423-7417). Office hours will be 1 p.m. to 8 p.m. Monday through Friday, and 10 a.m. to 5 p.m. on Saturday.

"Some of our health problems are inherited through our genetic makeup, others come from the environment in which we live, and still others result from a combination of the two," explained Dr. Ernest Harburg, project director and research scientist in the School's department of epidemiology.

"We'll have a far better chance of preventing these problems if we can determine exactly how heredity and the environment cause, or contribute to, their occurence," he said.

Specifically, Dr. Harburg said, the Family Health Project seeks to find out whether health risk factors are inherited more in some families, and whether some health habits are related to such high risk families.

The project hinges on the participation of about 1,500 persons who have previously taken part in the Tecumseh Community Health Study and their relatives.

Some of the participants will be asked to visit the Family Health Project clinic at 900 W. Chicago and some will be furnished questionnaires at home by interviewers recruited from Siena Heights College.

Noting that the clinic visits will take about 40 minutes, Dr. Harburg said, "Blood will not be drawn. The visit consists of taking blood pressure, snipping a bit of hair for scientific analysis, and completing a questionnarie."

Because it emphasizes the family, the project will be seriously harmed if any one member of the family selected doesn't participate.

"If one person doesn't take part, we won't be able to establish the hereditary health factors and health habits within that family set," Dr. Harburg said. "Therefore, the usefulness of the information gathered from those family members who did participate is greatly reduced."

Persons included in the study are usually blood relatives of one or more other participants, but some are unrelated.

"To aid our work, it would be most helpful if those receiving questionnaires could return them within a week," Dr. Harburg urged.

The Family Health Project is funded in part by the Michigan Heart Association and the U.S. Public Health Service. Field supervisor for the research is Roberta Ludwig.

The remaining U-M projects in progress here, as well as some of the research findings over the years, will be discussed in upcoming articles.

Through My Window

by Marda Gene Duncan

Some months ago an article about nuthatches flew up from Florida; however, with all that has been happening lately, it was only yesterday that this article made its way to my reading table. How interesting — and instead of being concerned about the white-breasted and red-breasted which we know, the brown-headed nuthatch was the subject.

After reading the article and checking a couple of books, I can only say that it is a shame these nuthatches don't come and visit their northern cousins once in a while. They would be interesting additions to our bird population.

The brown-headed nuthatches are true birds of the south, ranging from Oklahoma and Delaware down to the Gulf Coast. They are gregarious birds, keeping company with woodpeckers, kinglets, pine warblers and titmice.

This mixed flock travels through the pine forests or woodlots. What a busy and fun-to-watch group this would be!

This southern nuthatch has the typical chuncky body, short tail, no neck, and long pointed bill so characteristic of his family.

As might be expected, the top of his head is brown, a rather dull reddish brown, if the picture in the National Geographic's bird book is to be believed.

There is a white spot at the back of his head, or more accurately, the nape of his neck. He has a black eye stripes, whitish underparts, gray back, and white corners on his short blunt tail.

Apparently the female dresses much the same as her mate except, of course, her colors may be a bit more subdued.

The author who wrote the article from Florida had some trouble with how her nuthatches managed to run head first down a tree and not fall off.

Much of her information was gleaned from the National Geographic's "Song and Garden Birds of North America" I am sure; in fact, the paragraph that deals with the family raising habit, was lifted almost in toto.

Well, had she turned back the page, she would have found a partial explanation. According to the book, it is the strong, amazingly strong, feet and claws that enable the nuthatches to indulge in this head first travel:

"They stretch one foot forward under the breast and the other back under the tail, and hitch nimbly down the trees, digging in with their strong hind toes to support themselves."

You see I'm not disparaging the Florida gal because I, too, often go to the bird books. It does, however, seem more cricket to give credit and acknowledge the bit of thievery.

And while we are in this book. They say there are about 30 species in this interesting nuthatch family and they are found mostly in the northern hemisphere.

Four of them are at home on the North American continent. Two are our friends here in Tecumseh, the largest of the family, the white-breasted, and the next to the smallest, the red-breasted.

Size wise the brown-headed is between these two and the smallest member of the clan is a little pigmy nuthatch. He is found in the mountainous areas of the west.

But two out of four is not bad — as much fun as it would be to have the south's little brown-headed, perhaps we should be contented with the two upside-downers that are happy to call this area home.

ACT Testing Given

The ACT assessment test was administered at Tecumseh High School on April 2 in the school cafeteria. Approximately 80 students were tested at the high school by the guidance department on that date.

In addition to college use, the ACT is also used by the Michigan Higher Education Program in determining the eligibility of students who are seeking financial assistance.

The American College Tests, ACT Assessment collects information about students, past experiences, interests and goals. This information is collected in two steps.

The first step is the registration process in which each student registers for the ACT and responds to questions in the interest inventory and student profile section.

The second step is a test covering four subject areas — English, mathematics, social studies and natural sciences which you take at an ACT test center on a national test date.

ACT assessment information is used by many colleges as part of the admissions process.

The guidance department made arrangements with ACT to administer this test at Tecumseh on the April 2 test date and again in the fall of the school year.

Improved test scores and more student participation are two objectives of having the test at the home school. Adrian College is the only other Lenawee County test center.

Hearing and Vision Test

Vision and hearing screening is being made available again this year to pre-school children from three and one-half years old to kindergarten age. This program, sponsored by the Lenawee County Health Department and the Michigan Department of Public Health. Michigan law requires that children have vision screening before entering kindergarten.

A major aim of the program is to prevent one-eye blindness. This condition, commonly referred to as "the lazy eye" can often be corrected at the age of three or four years.

The screening, provided free of charge will be offered during April, May, June and July.

Application forms will be distributed through the schools and at pre-school round-ups. These forms may also be obtained at the local health department, Court House Annex, 113 W. Front St., Adrian.

For any further information, readers may contact the Lenawee County Health Department at 263-8831.

4-H CITATION RECIPIENT — Mrs. Leslie W. Miller, Lenawee 4-H - youth assistant, displays 4-H citation she recently received for outstanding contributions to the 4-H - youth program. Surrounding her are l to r: Cathy Clement (4-H program assistant), Sandy Willis (4-H secretary), Dyle G. Henning (4-H - youth agent), Mrs. Miller, and Doug Ruesink (4-H program assistant).

Receives State 4-H Citation

Mrs. Leslie W. Miller, Lenawee 4-H youth assistant, has recently received one of five state 4-H citations.

These citations are presented each year by the 4-H — Youth Programs of Michigan State University to selected individuals and organizations who have made outstanding contributions to the development and expansion of 4-H in Michigan.

During the 21st Annual Leadermete Awards Banquet at Kellogg Center, the statement was made that "Mary has been a program assistant in Lenawee County for the past eight years. Her efforts in the county and the state and her perdonal development included exceptional programming leadership at the county level, especially in public speaking, citizenship shortcourse, personal appearance, and the clowning project.

H & R Receives District Award

The Tecumseh office of H&R Block recently received the district performance award at an awards banquet in Bowling Green, Ohio.

This is the third straight year for Don Dickerson, the local manager, to receive this honor. The award is presented annually to the office that demonstrates the best overall growth and service.

Music Club Elects Officers

The Tecumseh Music Makers, a member of the Michigan Federation of Music Clubs, elected the following officers at their April meeting:

Timothy Packard, president; Andy Neilson, vice president; Sue Bless, secretary; JoLynne Tilton, treasurer; and Lisa Munger, historian.

Piano solos were given by Jeannie McLeod playing "Chinese Checkers," by Glover, JoLynne Tilton playing "Distant Bells," by Glover and Recker, and Lynn Boyd playing "The Globe Trotter," by Gautier.

Andy Neilson played "Misty," by Garner on the trombone and "Sunshine on My Shoulder," by Denver on the cornet.

Refreshments were served by Ann Noveskey and Mrs. Elizabeth Wilson.

Next meeting will be the annual concert on May 1.

Share the Fun Program

Share-the-Fun 4-H program is an opportunity for actors, singers, musicians, dancers and even artists to show their talents as individual or group acts.

Share-the-Fun event is May 7 at 7 p.m.

Any youth in the Lenawee 4-H program may enter his act drawings or paintings. All participants must register at the 4-H office, 263-8831, ext. 249 by April 15. Rehearsal will be April 27 at 4 p.m.

Both rehearsal and the Share-the-Fun event will be at Alexander School in Adrian.

4-H Leaders Honored

Lenawee 4-H leaders were honored March 26 at the Annual Leader Recognition Banquet and program sponsored by the Lenawee Bankers Association, 4-H Council and 4-H Service Club.

Mrs. Harvey Warrick welcomed 435 volunteer adult and teen leaders and special guests to the banquet held in Ritchie Dining Hall on the Adrian College campus.

The Adrian High School Balladiers entertained the group with several music numbers.

4-H members nominated and interviewed adult leaders and the following eight leaders were named to receive the Outstanding Adult Leader Award: Mrs. Tom Adams, community leader, North Franklin Hustlers, Clinton; Kenneth Bortel, sheep leader of Britton-Macon 4-H Club, Britton; Fred Long, community leader of Britton-macon 4-H Club, Britton-Tecumseh Area; Tom Meyer, leader of North Franklin Hustlers 4-H Club, Adrian.

Instrument of Death

Can you imagine the electric chair or the gallows being thought of as a symbol of Life? Every day we see the Cross; but only on Good Friday do we remember it was once an instrument of execution.

This tremendous reversal in the meaning and implication of a device of torture and destruction bears simple witness to the profound effect the Resurrection of Christ has had on human culture.

Yet the thrust of the dramatic events that led to that first Easter is aimed not at culture but at YOU and ME. Christians believe Jesus died and rose again for US.

Celebrate Easter with all who share this joyous belief. The Lord made the Cross a symbol of His life — an inspiration for ours.

Musician to Perform

Third in a series

(Ed.'s note: Mischa Mischakoff will perform with his son, Matthew in concert April 17 at 3:30 p.m. at the United Methodist Church in Tecumseh. Tickets are available from Tecumseh Music Club members, sponsors of the event.)

Soon after arriving in the United States in 1922, Mischakoff entered a competition of the New York Philharmonic for one of its summer concerts.

He won over 500 contestants and was acclaimed a bright new star on the violinistic horizon, following his debut at the Lewisohm Stadium.

Mischakoff had been through a war and revolution and so decided on an orchestral career instead of a violin soloist. This choice could have made him just another musician but for Mischakoff it has meant fame, honor and glory accorded no other orchestral violinist or concertmaster in history.

He has served as concertmaster of the New York Symphony Orchestra under Walter Damrosch, the Philadelphia Orchestra under Leopold Stokowski, the Chicago Symphony under Frederick Stock, and the NBC Symphony under Arturo Toscanini.

When the Detroit Symphony was reorganized in 1952, he was considered by Paul Paray to be the only one logical choice for concertmaster. This appointment was right in line with Mischakoff's great desire to build, to create, to help others achieve, and the opportunity to be a part of the building of a new great orchestra was too enticing to be bypassed.

In 1952, he moved to Detroit where his career continues with all the brilliance that has marked it in the past. Throughout the years, he has consented only to limited engagements as a soloist and teacher but demands continue to grow.

Mischakoff loves beautiful things such as Oriental rugs and paintings but his dearest hobby is that of fine instruments. He now has the largest single collection of Stradivarius violins in the world among professional violinists, his favorite being the "Adam" Stradivarius. He also has a fine collection of bows, a cello and several rare violas.

Since 1933, he has taught many summers at Chautauqua, N.Y. and served on the faculty at Juilliard School of Music in New York.

Mischakoff has never been any place where he did not leave the stamp of his ability, his brilliance, his musicianship. Those who hear him in concert know they have heard one of the masters of the ages.

Forget your 32 most important business phone numbers.

When you switch to General Telephone's Automatic Dialer 32 you'll have the wonderful sensation of adding a lot of blank spaces to your memory.

Spaces which can be occupied by even more important information.

With the General Telephone Automatic Dialer 32 those phone numbers you're always calling are at your fingertips instead of on the tip of your tongue.

There are 31 buttons for your pre-recorded numbers, including 4 colored ones for emergencies, and, next to each button, a place for the name. When you want to make a call, you just point to the person you want to talk to, and push.

The 32nd button is a "last number dialed" button. It automatically records your last manually-dialed number. So, if you get a busy signal, you can call back without re-dialing.

The Automatic Dialer 32 is just one of the services that General Telephone offers to save your company time and money. We've got everything from paging systems to the latest electronic telephone systems.

We also have the people to take care of our phones. Our communications consultants continually analyze your system to make sure that you're using it as efficiently as possible. Our service department keeps your system running smoothly, even in emergencies.

Getting in touch with our people, however, does take a little effort. You'll have to dial all the digits of your General Telephone business office.

EARLY BRITTON

Memories of Past Easters

BRITTON — For many children, Easter is a happy, carefree time. The chill of winter with its ice and snow is giving way to longer, warmer sunny days. Trees, flowers, and shrubs show evidence of buds and new growth. The songs of birds have a cheery note to brighten the days.

Youngsters look forward to the Easter season for various reasons. Some are anxious for a few days of vacation. Others long for a colorful new Easter outfit. While many, especially the younger ones, have dreams of elaborate Easter baskets filled with chocolate bunnies and candy eggs.

Approximately fifty years ago, boys and girls, especially in the rural areas of Southeastern Michigan, were on a limited budget. There was little money to spend for frills and fancy things. They had fewer luxuries.

Most were satisfied with the necessities. Many families lived very economically and still had a difficult time meeting their obligations. In spite of their limited finances, parents attempted to make their little one's Easter as happy as they could.

Some of those families could not afford to buy the pretty Easter egg dyes to color eggs. They resorted to other things. Mothers saved the dry skins of cooking onions. The onion skins were placed into the water in which the eggs were boiled. The eggs became a warm golden brown. Neither the color nor odor of the onion skins penetrated into the eggs.

Easter morning shortly before the children got up, Mother boiled the eggs and then placed them in the nests the children had prepared for the Easter Bunny the afternoon before. As soon as the boys and girls were dressed, they rushed outside and returned with the still quite warm eggs. Because the eggs were so warm, they were sure the bunny had heard them coming and scampered away.

The freshly boiled eggs were served as part of the Easter breakfast. No eggs ever tasted better.

In many American homes, ham and eggs are served for breakfast on Easter morning. However, one family in the neighborhood had an unusual custom. On Easter Sunday morning they competed to see which one could eat the most eggs. In spite of the number one man boasted of eating, he never seemed to become ill from eating too many.

Another neighbor family practiced a still different Easter custom. Approximately two or three weeks before Easter, the young folks in the family were allowed to gather the eggs and hide them in a well chosen place, supposedly known to their brothers or sisters. Each day they could add as many eggs to their secret collection as they could get before someone else did.

Then a day or two before Easter, the eggs were brought from their hiding places, counted, and sold. Each child was permitted to keep the money received from the number of eggs he had been able to get.

In those days, most of the eggs sold were shipped to city markets. Eggs were not rigidly graded as to color, size, and freshness. Wonder how many of those eggs that had been slyly stored in secret hiding places for a few days would pass inspection according to today's standards?

Years ago people may have lived and done some things differently than we do at present, but their ways weren't all bad. How will the next generation value our ways?

DISASTER DRILL SUNDAY — Virtually all County emergency personnel were mobilized Sunday during the staging of a mock tornado disaster. Local rescue crews were involved as were Herrick Hospital staff members. On the left, a Sand Lake rescue crew works quickly to treat a boy supposedly suffering a badly bleeding leg wound. This particular crew responded to those injured at Tipton, the scene of a real-life tornado disaster in 1965. After initial treatment, injured were taken to Herrick Hospital, right, where doctors, nurses and aides treated the sudden influx of victims. Several participants in the drill were heard to say, "I'm just glad it isn't the real thing." (PHOTOS BY FRANK WEIR)

(Continued from page 1)

Accidents Are Light

Accidents continued to be light this week as Tecumseh Police investigated two, minor parking lot accidents.

Last Thursday, John A. Tuberville, 48, of Britton pulled from his parking space in the northeast city parking lot and struck a parked auto belonging to Wayne Nix, 701 Ternes.

Monday, Timothy L. Gauss, 19, of Tipton illegally parked his auto in the southwest city lot. Gauss' auto was blocked in by a parked auto belonging to David F. Robinson, of Horton. Gauss hit the Robinson auto when backing.

Gauss was then arrested by police for being drunk and disorderly after police reportedly told Gauss he should not drive. Gauss told police he had been drinking, and then started arguing and using profanity when he was arrested.

Donations Accepted for Bicentennial Woods

Private donations are being accepted by the Environmental Council of Lenawee (ECOL) for the "ECOL Bicentennial Woods" project.

Tax-deductible donations may be sent to the fund by the same name care of the Jipson-Carter State Bank, 130 S. Lane, Bliisfield, Mich. 49228.

The Nature Conservancy is providing a loan by which the land will be purchased. Application is also being made for federal Bureau of Outdoor Recreation funds, and part of the purchase price will be raised by ECOL through private donations.

The woods project will preserve a timber area in Lenawee County that is representative of tree specimens common to this area.

ECOL urges cooperation with the County Road Commission's annual trash pick-up along the highways, April 21 and 22.

Trash bags may be picked up at the commission offices at N. Main St.

Participants are asked to put aluminum cans in separate bags and mark them with red tags, also available at the commission offices.

All full bags should be left along the side of the county roads for pick-up by the County Road Commission. The aluminum will be collected by the Adrian Parks and Recreation Dept. and sold for the benefit of the ice rink.

The Lenawee Soil Conservation District still has some seedlings available. Citizens may contact the district for more information.

Arguments in the Natural Beauty Road case of O'Connor vs. Lenawee County Road Commission were heard in the circuit court on March 14.

No decision has yet been announced. The ECOL board expressed appreciation to Marjorie Comfort for her service as board member and 1975-76 president. ECOL's annual meeting will be at the Adrian College library at 8 p.m. April 25. Public is invited.

Reader Writes

To the Editor:

The Tecumseh herald does an excellent job of keeping the reader informed on local news. I feel badly that when I write, it is often in the negative tone.

I refer to last weeks (3-31-77) front page picture article regarding a tragic story of a "former honor student". Is it necessary to bring this sad story to our community with the subsequent embarrassment of the accused and family? Is a high school picture and school activity background necessary?

Are we not encouraging local residents to judge and try this case? As Christians should we throw the first stone?

I feel this type of "news" story need not be reported with headlines and pictures.

HANDCRAFTED REPLICAS — Bob Meadows, former Tecumseh resident, will display authentically constructed trunks this month at the Merkel Furniture stores in Tecumseh and Chelsea. His new business, Authenticity, Inc., is located at Chelsea.

Custom-Made Replicas

Interested in quality, custom-made furniture, replicas of the past?

To some this might be a hobby, but to Bob Meadows, it is a business, one he has started in Chelsea.

The former Tecumsehite — a 1964 graduate from Tecumseh High School and son of Mr. and Mrs. J.W. "Pat" Meadows — gave up teaching and business administration for his new business, called "Authenticity, Inc."

The business, as the name implies, involves not restoration but complete construction, authentically inside and out, such as trunks, armoires, etageres, tables, night stands and foyer accents.

Bob's philosophy relative to the business is: "Authenticity, Inc.," was founded to produce high quality, hardwood home furnishings and accessories, which either vanished from the modern marked place or have lost their original asethetic distinction through mass production and automated manufacturing techniques.

A collection of trunks, produced by Authenticity, will be on display at Merkel Furniture in Tecumseh and Chelsea.

Boosters To Meet

Tecumseh Band Boosters will meet April 14 at 7:30 p.m. at the high school band room. The meeting is one week earlier than usual.

This is the last meeting of the school year and all parents of band students in grades 5-12 are urged to attend. Tag Day and the band banquet will be discussed, as well as other events.

Refreshments will be served after the meeting.

Secretary's Office Closed

Secretary of State office in Tecumseh will be closed at noon Friday for the remainder of the afternoon, according to Ernest Oliver.

RARE BLEND WILL BE FEATURED APRIL 23

Quartet to Perform

"Barbershop Under the Big Top" will be presented by the Irish Hills Sweet Adelines Chorus on April 23 at 8 p.m. in the Croswell Theater, Adrian.

Center ring will feature the Irish Hills Sweet Adelines Chorus under the direction of Ginny Zink. They will make you cry with their lilting ballads, clap your hands to the beat of a spiritual, and laugh until your sides hurt as four-part harmony rings from the rafters of the Croswell "circus tent."

Featured in ring number one will be the Rare Blend, a mens' quartet from Fort Wayne, Ind. one of the finest quartets in the area.

Also starring will be Bassically Four, the 1976-77 Region 2 Sweet Adeline quartet champions.

You say you want more for your money? Bubba and Mumbles will be there to lead a bevy of young clowns and other "circus performers." Prizes and surprises are in store for children from 1 to 100.

Jean Rearick is chairman of the extravaganza. Dick Egli will preside as ringmaster.

Part of the proceeds will be given to Goodwill-L.A.R.C. A donation will also be made to the Adrian High School Choir European tour. Various members of the choir will assist with the show.

Tickets will be available from any Sweet Adeline or at Adrian Sewing Center. They also may be purchased at the door.

Irene Merx and Linda Maupin, both of Tecumseh are members of the Irish Hills Sweet Adelines Chorus.

You Are What You Eat

The trees are budding, the tulips are sprouting, the robins have returned and I think spring has sprung. Hooray!! I sure am enjoying these few days of warm weather and sunshine.

This week I have some last minute suggestions for your Easter menu.

A rich, moist pistachio cake with pale green frosting makes a delicious as well as pretty spring dessert. This recipe is from Rita Boyd of Adrian.

PISTACHIO CAKE

1 cup oil
1 tsp. vanilla
1 box sour cream cake mix
1 box instant pistachio pudding mix
1 cup Seven-up
3 eggs
½ cup chopped walnuts.

Combine dry cake mix and dry pudding mix. Add rest of ingredients and mix well. Pour into greased 9x13 inch cake pan and bake at 350 degrees for 35 minutes. Cool before frosting.

PISTACHIO FROSTING

1½ cup cold milk
1 box instant pistachio pudding mix
2 envelopes dream whip
1 tsp. vanilla

Combine all ingredients and mix well. Frost cooled cake then sprinkle with chopped nuts and coconut.

++

This broccoli casserole from Brenda Schug is a delicious addition to any meal but would be especially good with ham.

BROCCOLI CASSEROLE

2 packages frozen broccoli (9 ounces each)
1 package Kraft garlic Squeeze-A-snack cheese
1 can mushroom soup
¾ cup seasoned stuffing

Cook broccoli, then drain and place in greased casserole dish. Melt cheese in mushroom soup, add mushrooms and pour over broccoli. Sprinkle with seasoned stuffing, dot with butter. Bake in 350 degree oven for 20 minutes.

NOTE: Fresh broccoli can be used in place of the frozen broccoli, or use one package broccoli and one package cauliflower.

++

For a special Easter treat try bunny cut out cake. Prepare and bake a cake mix according to package directions in 2 (8 inch) round pans. Cool. Center one round cake on a covered cookie sheet to make the bunny's head.

Cut second round cake according to diagram to make ears and bow tie. Position these on your cookie sheet. Frost entire cake with white fluffy frosting and sprinkle with coconut. Decorate with jelly bean eyes and nose and licorice whiskers. Real cute.

4 LETTERMEN RETURN

Indian Baseballers Young, Host Blissfield Saturday

Tecumseh's baseball squad is fielding a young and relatively inexperienced team for 1977.

The Indians lost eight seniors last year including all-leaguers Doug Bunch, Dave Spillman, Bill Smith, and Brad Sisson. Bill Warner, Gary Beasley, Mike Creswell and Mark Hunter also graduated.

Four lettermen return including Dave Bohannon, a pitcher and first baseman last year; Jeff Ives, pitcher and third baseman; George Lynch pitcher and outfielder and Randy Arnett, outfielder. All are seniors. Catcher last year and probable designated hitter Eric Travis, a senior, also returns from last year.

Other members of the team are juniors Butch Harvey, third base; Jeff Hans, short stop and pitcher; Bill Rogers, short stop; Bill Tooman, second and short stop; John Brooks, second base; Greg Corley, first base; Wendell Withrow, outfield; Dave Perry, catcher; Dale Allen utility man and sophomore John Ely, utility man.

The orange and black posted a 14-9 record last year and tied for third in the Huron League.

The Indians open their season by hosting Blissfield this Saturday, April 9. Probable starters for the first game are, catcher - Dave Perry; third base - Butch Harvey; short stop - Jeff Hans; second base - John Brooks; first base - Dave Bohannon; left field - Wendell Withrow; center field - Randy Arnett; right field - George Lynch and pitcher - Jeff Ives.

Coach Bob Ondrovick is starting his third year at the coaching helm and definitely sees game inexperience as the team's weak spot. "We have a number of underclassmen starting. There's only one pitcher with varsity experience (Jeff Ives). The rest are untested in varsity competition. The weather has hampered our practice. We desperately need outside practices because we have a young ballclub.

"On the plus side, we have good overall team speed and the players are very enthusiastic and coachable. They are willing to work extra when we do have nice weather. There is good team leadership from the seniors and competition for all the positions is high. Our defense has come along quicker than anything else.

"We have a fine schedule this year. Our first nine games are non-league which will let me look at different combinations of players. I'm really pleased with Bohannon and Lynch as relief pitchers. Ives and Hans will probably be my one-two pitchers."

Ondrovick goes on to say that Gibralter Carlson and Flat Rock should be tough this year while Monroe Catholic Central has an "inside shot."

For the first time, high school teams will be allowed to play under lights. Tecumseh will travel to Jackson Northwest April 13 for a twi-light doubleheader after the Blissfield game April 9.

Assisting Ondrovick will be Darrel Bozeman, an alumnus of the team who graduated two years ago. Rick Montcalm is handling the junior varsity coaching assigment while Ron Frenzen and Pat Connors will work with the freshmen.

Redskins Without Veteran Pitchers

Clinton's Redskins baseball squad lost most of their experienced players to graduation last year losing 12 including pitchers Dave Mowery and Tom Richter.

Six lettermen are returning including seniors Jim Wilson, who pitched and played third base last year; Terry Riser, catcher; Roger LaSovage, outfield; Jeff Miller on second and juniors Bill Zimmerman at shortstop and Tracy Richardson on first.

Coach Wes Maki — starting his eleventh year — states that the team is sorely in need of pitchers. Virtually everyone will get a chance to pitch on a "round-robin" basis.

Just 22 players are out for the baseball program, and the Redskins are not able to have a junior varsity program with that turn-out.

Maki points out that the team is young and inexperienced but sees good possibilities with the freshmen and sophomores who are "working hard."

Maki is impressed with the team's overall speed, particularly that of the seniors. "Its hard to say what the year will bring. I appreciate their desire and willingness to swap positions. The most important criteria are the people. I want them to enjoy the sport. The skills they develop can carry over for years to come."

Maki figures Addison and Morenci to be tough. Clinton opens its season April 15 traveling to Sand Creek. On April 18, they host Britton.

BHS Trackmen Have New Coach

Al Lenz is taking over from Randy Salisbury as the head track mentor at Britton. Lenz served as assistant last year to the team.

Lenz is hoping to improve on last year's 1-8 record with 26 out for the squad this year.

The Tories lost six seniors to graduation. Six lettermen return including seniors Don Benham and Jack Geigler; juniors Phil Loesch, Mark Gilmore and Jon Hintz and sophomore Jeff Osterhout.

Non-lettermen that Lenz is hoping will take up the slack include seniors Bill Lutz and Lon Wagenschutz in the shot and discus and Scott Niblack in the 440.

By event:

Pole Vault — Jon Hintz is back after setting a school record at 11 feet last year.

Shot, Discus — Lutz and Wagenschutz are new but look good according to Lenz.

High Jump — Jim Frayer, Al Hintz and Mark Gilmore get the assignment.

Long Jump — Jeff Osterhout returns from last year while Phil Loesch will back him up.

Two Mile — Jack Geigler is strong here with Bob Sanders helping out. Geigler has the school record of 10:54.5.

One Mile — Mark Gilmore has the school record of 5:07. John Marks is new.

880 — Al Hintz, Marks, Scott Niblack and Benny Cottrell are all new.

440 — Scott Niblack, Al Hintz and Phil Loesch.

Sprints — Osterhout, Loesch and Jeff Bearinger.

High Hurdles — Jim Frayer and Bob Sanders.

Low Hurdles — Bearinger and Loesch.

Lenz feels the team should be strong in the sprints with Osterhout, Loesch and Bearinger. Other strong areas are the distance events and relays.

The Tories lost their best hurdler in Dave Wielfaert. All the hurdlers are new to the event this year.

Lenz sees Whitmore Lake as the Tri-County team to catch while Sand Creek should be powerful as well.

The squad opens its season April 14 at Whitmore Lake traveling to Ann Arbor Greenhills the next day.

Tories Have 6 Lettermen, Need Outfielders, Hitters

Britton's baseball squad is young this year with one senior lettermen returning in Don Benham.

Other returning lettermen include juniors Randy Smith, Phil Loesch, Jeff Bearinger and Richie Bruce and sophomore Greg Sears.

Last year, the Tories finished with a 10-10 record third in the Tri-County League. Four seniors graduated from that squad including Jim Cradit, Dave Wilfaert, Paul Wielfaert and Craig Wagenschutz.

A total of twenty players are out for the team including juniors Bob Sanders, Cal Irwin, Tony Moss, Terry Daykin, sophomore Dennis Kimerer and freshmen Troy Bailing, Jeff Maska, Bruce Raeburn, Greg Fanslau, Chris Kimmerer and Jim Bluntschly. Senior Dave Holleran fills out the roster.

Randy Smith, Terry Daykin, Greg Sears, Dennis Kimmerer, Greg Fanslau and Chris Kimmerer and Don Benham all have a shot at pitching duties.

Jeff Bearinger will be catching, Dennis Kimmerer is at first base, Loesch at second, Terry Benedict at short stop and Don Benham at third base.

Britton coach Jim Sweigart confides that the infield possesses a good deal of experience.

Four of last year's five top pitchers are returning.

Smith and Bearinger were named all-league last year while Smith was also the second leading hitter in the county.

Sweigart says of the squad, "We'll need to find some outfielders and hitters. But the freshman group looks good. The Tri-County League is well balanced and its anybody's race." He goes on to say that Summerfield, Sand Creek and Deerfield are the teams to watch.

The Tories open their season by hosting Deerfield April 11.

Softball Tourney Coming

Tecumseh, Britton and Clinton girls softball teams will all be competing in the 1977 Blissfield Tournament April 15 and 16.

Tecumseh will play Adrian at 5:30 Friday April 15. Britton will square off against Morenci also at 5:30 on Friday. Clinton will meet Vandercook Lake Friday at 4 p.m.

Fireworks, Office Area Discussed

The Tecumseh Chamber of Commerce, on the move, met early Thursday morning to discuss the many projects it is presently undertaking.

Included on the agenda were: discussion on an office space for the Chamber, fireworks for the Fourth of July, their annual membership drive, and the Secretary of State's office. A resume follows.

The chamber is presently looking for a small office area to better service the community - a place for a desk and filing cabinet. The group did check into downtown rent, but only a small area is needed and a tight budget made it impractical. The possibility of moving into the proposed city hall addition is remote, as the addition is already very full.

The question of fireworks for the city then came to the floor, as the Chamber felt they were beneficial to the community. Chairman of the committee told the Chamber that both skepticism and support were received from a couple city officials when they were approached earlier.

The Chamber will ask the city to pay for half the fireworks this year, adding that the group hopes to be able to pay for the event in full next year, as it has done much of the time in the past. Total cost is $1,590.

The group plans its membership drive within the next couple weeks, introducing itself with a mailed package. Included in the package will be a letter of introduction with activities, a copy of the group's revitalized by-laws, its proposed projects for 1977, a list of committees and chairmen, and a budget analysis report.

Dr. David Blanden, chairman of the Secretary of State office committee, explained to the Chamber that the Secretary of State's Office will locate in Tecumseh. State's office in Lansing is presently in the stage of choosing a location out of four possibilities in the area.

MISCHA MISCHAKOFF

Mischakoff To Perform

Tecumseh area families will have a rare opportunity to hear Mischa Mischakoff, world renowned violinist, perform in concert with his son, Matthew, classical guitarist, at the Tecumseh United Methodist Church Sunday at 3:30 p.m.

Tickets are available from members of the Tecumseh Music Club and at the door.

Mischakoff, born in the Ukraine in 1897, rose to greatness as a concertmaster of European and American symphonies, as a solo and orchestral performer and as a teacher.

At 16, he graduated with top honors from the Imperial Conservatory at St. Petersburg. He was concertmaster with several orchestras in Russia and Poland, and after he came to the United States in 1922, was concertmaster for the New York, Philadelphia, Chicago and Detroit (in 1952) Symphonies.

For 15 years, Mischakoff was concertmaster of the NBC Symphony Orchestra under Arturo Toscanini.

Matthew Mischakoff, 31, has studied classical guitar under Joe Fava and Alirio Diaz in Italy. He attended the University of Michigan from 1964-72 and participated with his wife, Genia Hollander, flutist in Duo Rococo, in a benefit with the Detroit Symphony and as soloist with the Center Symphony.

40 Boxes Vandalized in Tecumseh, Britton

At least 40 mailboxes in rural route Tecumseh and Britton have been vandalized over the past several days reported Tecumseh Postmaster Jack G. Metcalf.

The territory includes Centennial Road, Rogers Hwy., Raisin Center, Cree, Billmyer Hwy., Sutton Road and Ives Road.

Local authorities have been alerted to the situation and postal patrons are advised to report damage to their local police and postmaster.

Willful damage to mail boxes or mail receptacles is a federal crime, Metcalf warned.

The federal law provides that anyone who willfully or maliciously damages, tears down or destroys any mail box on any mail route, or breaks open the mail box or willfully or maliciously damages, defaces or destroys any mail deposited in the mail box may be fined $1,000 or imprisoned for up to three years.

Under Michigan law, parents may be held responsible for vandalism attributed to their children, reminded Metcalf.

Two Seek Post

Newcomer Dean Sheldon of 18 Ridgemont Dr. will face incumbent Todd W. Herrick of 241 Wildwood Circle in the annual school election Monday, June 13.

Only one member will be elected to the Tecumseh School Board of Education for a four year term.

Also on the June 13 ballot will be a request for millage for operational purposes. 18½ mills that were approved in June 1975 have expired.

The board of education has not made a final determination for the number of mills and the length of time for the millage.

HEALTH STUDY INVESTIGATES

Following Doctor's Orders

People respond differently to their doctors' orders, from following them to the letter to ignoring them completely.

Finding out why this is so — and coming up with ways to improve the situation — are the dual goals of a University of Michigan School of Public Health project in progress here.

Now in its second year, the three-year project is focusing on the health beliefs and behavior of a selected group of patients. It is directed by Dr. I.M. Rosenstock and Dr. J.P. Kirscht.

"What people believe about their health and illness affects the way they respond to their doctors' orders, and this response affects the outcome of the illness," explained Dr. Rosenstock.

"If we can identify reasons why people do or do not follow their doctors' advice, we may be able to increase the adherence to medical treatment and decrease adverse effects from illness."

Dr. Rosenstock said patient adherence to therapy is a problem of major proportions.

For example, he pointed out that a commonly cited "rule of thumb" concerning the national picture for hypertension, or high blood pressure, suggests that only one-quarter of hypertensives will be under treatment and only one-half of those will be controlling their blood pressure by following the treatment program.

"Although this research is directed to hypertension, many who do not have hypertension are also included," he said.

The Rosenstock-Kirscht research has been made possible through cooperation of eight Tecumseh physicians and all of the pharmacies in Tecumseh and many in the surrounding area.

"Participation and cooperation have been excellent and a key factor in obtaining information," Dr. Rosenstock observed, adding that the selected participants will be reinterviewed several times over the three-year period.

Supported by the National Heart, Lung and Blood Institute, the project is part of the ongoing U-M Tecumseh Community Health Study and is based at the Tecumseh Community Health Study Building (phone: 423-2181), 9301 Tecumseh-Clinton Road.

Of the five U-M School of Health projects underway here, the one directed by Dr. Arnold S. Monto zeroes in on the subject that we are most familiar with, a subject that, unfortunately, most of us have experienced firsthand—influenza.

"Four hundred families in the Tecumseh area are participating in this study, which was undertaken in anticipation of a possible outbreak of swine influenza," Dr. Monto explained.

He said Tecumseh was chosen as the study site because similar studies of respiratory illness were carried out here between 1965 and 1971 as part of the overall Tecumseh Community Health Study. Dr. Monto also directed those studies.

"These 400 families comprise a representative cross-section of the community based on a sample of homes," he continues. "Each family is telephoned weekly to get reports of illnesses occurring since the previous week."

JEEP LOST — Raisin Township Fire Department lost their jeep in a grass fire Monday evening while battling a blaze that extended five country blocks. One hundred acres burned from Laberdee Rd. to the Tecumseh city limits. A train reportedly caused the fire that five area departments fought for three hours. The jeep lost its gas cap when it hit a bump, spilling gasoline that caught fire. The driver was treated and released from the hospital suffering smoke inhalation and heat exhaustion. Fire departments responding included Tecumseh, Raisin, Britton, Palmyra and Madison.

WARM WEATHER FISHERMEN — Temperatures in the high 80's, after last weeks lows in the mid-teens, brought out many warm weather lovers. These four young men enjoy the lazy, patient fishing pace, but have been known to pursue their sport in much colder weather. Fishermen (l-r) Andy Crause, Jeff Butler, Dan Desmet and Tim Smith frequent the Raisin River below the Evans St. Bridge, and admit that they usually catch a few.

Tecumseh police investigated seven complaints this week, including three reports of mailbox destruction.

Mrs. Robert Bonner, 800 Rogers Hwy., told police Wednesday her mailbox was pulled up during the night. The paper tubes were also broken.

Friday, Janice Sackreiter, of 908 N. Union, and Mrs. J. Wallace, of Cree Dr., both reported mailboxes destroyed. Leo Judson, of 724 Ternes also reported lawn destruction Friday. Unknown vandals drove over his grass.

April 6 — Louis D. Yungling, 33, of 501 Sutton, was arrested for being disorderly after he would not leave Wrong Way Pub. As officers escorted him out, Yungling reportedly began to cause a disturbance and was arrested.

April 7 — Craig E. Slocum, 19, of Adrian was arrested for possession of marijuana when police were called to a personal injury accident. Slocum was reportedly northbound on Occidental when he lost control of his car and struck a parked auto, belonging to Bob Oberton of Adrian. Slocum was cited for failing to have control of his car.

As police noticed a passenger in the Slocum auto had a cut on his forehead and transported him to Herrick, they found beer in plain view. They also found alleged marijuana on the dash, floor and between the seats.

April 10 — Beverly K. Draper, 24, of Adrian, was arrested for possession of marijuana when police initially stopped her for having one taillight out and a loud exhaust.

Behind Page One

The Mull Building as it is traditionally known to old timers in Tecumseh is located at 900 W. Chicago Blvd. and is owned by John Townsend. Last week The Herald neglected to make this distinction in a caption regarding the new health study facility there. The Townsends were instrumental in locating the study's additional office.

LESTER D. PROCTOR

IS A FUNERAL NECESSARY?

Death is one of the most difficult losses we can experience — especially the death of a family member or spouse.

The wake and funeral services can be "tools" that help us accept the fact of death and permanent separation as the real thing. The wake becomes a time of consolation to those who have experienced the loss — a time for friends to SHARE their grief.

The funeral helps us remember the life of the lost one. It provides strength for the family and friends and communicates to all those attending that this life is now permanently separated from ours.

It is my experience that some who do not attend the funeral of a loved and close one suffer more afterwards. The funeral can become the first stepping stone to the rebuilding of our own lives without the presence of the deceased.

Call us if you'd like more helpful information and booklets on the subject of funerals.

Through My Window

by Marda Gene Duncan

WHERE WILL THEY GO?

As of this dictating many of the birds who came down from the north last fall are still here. Although Tecumseh does not seem to us like a fun-in-the-sun winter resort, there are a few birds to whom it does. Pine siskins, white-throated sparrows, juncos, and tree sparrows.

These characters have been enjoying the banks of Evans Creek just as if it were the height of southern vacationing.

One of these days though the urge to migrate will be strong, they will set their compasses on a northern course and we will see them no more until next fall.

The tiny pine siskins, rather nondescript brownish birds with all over stripes and streaks, have not been as faithful this winter as have some of the others.

They have freeloaded at the near-my-window feeders but seldom have we entertained more than five at a time. When the urge to travel north hits, most of these five inch birds will hie themselves into the evergreen forest of Canada and Alaska.

Some may stay in northern Michigan and even the higher elevations of North Carolina.

Nesting siskins always settle down in conifer trees. They select a nest site well out near the end of a branch which is from 10 to 15 feet above ground.

The rather flat platform of crossed twigs and grass is superbly well hidden and protected. Three or four dark dotted, pale bluish-green eggs are laid in the shallow inner cup which is carefully lined with soft fur or feathers.

The junco is another far north nester who occasionally breeds in the Smoky Mountains. Their well hidden nests are either in or near the ground under the trunk of a fallen tree or a steep overhanging bank.

A deep nest is made of moss, grass, or even shredded bark and lined with softer materials. The usual clutch of eggs is four or five and colorwise they are pale green with an unpredictable pattern of brown spots. Often two broods a year are raised.

Our handsome white-throated sparrows will soon be on the move too. Although some may stay in the northern tier of these United States most will hop over the border into Canada.

Primarily ground nesters the female will build her nest in a protected hollow "often in a moss-covered hummock under overhanging vegetation."

Coarse grass, moss, and rootlets are worked together to form the outer cup and she lines the 'egg room' with finer material such as grass or hair. The four or five eggs she lays are palish green with heavy spottings of dark brown.

True travelers are the dapper tree sparrows. Slender birds, slightly more than six inches long, they have been most attractive additions to our feeders.

These are the sparrows who wear henna caps and have solid gray breasts adorned with single stick pins.

And, as might be guessed of birds who take themselves so far north in the summer, our cold winter and early spring bothered them not a bit.

Tree sparrows construct bulky nests and for building materials use grass or other plant stems and bark. They line them with hairs and feathers.

There are usually four or five eggs per nest and my, but I do repeat myself, these greenish eggs are decorated with brown spots. Quite an even pattern.

The tree sparrow's home is either in or under the dwarf trees and shrubs of this far far north country.

It will be a lonesome window picture when all of the 'cold weather friends' have said goodby but, if all goes well, there will be others to take their place.

Each and every day now is full of the expectation of newly arrived, fresh-from-the-south birds.

Forget your 32 most important business phone numbers.

When you switch to General Telephone's Automatic Dialer 32 you'll have the wonderful sensation of adding a lot of blank spaces to your memory.

Spaces which can be occupied by even more important information.

With the General Telephone Automatic Dialer 32 those phone numbers you're always calling are at your fingertips instead of on the tip of your tongue.

There are 31 buttons for your pre-recorded numbers, including 4 colored ones for emergencies, and, next to each button, a place for the name. When you want to make a call, you just point to the person you want to talk to, and push.

The 32nd button is a "last number dialed" button. It automatically records your last manually-dialed number. So, if you get a busy signal, you can call back without re-dialing.

The Automatic Dialer 32 is just one of the services that General Telephone offers to save your company time and money. We've got everything from paging systems to the latest electronic telephone systems.

We also have the people to take care of our phones. Our communications consultants continually analyze your system to make sure that you're using it as efficiently as possible. Our service department keeps your system running smoothly, even in emergencies.

Getting in touch with our people, however, does take a little effort. You'll have to dial all the digits of your General Telephone business office.

Two Resign from Boosters

CLINTON — At the March 22 meeting of the Clinton Band Boosters, resignations were submitted by the president, Bob Wojtowicz and by the secretary, Mrs. William Stout.

Mr. Wojtowicz, who had served three terms, cited "press of his business" as the reason for his resignation.

Mrs. Stout cited the "poorly attended meetings" as her reason for resigning.

She has served two terms as secretary and was an active member for seven years, but, her children are no longer in band, she noted.

Often, only the officers are in attendance at meetings of the Band Boosters.

Remaining officers are: George Wolf, vice-president and Mrs. Carl Duda, treasurer.

All parents of Clinton band members are welcome to become members of the Band Boosters Club, which promotes many activities and fund raising events for the school band.

Next regular meeting is Tuesday, April 19 at 8 p.m. in the school band room.

BRITTON — Slides of the Holy Land were presented by the Rev. David Hawk, of the Congregational Christian Church, to 11 members of the Sunshine Circle April 5, at its monthly circle meeting, at the home of Mrs. Verla Albring.

A question and answer period followed. Thelma Younglove gave devotions from "Mayflower Devotions for Lent," using the topic "Living to Give" Scripture reading from Acts 20:32-35.

Business meeting was conducted by Circle President Nancy Wilson. Group discussed plans for the mother-daughter banquet and also the need for new drapes for the sanctuary.

Circle will hold its next meeting May 3 at the home of Mrs. Blanch Ivan with Mrs. Alice Benedict as co-hostess for the potluck dinner.

Macon Montage

By Sharon Connors

Welcome to Macon, Clinton Thomas and Elizabeth Ann Banks, twins born April 7, in St. Joseph Hospital, Ann Arbor. Proud parents are Bob and Debbie Banks. Grandparents are Mr. and Mrs. Jack Banks of Macon and Mr. and Mrs. Gene Bushart of Maybee. Clinton weighed in at 6 lbs. 4 oz. and Elizabeth 5 lbs. 8 oz. Bob and Debbie and their new family reside in the old stone school on the four corners in Macon.

++

Mr. and Mrs. Harold Ruhl visited their daughter and husband, Mr. and Mrs. Robert Luegge over Easter in Cookeville, Tenn. Their son, Rick accompanied them on the trip.

++

Fruit trees and dogwood in bloom were some of the sights enjoyed by Julie Rhora, Kent and Rhonda, and Julie's parents, Mr. and Mrs. E.J. Crawford of Tecumseh on their Easter trip. The group enjoyed a weeks trip to Williamsburg, Va. and visited Monticello on their way home. Harold stayed behind and held down the fort so the family could enjoy the trip!

++

Brad Rhora and Steve Chatters along with four Tecumseh boys enjoyed a spring vacation at Mammouth Cave and Ken Lake, Ky. The boys reported rain. One night found two of them trying to stay dry in the tent, two in the car and the other two in the campground restroom! As a stream of water ran through the tent the boys reluctantly cut their vacation short and returned several days earlier than expected.

++

Phyllis Thomas returned to her home April 8 following a stay at St. Joseph Hospital.

++

Bob and Myra Bush entertained the whole family at an Easter supper last Sunday.

++

David and Helen Squires hosted a family dinner on Easter Sunday.

++

Boysville was the scene of a Holy Thursday liturgy last week. Molly McPartlin, daughter of Dan and Marge McPartlin, made her first communion.

The Pascal Meal served in the dining hall came first with Marge lighting the candles on the table (an ancient custom prescribes that the mother do this).

Traditionally at the meal the youngest family member asks the questions, but at this time Molly did it as it was her special day.

After the meal and Scripture reading the entire group, brothers, sisters and staff families in attendance went to the chapel for the liturgy of the Eucharist celebrated by Fr. Steve Sedlock.

Following this all joined together back in the dining hall for cake and coffee prepared by ladies in the kitchen. A highlight was the cross shaped cake made and decorated by one of the staff.

Mrs. McPartlin's mom, Mrs. Madeline Meanor from Plymouth, has been visiting for the past few weeks and joined in all the celebration.

++

An early birthday celebration was held at Farrell's in Toledo last week. Terri Miller's 18th birthday and Jackie Swanston's 15th were celebrated. Both girls were born on April 18.

Those attending were their aunt, Mrs. Paul Schafer of Tecumseh, Mrs. Jerry Miller and daughters, Terri, Kathy, and Beth of Reading; Mrs. John Swanston and daughters, Jackie, Heather and Melinda.

++

Following Easter church services the John Swanston family, Mrs. Sally Jardine of Hillsdale and Don Ries of Britton enjoyed dinner at Leutheuser's in Saline.

The rest of the afternoon was spent at Swanstons home with dessert served later to all including Mr. and Mrs. Kenneth Plank and family, and John Paxton of Tecumseh.

Mr. and Mrs. Gary Sikkema from Toledo stopped for an afternoon visit. A full day was finished off by returning Grandma Jardine to her Hillsdale home.

Beulah Camburn was buried in the Macon cemetery last Thursday. Following the services family and friends had lunch at the home of Robert and Agatha Camburn.

++

Matthew Jones had a birthday April 8. He was 12 years old. The family celebrated the event on Thursday. It was celebrated again Easter Sunday when the whole family plus Zigo Kreso from Yugoslavia (here visiting Tecumseh Products) were guests of Mr. and Mrs. Joseph Fojtik in Dundee. A family Easter dinner was held.

++

Guests of Mrs. Arthur Brown for Easter dinner were her daughter and husband, Mr. and Mrs. James Blocker and their children, Sarah and David from Birmingham.

++

The cancer drive will begin April 14. Original plan was to list the volunteers. But as the list would be too long; remember that Joyce Conrad is heading the drive in the Macon area. Expect a call anytime between April 14 and 26.

An excellent tool for finishing work of wood, metal or stone is the bent riffler. This file is especially useful for working around irregular shapes. Rifflers come with handles, and the entire instrument is 8 inches long. The riffler is a straight file until the final third of its length; at this end it curves into a 45 degree angle. It is this bend which enables the carpenter or sculptor to reach difficult parts of his work. Rifflers come in different shapes. These types include the round rasp, the three square rasp, the flat bastard, and the flat with safe sides.

For the carpenter or do-it yourselfer in the family whatever shape or style tool that is needed for a job, we probably carry it here at the TECUMSEH RENTAL CENTER, 112 S. Pearl, 423-4470. We are located right in the heart of Tecumseh, and there is always ample parking. When you rent an item from us you don't have to worry where you are going to store it, that's one good reason that renting is easier. Browse through our store next time you are in the area. Open: 9-8 Mon.-Sat., Sun. 9-3.

Parents of Pro Boxer Couldn't Be Happier

By Frank Weir

Tecumseh residents Milt and JoAnn Fracker, 5412 Green Hwy., don't want to play the role of the bragging parent.

But that's not easy when your son is doing just fine, thank you, in professional boxing competition.

Add to that, the fact that twenty-five-year-old Al Fracker has accumulated an impressive scrapbook and the temptation is almost too great.

Al—a slugging light heavyweight—will return to the town where he learned the pugilistic art April 23 when he fights Bill Ratcliffe at Michigan Center High School.

The contest will be a true homecoming since Fracker graduated from Michigan Center. His interest in boxing started at the tender age of 13 when he would go with his two brothers, also interested in the sport, to gym work-outs.

As an amateur, Fracker won the Michigan State Golden Gloves in 1971 and the Michigan State AAU in 1972. From 1973 to 1975, Fracker attended West Point and—naturally—continued to box. As a cadet, he was runner-up for the open title in the 1974 New York Golden Gloves tournament at Madison Square Garden after losing a split decision.

After leaving the Academy, he traveled around for a while finally deciding to pursue professional boxing. He now lives in Kalamazoo and works as a youth director for the Kalamazoo Boxing Academy.

His manager in Kalamazoo is Hank Grooms and provided the impetus for Fracker to turn pro after watching him in three amateur bouts.

As an amateur, he was rated as high as sixth nationally.

As a pro, Fracker boasts a 6-0 record, and was chosen as Ring Magazine's "Prospect Of The Month" last February.

His April 23 opponent, a product of Louisville, Kentucky, has a 9-1 record.

Health Study

(Continued from page 1)

Throat cultures are obtained from persons with respiratory illnesses. About three times a year, family members visit the Tecumseh Community Health Study building to furnish blood samples.

"Specimens are sent to the Virus Laboratory in Ann Arbor so that viruses present in the community can be identified from the throat cultures and antibody changes in the blood that occur in response to the presence of infection can be determined," Dr. Monto observed. "These antibodies are also thought to be responsible for protection against future infection."

The project will help epidemiologists learn more about how respiratory illness spreads within both communities and families.

"In the event that swine influenza, in particular, were to appear in this area, it could be detected very early and, as it spread, the effectiveness of the vaccination program carried out last fall could be evaluated," the U-M physician said.

"In the event that swine flu does not appear, antibody studies will be carried out to measure how protection from the vaccine declines over time."

In the course of the last month, the U-M researchers identified a moderate outbreak of type "B" influenza in the community.

Funding for the research was supplied by the National Institutes of Allergy and Infectious Diseases.

Wrestling Clinic for Youngsters

CHS Tracksters Star in Opener

Clinton's thin clads feel right at home on their new track.

THS Varsity Hit By Royals

Tecumseh's varsity baseball squad ran into trouble when the Indians opened their baseball season Saturday hosting the Royals.

Blissfield defeated the Indians 12-5 and 4-1.

The orange and black came up with seven hits in the first contest to the Royal's 11 hits.

George Lynch hit a double in the first inning with the bases loaded allowing three runs in. Wendell Withrow had two singles and one RBI while Butch Harvey had a double and single and David Perry had a single.

Jeff Ives took the loss on the mound pitching four innings before he left with a sore arm. Lynch took over and on his first pitch, a Blissfield batter hit a line drive to Dave Bohannon at first who then threw to second for the triple play. The bases were loaded so the play couldn't have been more timely.

The Indians had three hits in the second contest with Bohannon, Jeff Hans and Randy Arnett each batting a single.

Hans went the distance and took the loss striking out five and walking 10.

Coach Bob Ondrovick said after the game, "We were much more composed the second game. The younger players came of age. We had some communications problems in the field but that happens with younger players. I want to thank the Tecumseh fans. We had a good crowd on hand."

The Indians faced Jackson Northwest Wednesday. They host Adrian this Saturday at noon traveling to Evergreen next Tuesday.

Britton Stopped By Deerfield, 8-6

Britton's baseball squad opened its season with an 8-6 loss to Deerfield Monday.

Deerfield started the scoring with two runs in the first inning. Both teams scored three times in the second frame with Deerfield keeping its lead with two runs in the fourth.

Both teams scored once in the fifth while Britton came up with two in the seventh.

Britton had five hits, a double each from Randy Smith, Jeff Bearinger, and freshman Troy Bailey. Don Benham had a triple and Terry Benedict had a single.

Deerfield came up with six hits and two errors.

Millage Increase Required for Aid

Asst. Supt. Gene Cooley told school board members Monday night that, in order for a school district to be a full participant is state aid, they must now levy 30 mills.

Tecumseh voters allowed a 27 mill levy two years ago for two years, and consequently the district is not now a full participant for state aid.

Cooley stated the the district must decide within the next 30 days whether to ask for a levy of 30 mills or a figure between 27-30 mills in this year's school election.

He also reported that delinquent taxes to date amount to $195,000 or 2¼ mills.

The board also passed the school election resolution, a formality required by law. The election will be June 13, with final day of registration set for May 16.

Thus far, only incumbent Todd Herrick and Dean Sheldon have filed for the one school board term open.

The election will be held in the high school cafeteria.

Caterer for Schools?

At Monday's regular monthly meeting of Tecumseh's school board, members listened to a presentation by ARA Food Services representatives concerning the catering of Tecumseh schools.

The district is now required by the state to furnish a lunch program in all its buildings. The lunch bill was signed in late January.

The equipment needed to implement the program—including ovens and other necessary equipment—would amount to a capital outlay of $37,000.

School officials are hoping that the state will reimburse them for up to 75 percent of the outlay over four or five years. The state has said this would be done, but some officials are skeptical due to the state's financial situation.

ARA officials estimated that 34 percent of high school students, 45 percent of junior high school students and 50 percent of elementary students would participate in the food service program.

Total cost—including food, dishware, labor and mangement—was estimated at $267,403. Cash sales would generate $190,230. The district would also receive $83,973 in federal reimbursements The difference or $6,800 would be returned to the district.

The government returns 23¼ cents for each type A meal served. Elementary students would pay 50 cents per meal, while junior high and high school students would be charged 55 cents.

Asst. Supt. Gene Cooley told the board the ARA is experienced in providing meal services to school districts similar in size to Tecumseh.

Supt. Robert Duhan said later that if the board decides to implement the program, the state would have to approve. A final decision will be made sometime in May, Duhan said.

If approved, the program would be implemented this fall.

The Tecumseh Area Town Meeting Organization is holding a membership meeting April 26 at 7 p.m. at the Tecumseh Public Library.

All Tecumseh area residents interested in their community are welcome to attend.

The organization's purpose and goals will be explained at the meeting.

City Shows Interest, May Buy Golf Course

Tecumseh City Council will hold a special meeting Wednesday at 7 p.m. to decide if the city will purchase 332 acres, with 160 acres developed as the Raisin Valley Golf Course.

Willis Porter, local businessman, made the exclusive offer to sell the entire parcel to the City of Tecumseh for $350,000, plus $6,000 for equipment.

Porter requested one fourth down with the balance arranged by the city.

The 160-acre golf course borders Comfort Rd. to the south. The remainder of the property is undeveloped except for some farm acreage at the southerly end.

Monday night Porter told Council that he was giving the city a $50,000 break on the property, since he already had an offer of $400,000.

He told Council he was anxious to sell the property for health reasons. He also had other offers and wanted the city's reply by Wednesday.

"I can't afford to let these other deals go by," Porter said.

A majority of Council spoke in favor of the deal. "I think we should own it," said Mayor Harold Easton.

Council members James Palmer, Mary Bowers and Len DeMoss agreed.

"I'd like to see that 160 acres as some kind of sports complex," Len DeMoss said.

"If we could get matching funds, this thing could earn us our share and more besides," said Easton.

City manager Cal Zorn said that he contacted the Bureau of Outdoor Recreation, Department of Natural Resources regarding matching purchase funds, but because these take time in applying he was skeptical the city could give Porter a firm answer by Wednesday, "as much as I'd like to see it," Zorn said.

"I would only like to be sold on the benefits to the city," said Council member Aden Mead.

"This could be a source of income for a long period of time," said Palmer.

Zorn suggested the profits could be used to finance other recreation. "Every time we talk about making money to finance these and other projects, we get criticized."

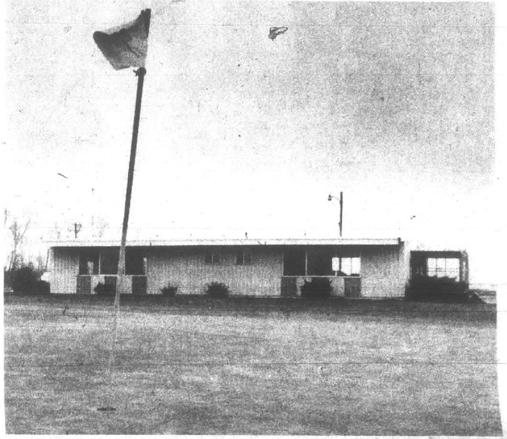
Zorn cited other outdoor recreation possibilities such as snow mobile trails and skiing. Describing Tecumseh's space situation he said, "We don't even have another place for a ball diamond."

Councilman Palmer remarked it was "a shame" that although Council meetings are public, there was no audience Monday night to give Council an opinion.

"I've talked to many people about this, and I've yet to run across anybody who did object," said Mayor Easton.

$790 in Fireworks

Tecumseh City Council voted Monday night to fund $790 for fireworks for the Fourth of July.



CITY CONSIDERS PURCHASE — Tecumseh City Council will consider purchase of 332 acres, including the Raisin Valley Golf Club shown above, at a special meeting Wednesday, April 20 at 7 p.m. Present owner, Willis Porter, told the city he needed to know by Wednesday because of other offers. City Council, impressed with the $350,000 price tag, discussed recreation possibilities for the undeveloped land and possibility of matching purchase funds at Monday's meeting.

Kindergarten Registration Scheduled for May 9-13

Kindergarten reigistration in the Tecumseh Public School District will be held May 9 through 13.

Parents of children who will be five years old on or before Dec. 1, 1977 may register their children at a special evening program May 11 or at any of the six grade schools during registration week.

All parents are invited to the evening meeting and program May 11 at 7:30 p.m. at Patterson School. A special invitation is extended to those parents who have not had a kindergarten pupil attend the Tecumseh Public Schools, said Superintendent Robert Duhan.

Baby-sitting will be provided for pre-school children in one of the first grade rooms at Patterson School.

For the convenience of those parents who do not wish to enroll their chillren at the night meeting, the following elementary school offices will be open during the week May 9-13 from 8:30 a.m. to 4 p.m. to receive kindergarten registrations:

Herrick Park, Ridgeway, Sutton, Patterson, Tipton and Tecumseh Acres.

A birth certificate is necessary to register a child in school for the first time. The Michigan Department of Public Health, Office of Vital Health and Statistics has notified the school district that there may be a lag of six weeks before documents are mailed. Delay has been caused by increased requests and low staff levels.

When applying for birth certificate by mail, parents should supply the child's name, date and place of birth, the father's and mother's name, including maiden name. Charge is $2 initial fee and 50 cents for each additional copy and must accompany request.

Most of the documents can be obtained from the county registrar or in the larger cities, from the city registrar where the child was born.

Immunization forms will be issued to the parents at the time of enrollment. These forms are to be filled out and signed by the doctor and returned to the kindergarten teacher the first day of school in the fall.

Applications will be issued for vision and hearing tests appointments. This clinic will be held five days in June, and the parents attending the kindergarten meeting will be given an appointment that evening.

Parents are urged to enroll their children during the registration so that adequate facilities may be provided and sufficient teachers hired.

DAVID J. DICK

Principal Dave Dick Ending 34-Year Career in Schools

A veteran Tecumseh educator, junior high principal David J. Dick, submitted a letter of resignation to the Board of Education Monday night.

Dick, 215 S. Democratic, has decided to retire after 34 years service to the district.

The principal entered the school system as a high school science and math teacher in the fall of 1943 after graduating from Michigan State Normal College-now EMU-in 1936.

He was a chemist immediately following his graduation and taught for two years at Lyons before coming to Tecumseh.

In 1943, Dick confides that there were "around 17 teachers in the whole school system." And, the high school was the located in the present junior high.

In the fall of 1958, he assumed the principalship of the junior high, and has remained in that capacity until present.

In addition to his regular teaching and principal duties, Dick also was the district's first junior varsity football and basketball coach, and he also instituted the driver's education program here.

In addition to his undergraduate degree, Dick also has a master's degree from the U of M.

He and his wife Alice have three children, Robert of Atlanta, John of Denver, and Marilyn of Ann Arbor.

The couple plans to remain in Tecumseh for the time being, but they eventually hope to spend their winters in the south and summers at a home they have in Charlevoix.

Dick commented on his retirement, "This is a very nice community. The main reason I have stayed is because there is a good bunch of kids here. When I think of the problems other districts have, I know we have minimum here. It's a good community to work in."

His resignation marks the end of the "old timers" in the administration department of the Tecumseh schools. Along with former superintendent Jim McDowell and former high school principal Nev Hart, these three, at one time or another, had much to do with the education of most native Tecumseh adults today.

GROUND BREAKING — Owners of the new Big Boy, to be located just outside the city limits on west M-50, broke ground Tuesday a.m. as Brady Sand and Gravel began bulldozing. Owners include (l-r) Gene Tuckey with children Sarah and Carey, Joe Mannino and Earl Baldwin. The group hopes the restaurant will be open in July. (PHOTO BY KENT DOWNING)

Resigns

Marcia Wolter, sixth grade teacher at Ridgeway, submitted her resignation to the school board Monday night.

In her letter to the board, she said that her husband had accepted a position in New York.

Resolution Postponed

City Council Monday night tabled until the May 16 meeting a resolution committing the city to step two in the 201 study for the improvements to the Tecumseh wastwater treatment plant.

The revised plan presented by a representative of McNamee, Porter and Seeley, showed a drop in gallons per day from 2.8 million to 2.5 million and a drop in cost to $2,900,000 from over $3 million.

Revised plan and costs reflect the townships that will not participate with Tecumseh.

Consultant told Council it could decide to get out of the project anytime before construction or step three, begins. But at each step, committment is larger and city might lose federal funds to pay for engineering costs if it backs out after a commitment to step two.

Rezoning Ordinance Plans Told

First reading of an ordinance relative to the rezoning request of Ernest H. Oliver and Joseph Conklin was given Monday night at city Council's regular meeting.

Property is Lot 34, north of Burt St., formerly the Goodacre farm. Rezoning request is from RA-1 to RP-1, from single family residential to planned residential.

Request was originally made in 1969 and all approvals were granted but apparently Council never adopted the final ordinance.

A public hearing on the ordinance was set for May 16 at 8 p.m.

In other action: Council held the second reading of an ordinance relative to rezoning property between North Pearl and Marlboro Apartments, from single family residential to multiple for Charles Cook who plans condominiums there.

Talking It Out

ROGER PROCTOR

What should I wear to the funeral?

Black is no longer the only color appropriately worn for a visitation, wake, or funeral.

Today a visitor may wear colorful clothing which expresses good taste. Gloves and hats may be worn, if desired; but are being worn less and less.

The widow or widower will usually wear something basic or conservative in color and style.

All persons attending the visitation of funeral should wear clothing which will contribute to the atmosphere of dignity and respect for the family and other mourners.

Your attendance at the funeral or visitation is a simple, but meaningful way to let the family know that you share their loss, that you wish to be considered as one of those who care and will be around to help in the future. It's a one-time opportunity and postponed condolences become awkward for both parties.

If you have any further questions, please feel free to call us.

MISCHAKOFFS PERFORM
A Review by
Dr. Derald R. Doan
Ass't. Prof. of Music
Adrian College

Sunday afternoon brought a large and appreciative audience to the Tecumseh Methodist Church to delight in a duo recital by world famous violinist Mischa Mischakoff and his guitarist son, Matthew.

The concert, sponsored by the Tecumseh Music Club, joined father and son for an unusual program of chamber music.

Historically the musical repertoire for violin-guitar duo is slim, even though each instrument enjoys a wealth of solo literature.

The Mischakoffs transcended this immediate problem through Matthew's polished skill as a transcriber. Most of the program utilized his talents to transform piano accompaniments into delightfully musical renditions for classical guitarist.

Even at the young age of 82, the senior Mischakoff displays his prowess as a trained and seasoned master of the violin. Throughout the varied program his Stradivarius sang with a style unique to the Mischakoff legend.

This style was particularly evident in Massenet's "Meditation" from the opera "Thais". The "Meditation" is familiar to many as a favorite wedding piece. (Thais herself sang it as a symbol of spiritual regeneration.) But Mischakoff's attainments were also evident in the more capricious "Tambourin" by Gossec.

Both father and son showed individual, as well as collective, abilities by performing singificant unaccompanied works for his instrument.

A highlight was Matthew's rendition of "Elegy for a King" by Frederick Hand, composed in memory of Martin Luther King. Its pastoral melody and delicate harmonies set it apart from the rest of the more traditional works on the program.

The entire recital, from the flair of Paganini to the reserve of Tartini's stately "G minor Sonata", provided listeners with a true taste of the delicacy that is chamber music.

The appropriateness of the beauty of a church sanctuary, the warmth of good music, and the awe in the achievements of a great musician and his family, wer indeed pleasant gifts to an inspired audience. The members of the Tecumseh Music Club deserve a share in the inevitable applause.

How Our Library Works

Q & A About T.P.L.

National Library Week is April 17-23.

Why not celebrate by visiting your Tecumseh Public Library?

Deborah Harris, director, compiled the following answers to the "most frequently asked questions" about the library:

Q: How is the library funded?

A: Three major sources of revenue are local taxes, penal fines, and state aid. Local tax comes from a .7 mill levied on property in the Tecumseh School District. (For this reason the library is called a school district library. But the library's millage is not part of the public schools' millage.)

Penal fine monies come from fines levied on violations of state penal laws within Lenawee County. Each year the county treasurer distributes these monies to public libraries on a per capita basis.

State aid support is currently 30 cent per capita. This year's total library budget is $89,000.

Q: Who can get a library card and how much does one cost?

A: Library cards are issued free to residents of the Tecumseh school district. Children may get cards if they can print their first and last names.

Although the library is called a school district library, it is not a school library; most of the books and other materials are for adults. People who are no longer in school are definitely welcome.

Q: What are the library's hours:

A: 1 p.m. to 9 p.m. Monday through Wednesday, 9 a.m. to 6 p.m. Thursday through Saturday.

Q: How are books chosen for the library?

A: Adult books are selected by the director. Books for children and young adults are chosen by the assistant librarian, with the director's approval.

Most book selections is based on reviews appearing in reviewing media such as **Library Journal, Kirkus Reviews, Booklist and School Library Journal.**

Librarians also look to the public for suggestions for specific titles and suggestions about subject areas in which the library needs more information.

The staff tries to strike a balance between quality and popularity by selecting not only best sellers and books in demand but novels and nonfiction of lasting value.

Believing that libraries should try to represent the many different sides of an issue, they also buy books representing unpopular or controversial points of view.

They feel this philosophy helps build a library collection which will both provide information and stimulate thought — two ingredients necessary to a healthy democracy.

Q: Besides books, does the library have magazines, newspapers, pamphlets, records, maps of cities, counties, and states, telephone books, college catalogs or framed pictures?

A: Yes, and except for the college catalogs and telephone books, they can all be checked out.

Q: I'm new in town. What information does the library have about the community?

A: There is a current list of organizations in the Tecumseh area, including current officers and meeting dates. You can also consult the Community Awareness Table, where current news items about community services and events are displayed.

In addition there is an Adult Education Bulletin Board, which provides information about community recreational and educational programs, non-credit courses, and other opportunities outside formal educational programs.

Q: Do you have a story hour for children?

A: From October though April there is a half-hour preschool story time at 1:30 p.m. on Wednesdays.

During the summer there is a summer reading club and a weekly 60-minute story time.

Q: The library doesn't have a book I need. What now?

A: The library is part of an interlibrary loan network which the staff draws on for books the library doesn't have.

Five days a week the Monroe County Library System calls Tecumseh and takes requests for material.

If Monroe can't supply the items, the request is relayed to the State Library in Lansing.

If the State Library can't fill the request, they forward it to several other large public and university libraries in Michigan. The service is free.

+++

Q: Does the library have a pay phone?

A: Yes! One was just installed. Calls cost 20 cents.

Forget your 32 most important business phone numbers.

When you switch to General Telephone's Automatic Dialer 32 you'll have the wonderful sensation of adding a lot of blank spaces to your memory.

Spaces which can be occupied by even more important information.

With the General Telephone Automatic Dialer 32 those phone numbers you're always calling are at your fingertips instead of on the tip of your tongue.

There are 31 buttons for your pre-recorded numbers, including 4 colored ones for emergencies, and, next to each button, a place for the name. When you want to make a call, you just point to the person you want to talk to, and push.

The 32nd button is a "last number dialed" button. It automatically records your last manually-dialed number. So, if you get a busy signal, you can call back without re-dialing.

The Automatic Dialer 32 is just one of the services that General Telephone offers to save your company time and money. We've got everything from paging systems to the latest electronic telephone systems.

We also have the people to take care of our phones. Our communications consultants continually analyze your system to make sure that you're using it as efficiently as possible. Our service department keeps your system running smoothly, even in emergencies.

Getting in touch with our people, however, does take a little effort. You'll have to dial all the digits of your General Telephone business office.

Caro Home Work Described

CLINTON — Kay Walsh of Clinton described the work of the Caro Home for retarded and Epilectics at Caro for the members of the St. Dominic's Altar Society, held last Monday.

This institution is a state supported facility that cares for 950 persons from infancy to 30 years of age.

While care of patients by well-trained staff is provided by state funds, this only covers the basics.

One third of the patients, or 300 have no family or guardian to provide a link with the outside world.

Mrs. Walsh explained ways the members of the Altar Society could enrich their own lives by helping the Caro home.

She concluded her remarks with the reading of a poem, "The Cross" by a patient, in which he described the feelings he had as he fingered the cross he carried in his pocket.

Mrs. F. Balk reported that Appletree cookbooks are still available and will be offered at the weekend Masses.

Mrs. Geordie Poland reported that the two local clothing shops would cooperate on a fashion show, if planned by the Society in the fall.

Paul Shunard offered to lend his expertise in production of a Millionaire's Party if the Society wishes to sponsor such an event.

Appreciation was expressed for the altar linens presented to St. Dominic's church by Mrs. Charles Still in memory of her father, Thomas O'Connor.

Twenty-five year members of the Altar Society will be honored Sunday, May 1 at the 11 a.m. Mass. An outdoor social will provide everyone a chance to visit after the Mass. Arrangements are being made by Mrs. Carlos Knisely, Mrs. Balk and Mrs. Mark Bauer.

Mrs. Kinsely reported that the Lansing Council of Catholic Women will meet in Jackson at St. Mary's Church Thursday April 28, from 9 a.m. to 3 p.m.

Topic "To Christ through Bible Sharing" will be discussed at meetings under the leadership of Fr. Thomas McDevitt and Sr. Agnes Seehan, directors of St. John's Student Center, E. Lansing.

Refreshments were served by Mrs. Bruce Kruger and Mrs. Steve Georges. Mrs. Bauer won the lucky lady prize.

The engagement of Nancy L. Davis and Ralph F. Fraley is announced by her parents, Mr. and Mrs. Donald E. Davis of Clinton. Bride-elect is a graduate of Tecumseh High School, attended Washtenaw Community College, and is a member of American Business Women's Association. She is employed at National Bank and Trust Co. of Ann Arbor as an installment loan officer. Mr. Fraley is the son of Ralph H. Fraley of Tiffin, Ohio, and the late Madeline Fraley. He is a graduate of Columbian High School, attended Columbus College, and is employed as castings liaison for Tecumseh Products Co. A July 16 wedding is being planned.

Policies Set at Center

CLINTON — At a special meeting of the Smith-Kimball Community Center Board, April 12, policies for use of the center were discussed and adopted.

Board set regular hours for use of the center, with the building being unlocked from 8 a.m. to 10 p.m.

Those who plan to use the center after 10 p.m. to prepare for special events, must notify the caretakers.

Groups who regularly use the center for membership meetings and bingo are exempt from the requirement for a pre-arranged time to vacate the building.

Dr. Richard Gerson of Ann Arbor will use the tennis courts again this year to instruct in tennis lessons.

Board is also seeking someone locally to offer tennis lessons during the week.

The tennis courts are becoming increasingly popular, and the board requests common courtesy be exercised on the courts to allow maximum access to the recreation area.

Another special meeting will be held to complete plans for a new caretaker's contract.

Mr. and Mrs. John O'Connor, the present caretakers will be moving to North Dakota in mid-May, where he will attend medical school.

Next regular meeting is April 28 at 7:30 p.m. at the center.

No Interest in F-S Banquet

CLINTON — Plans for a father-son banquet were shelved Sunday by members of the United Methodist Church, when lack of interest became evident Sunday.

A mother-daughter dinner will be held May 7.

Baking homemade bread and pies has a tendency to scare even the best of cooks. If you hesitate to prepare these, or simply don't have the time, try one of these sure-fire shortcuts.

This unbelievable Beer Bread, from Irene Baran, is really as simply as the directions sound. The bread raises nicely as it bakes and is good, with only a slight flavor of the beer.

BEER BREAD

3 cups SELF RISING flour
3 tablespoons sugar
12 ounce can of beer, room temperature

Measure flour and sugar into large mixing bowl. Pour 12 ounce can of beer into flour mixture. Stir together until blended and pour into greased and floured bread pan. Bake at 350 degrees 35-40 minutes. Makes 1 one pound loaf or 2 (½ pound loaves).

+++

For a super simple coconut pie try this recipe from Irene Baran that makes its own crust as it bakes!! Delicious!!!

Through My Window

by Marda Gene Duncan

AIX SPONSA

Breakfast was late. The backyard with trees and bushes and the water of Evans Creek, as seen through the kitchen windows, added up to an inviting bird habitat. Often the bird watching is interesting and this particular morning was a super example. Mom was watching a pair of wood ducks.

She gave me a running account of what was happening. The ducks flew over Dorothy's yard, landed on a horizontal limb of the big willow, took off and circled Cameron's back yard, lit in another tree for a few minutes, and finally flew out of sight.

This was her second duck sighting. About a week before she had watched much the same performance except that time they detoured this way and landed in our walnut tree. A marvelously exciting experience.

These are the most handsome and colorful of our ducks. They are not large, weighing only one and a half pounds, and their length is given as 18 inches and their wing span 28 inches.

They have smallish bills and head crests which give them the appearance of being big headed. But it is the brilliance of the male which makes him outstanding.

He is a breathtaking mixture of iridescent green, bronze, and purple. Snowy white marking on his head and body are highlights. His chestnut brown throat and chest shade off into a light tan.

I refuse to admit that the female wood duck is dull and drab. Of course she does not have the shiny sheen that her husband sports and is a mixture of browns and tans; however, her colors are soft and subtle, her back a grayish brown and her lower tummy a buffy tan. her white throat is matched by the large white patches around her eyes.

It is because of an incident several years ago that I am so positive in my description. Never have the words "vivid" and "etched in the memory" been more apropos.

It happened on a dark gloomy morning and I am sure neither Gertie T. nor I will ever forget. Two wood ducks waddled across the front yard and as if that weren't enough, after making sure that we had a perfect look at them on the ground, they took off and gave us the pleasure of watching them in flight.

These ducks live up to their name and are tree nesters. Whereas most ducks build a nest in or near shallow water, the wood duck selects a natural hollow in the trunk of a tree, perhaps a rotted out spot where a limb has fallen.

Occasionally an old nest of woodpecker or flicker is appropriated. These are not fussy birds for the distance above ground does not seem to be important nor must the nest site be immediately on the water.

In fact, there are instances when the wood ducks' nests have been found well into the center of a wood lot by a creek or river.

After an incubation period of 29 days, the 10 to 15 white eggs hatch and the kids are ready to go. They scramble to the front door, jump to the ground, and are led to the water.

Wood ducks are also coaxed into using man made nest boxes. What a temptation — but then I thought of the kids who love to play by the creek, the cats who roam the neighborhood, and the racoons who prowl each night and I decided that really, it would not be fair to lure these birds into such an unsafe neighborhood.

Oh, by the way, two paragraphs ago I spoke of wood ducks living up to their name. They truly do for their scientific name, Aix sponsa, is a combination of Latin and Greek which loosely translates "water fowl in wedding raiment". For such as this we can have a late breakfast any morning.

Siena Theater Troupe Travels

Siena Heights College Drama - In - Education Traveling Theatre Troupe is hitting the road again to take Litte Red Riding Hood, Winnie the Pooh, Peter Rabbit, Billy Goat Gruff, and the Farmer in the Dell to fifteen Lenawee County elementary schools.

The second program of the current semester, "Little Red Riding Hood and Her Nutritional Basket" is a story for kindergarten through second grade students.

The children will be grouped as friends of the fairy tale characters. They will then learn about nutrition and good eating habits by helping Little Red Riding Hood fill her basket.

The drama should help children realize the importance of a balanced diet and how foods can affect a person's personality.

Each sponsoring teacher will be given a packet of materials for use after the drama is concluded. The packet includes suggestions for math, art, drama, social studies, science, language arts, music, health, and physical education activities that correspond to the drama.

Teachers will also be asked to evaluate the effectiveness of the program and to make suggestions for future dramas.

Members of the troupe are under the leadership of Sr. Trudy McSorley.

Schools visited or scheduled are Tecumseh Acres, Herrick Park, Sutton, Clinton Elementary, Tipton and Ridgeway.

NEEDLE
and
THREAD

Amazing the miracles that can be wrought with needle and thread!

Provided, of course, the needle and thread are in the right hands.

Tools and materials are never more important than the skills of the craftsman who uses them.

In the realm of the spiritual, God has provided us with many resources. They inspire constructive living, dedicated service, devotion to high ideals.

But what we accomplish in our spiritual quest depends most of all on the skills we acquire through parental example and religious training. The churches of our community are helping us train a new generation to design a better tomorrow — using God's pattern.

The propane torch has many important uses. It is an excellent tool with which to solder, whether you are doing home repair jobs or working creatively. You can use this torch to remove tile, putty, and paint – and even to unfreeze pipes. The propane torch comes complete in a set, which includes a disposable propane cylinder, a blow torch head, a solder tip, a control valve, and a flame spreader and head. The liquid propane is under tremendous pressure in the cylinder, and when the control valve is released the propane escapes at a 400 times greater volume. Air mixes with the gas and produces a strong flame. The various heads control the intensity of the heat.

For home repair jobs the place to come for all your renting tools is TECUMSEH RENTAL CENTER, 112 S. Pearl, 423-4470. We carry mostly everything from propane torches to leaf shredders and if you need something for an emergency we are always on call. We grant a special discount for churches that need to rent our equipment or our tools, call us for more details. If you have any questions on the operation or maintenance of tools and equipment whether it's ours or yours, we will be happy to answer them for you. Open: 9-8 daily, Sun. 9-3.

BOYS' STATE DELEGATES — These eight boys from THS's junior class have been selected to attend the 40th Wolverine Boys' State June 15 in East Lansing. To emphasize the importance of government, the eight will actually participate in political and governmental processes during the youth convention. Delegates include, front row, l-r, Don Pizzana, Jim Harris and Mark Phelan. Back, John Egbert, David Graf, Jeff Hans, and Richard Cangley. Kevin Brehmer was not present for the picture. April's Events Recounted

TIPTON — At the monthly meeting the Tipton Teamworkers signed up for summer projects and recounted events scheduled for the month of April.

April 18 at 7:30 p.m. members met at the Fry's home for softball Clinic at Vo-Tec.

District style show was April 19 at 7:30 p.m. at the multi-purpose room of Onsted School.

April 23 at 7 p.m. a feeder pig sale will be held at the fair grounds.

The club was involved in the React Emergency program held April 3.

Russell and Sally Rieves will be the assistant community leaders.

Dyle Henning showed slides of Mall day and discussed the meaning of 4-H activities.

Janet Fry explained the Fall Festival in Clinton.

Ideas were received on summer activities.

Fliss To Coordinate Activities

As of May 1, Christine Fliss will coordinate activities for Tecumseh Senior Citizens.

Mrs. Fliss has been coordinating activities for the seniors on Monday and Friday. She will also work with senior citizen groups on Tuesday, Wednesday and Thursday.

Ward Eardley, director of Tecumseh Parks and Recreations will devote full-time to other recreation programs.

City manager Cal Zorn said the decision to coordinate senior citizens through Mrs. Fliss and the Lenawee Council on Aging was administrative and will avoid duplication of services offered by the city and LCOA. Zorn did not rule out the possibility of senior citizens trips through the recreation department and said "Why not?" He also pointed out that LCOA offers a variety of trips for senior citizens.

City has contributed to operation of federal LCOA program while operating its own senior citizens program.

Since LCOA began at the Tecumseh Community Center last July, it has offered weekday lunches, homebound meals, health screening and outreach service, in addition to activities offered by the Tecumseh Recreation program for senior citizens, for a single contribution to the operation of the federal program.

Improvements to the kitchen at the Community Center were made through grants available to LCOA.

We are sure that your assistance greatly lended to our sale success and will thereby allow us to place some $1,200 back into our community for the benefit of youth and its citizens through both traditional and new club projects.

Again, "thank you" for your assistance and service to our organization.

Advertiser Is Investigated

The Herald has been informed that the operator of a business which advertised in this paper in recent weeks, seeking persons to stuff envelopes for $200 per week, with a Richmond, Va. address, is under investigation for fraud in Virginia, according to the Richmond Better Business Bureau, and the Toledo Better Business Bureau.

Colonial Music Is Program

Colonial music was the program prepared by Mrs. Fred Schober for the April "Good Friday" meeting of the Abi Evans Chapter of the Daughters of the American Revolution at the home of Mrs. Louis Schneider.

A brunch in keeping with the Easter season was served before the meeting.

Mrs. Jennings Frayer sang several old songs in their original form and Mrs. Ellsworth Robison closed the program by joining her in a duet.

The 103 year old grand piano used for the program, still in melodious tune, was one of the highlights of the program.

Lap robes, made by the members for the Veterans Hospital were displayed.

No One Appears

No one appeared Monday night to give Council an opinion on how to spend the city's federal revenue sharing monies.

General revenue sharing funds of $92,000 for 1977-78 fiscal year are budgeted for refuse collection, land fill use, city cleanups, the city's contribution to Community Action Services and for purchase of police radios.

Title II anti-recessionary funds received by the city to date are $26,600 and are for ongoing services only. These are to be used for police payroll.

These are in the 1977-78 proposed budget to be adopted by Council.

Indians Can't Rest, Play 5 Non-League Contests

Tecumseh's baseball squad had a busy second week of play with two doubleheaders and a battle with Evergreen.

The Indians beat Jackson Northwest last Wednesday 8-3 and 5-4, split a pair with Adrian on Saturday winning the first game 5-2 but dropping the second 5-0, and fell to Evergreen on Tuesday of this week 15-4.

Against Adrian, in the first game, the Indians found themselves trailing 2-0 at the end of five innings. In the sixth inning Butch Harvey got to third on two walks and a sacrifice and then slid into home on a grounder by George Lynch.

Dave Perry tied it up in the bottom of the seventh inning on a home run. Shortstop Jeff Hans iced the exciting come-from-behind victory with a three-run homer with two outs on the first pitch.

Pitcher Dave Bohannon took the win after relieving Jeff Ives early in the game striking out four and walking two. Bohannon also contributed a single as did Eric Travis and George Lynch.

The Maples turned around and shut out the Indians in the second game of the doubleheader. However, Tecumseh pitcher George Lynch, who took the loss gave up just two hits.

Adrian scored twice in the first inning and three times in the second after which they were held.

Harvey, Lynch and Greg Corley each had a hit in the second game for Tecumseh.

Mental and physical errors made the difference against Evergreen. The Indians had seven hits on five errors to Evergreen's nine hits on seven errors.

Dave Perry had a double and single against Evergreen while Butch Harvey had a double. Dave Bohannon, George Lynch, Jeff Hans and Greg Corley each had a single.

Hans took the loss on the mound striking out three and walking seven.

Tecumseh hosts its own Tecumseh Tournament this Saturday. The Indians play Jackson Western at 10 a.m. on the varsity field with Lumen Christi facing Columbia Central on the Legion field.

The winners meet at 1:30 on the varsity field, while the losers play a consolation game on the Legion field.

Next Wednesday, the Indians open league play hosting Grosse Ile.

After his operation, Dr. Sirhal was able to drive a car, and take care of his personal needs. Regarding his handicap he once commented: "It just takes determination, and one has to decide not to be sorry for himself."

Born Jan. 19, 1912 in Lansing, he was graduated from Michigan State College and Loyola Strich School of Medicine, Chicago. From 1942-46 he was a captain in the medical division of the United States Army.

He was a member of the American Association of Family Physicians.

NEW RECEPTION AREA AT AIRPORT — Harold Lange, Al Meyers Airport manager and owner of the Tecumseh Parachuting Service shows off a new reception area for pilots and parachute hobbyists at the north end of the airport. The remodeling cost several thousand dollars and includes a snack bar, fireplace and eventuallya pool table. Lange will hold an open house May 21 and 22 in conjunction with the Dawn Patrol breakfast at the airport.

'Fun or Foolhardy' but Jumping Sport Growing

By FRANK WEIR

Depending on who you talk to, jumping out of an airplane just for the fun of it is either the most exhilarating of sports or the most foolhardy.

Harold Lange, owner and operator of Tecumseh Parachuting Service is definitely of the former persuasion.

And believe it or not, he is a sane man.

Lange started the service, dedicated to initiating newcomers to the sport of parachuting, in 1966, using two trailers at the north end of Al Meyers Airport.

The operation has grown to the point where Lange recently made an addition to the building housing the service. The addition, costing several thousand dollars, is a reception area for pilots and jumpers and features a fireplace. And, eventually a pool table will be added and weather information will be available to pilots.

The addition will be featured during an open house May 21-22 in conjunction with the Dawn Patrol breakfast May 22.

Lange employes 12 jump masters, 20 alternate rigger, four licensed riggers and six commercially rated pilots. Most jumping is done on Friday afternoons, Saturday and Sunday.

And for the lion-hearted, classes are always available for beginning jumpers. Although the FAA as a minimum of requirements concerning training for a first jump, Lange insists on a six-hour training session before a first jump.

And, a pupil must demonstrate that he has mastered the instruction before going aloft. Just sitting through the classes is not enough.

New jumpers receive two and a half hours of orientation in class concerning the basics. Then they must make 20 practice jumps off a table to learn the proper way to land.

Emergency procedures are covered as are techniques for guiding the parachute to a landing. A special harnesss rig is used for learning the tricky art of controlling parachute guide ropes.

If a student passes an oral test and shows he has learned the basics, he is ready for his first jump. Jumpers must make three jumps utilizing the static line to open the 'chute before trying free-fall.

In free-falling, the jumper pulls the rip cord to open the parachute.

Lange stresses that parachuting is a dangerous sport and expects his pupils to take it seriously. He is filled with stories of jumpers who were careless. Results were tragic.

One jumper stole an alimeter from the wreckage of a plane to use during a free-fall. He intended to pull his rip cord at 2,000 feet. He never pulled the rip cord because the altimeter stopped before reaching 2,000 feet, and he was killed. An investigation revealed that the altimeter was faulty and, in fact, caused the crash of the airplane from which it was stolen.

Lange's service emphasizes safety using a main and reserve parachute for each jumper. Both are equipped with automatic devices which will open the 'chute at a safe altitude if the jumper fails to.

In addition, Lange refuses to take students who are under the influence of drugs or liquor. "People say I'm hardnosed, but if I relax, we could get people killed. I don't want that. I'm promoting good parachuting."

Lange adds, "I've trained over 20 people who've made over 1,000 jumps." Last year, the service had 975 students, and lange estimates that, since its inception, the service has handled 250,000 jumps.

The operation belongs to the United States Parachuting Association. All instructors have USPA licenses while Lange oversees the operation.

Lange is unable to be classified as an instructor by the USPA, since he no longer is able to jump due to arthritis in his knees and other injuries suffered in the service.

As a member of the National Guard, Lange was captain of an exhibition parachuting team called the 'Chuting Angels'.

He is also manager of Al Meyers Airport.

'Place for Teens' Is TM Target

"A Place for Teens" (APT), a 12-week summer activity center and program for teens, was adopted as a desirable goal by the Tecumseh Area Town Meeting Organization (TATMO), Tuesday night at a public meeting.

Pat Tressler, committee chairman for APT reported that the Tecumseh Community Fund Foundation has pledged $1,000 to APT for summer dances. TATMO members hope this will form the nucleus of a summer program and eventually a year around program.

APT committee is an off shoot of the first survey on teen recreation needs taken by the TATMO task force. Survey showed high response for teen center and willingness by the teens to work on the project.

Summer dances will be held with a disc jockey at the high school cafeteria every other week. All senior and junior high school students will be welcome, may bring one guest, but no out-of-towners. I.D.s will be issued to the junior high students for the first time so they may attend the dances.

Five adult couples will chaperone. Gerry Greene will be the parking lot attendant. A small admission will be charged for the APT project.

The Tecumseh Community Fund Foundation has requested more information about APT and Donna Roe, another APT member read a letter to the 20 residents at the TATMO meeting.

Plans for a 12 week summer program would include:

+ A rented facility, cost of $1,000 for the summer, to be renovated by teens at approximately $200 for fix-up materials.

+ A full-time director paid $3,000 for 12 weeks.

+ Paid adult leaders to assist the director.

+ A code of conduct, written by the youth and APT board of directors.

+ An APT board of directors composed of four teens and six adults, responsible to TATMO. Pat Tressler, Cal and Martha Poppink, Donna Roe and Richard Montcalm were named as adult candidates.

+ Total cost for summer operation would be $6,000.

+ Summer hours would be seven days a week, Sunday-Thurs. 10:30 a.m. - 10:30 p.m. and Fri. and Sat. 10:30 a.m. - 12:30 a.m. Teenagers (13-19) would be welcome.

A full-time program would cost $35,000, the APT committee estimated.

Suggested methods of financing included donations, a living memorial for a place for teens, money making projects sponsored by teens and possible federal or state grants.

$50,000 Bond Frees Accused

Rebecca L. Davis, 20, of Tecumseh is free on $50,000 bond pending her trial June 28.

She stood mute Tuesday morning at her Circuit Court arraignment before Judge Kenneth B. Glaser Jr. on a charge of second degree murder in connection with the death of her new born son last month.

Davis was arrested by the Michigan State Police on March 25. The child's body was found in a plastic garbage bag along a road in Hillsdale County.

The case was remanded to Lenawee County by State Attorney General Frank J. Kelley after it was determined the child was born in Tecumseh.

Rainy Days Top 3 Inches

Four rainy days here - Friday, Saturday, Sunday and Monday - produced over three inches of recorded rainfall at the city's wastewater plant.

Delay Purchase of Golf Course

Although Council took no action Wednesday of last week, relative to the purchase of 332 acres and Raisin Valley Golf Club from Willis Porter, owner, city interest continues towards acquisition of the property. Council's failure to take action last week has given Mr. Porter an opportunity to check tax advantages in selling the property, and the possibility of the city obtaining matching government funds in case a portion of the property is donated to the city.

City manager Cal Zorn says discussions with government officials reveal that the city can not receive any grants for recreation this year, but possibly in future years. Grants have already been allocated for 1977.

He says the Hillsdale, Jackson and Lenawee County region is eligible for approximately $250,000 a year, and a government representative told him that Tecumseh, upon approval for grants, could receive about $40,000 a year.

Most of Council is obviously in favor of procuring the property for city recreation - golf course, bike and motor bike trails, snowmobile trails and possibly one or two ski slopes. Much of the property would have to be developed, especially the 160 acres south of the golf course.

As for matching government funds, costs for the city could be much less than originally anticipated. Mr. Porter has indicated that he has firm offers far in excess of the $350,000 offer he's extended to the city.

The difference between his top offer and the offer he's made to sell to the city would qualify for matching government funds. For example, if he has an outside offer of $400,000 and he's willing to sell to the city for $350,000, the difference, or $50,000, would be considered a gift and would be eligible for matching funds - or $50,000 from the government.

At last Wednesday's meeting, five residents voiced opinions Three opposed the purchase because of higher priorities - mainly an auditorium for the city and schools - and one opposed the purchase of the property because of costs. Fifth party supported the purchase.

Although some residents have openly supported an auditorium, there is also opposition, based on total cost of such a building, number of times it would be used, and the fact that Croswell Theater in Adrian lacks sufficient countywide support in maintaining it financially.

$259,000 Project

Bids were opened last week for construction of a new Russell Rd. from Green Hwy. to Mill, with Cunningham-Gooding low bidder at $259,000.

Cal Zorn, city manager, says he will present the bids to Council next Monday with a recommendation that the low bid be accepted. Completion of the street, which will include curb and gutter, is scheduled by Nov. 1.

The low bid was approximately $30,000 higher than expected. Federal monies will pay $107,000 of the cost.

Also included in the Russell Rd. project, but not included in this stage, is a new bridge over River Raisin and extending Russell to Rogers Hwy.

Vandals Hit Site Twice

Vandals broke into the House of Prayer Friday night, escaping with an unknown number of instruments.

Police were called to the W. Bidwell building Saturday and found a window broken out to enable entry. A desk in the office had also been forced open. The breaking is the second at the coffee house in a little over a month.

In other police action:

April 20 - Joseph M. Wagner, 19, was arrested for open intoxicants after police stopped him for turning right improperly from Evans Street onto W. Chicago.

Long Motors reported the larceny of a battery valued at $35 during the night. The battery was taken from a pickup on the lot.

April 21 - Harold F. Crittenden, 43, was arrested for open intoxicants after police found three open cans in his auto.

Police stopped an Ohio car heading west on W. Chicago without taillights and arrested the two occupants for open intoxicants. The driver was also cited for using studded tires. Arrested were Mary

AMATEUR WORK — Thieves who lifted the Merkel Furniture safe recently apparently were amateurs, according to local police. Although they finally opened the safe, their approach was not professional. Story Backfires for United Way

Two Hudson industries are reportedly refusing to contribute to the Lenawee United Way because the $12,000 donation from the Tecumseh Community Fund Foundation to the city of Tecumseh for tennis courts was mistakenly reported as a gift from the United Way in a story by a county daily newspaper about two weeks ago.

The Tecumseh Community Fund Foundation (TCFF) was founded in 1959 as a community chest, independent of the Lenawee United Way. Although TCFF does make contributions to some service groups funded by Lenawee United Fund.

At its March 1 meeting, TCFF decided to donate $12,000 to the city of Tecumseh for matching local funds for lighted tennis courts at Satterthwaite Park. City must raise $43,000 matching funds for the courts.

"We're not giving to tax supported causes," explained Chester Elwell, executive director of the Lenawee United Way. He explained the basic difference between the LUW and the TCFF is "direct services to people. . ." not capital improvements. The LUW contributes to 16 medical agencies and is the main contributor for youth groups in Lenawee County, that is Scouts and Camp Fire.

Elwell told the Herald Monday that "two of the best givers" to the LUW in Hudson have "refused completely to give to us" because of the confusion.

"We could lose thousands of dollars in something like this. We've got to get on the stick," Elwell said. "We've got a lot of fires to put out."

Bank Employs New Auditor

Dale L. Chadderdon has been employed as bank auditor by the United Savings Bank of Tecumseh, succeeding Nina F. Wright, who, for health reasons, has resigned as vice president and auditor.

The new auditor, 23-year-old native of Niles, will begin his new position here on Monday, May 9. He is presently employed by Michigan National Bank - Michiana at Cassapolis. A former auditor for the bank, he is now an assistant vice president there in the bank's operations department.

His banking experience includes one and a half years with Security National Bank, Battle Creek, and has been with the Cassapolis bank - formerly Commercial National Bank - since July of 1971.

After graduating from Buchanan High School, Mr. Chadderdon attended Lake Michigan College at Benton Harbor, where he earned an associate degree in applied science with a major in accounting.

He also holds a bachelor's degree in business administration from Western Michigan University, and has completed several courses in banking and bank auditing.

He and his wife, Nancy, expect to move here shortly.

Mrs. Wright has been with United Savings Bank for over 17 years, starting here on Feb. 29, 1960. She was the first manager of the Sutton Road office.

In December 1972, she became a vice president, and last September, she was appointed the bank's auditor.

DALE CHADDERDON

Reader Writes

Letter to the Editor,

As a former councilman and past president of the chamber of commerce, I had a small part in establishing what is now downtown Tecumseh.

A walk down Chicago Blvd. and the downtown area today shows the need to re-think our business attitudes. There is a growing number of empty stores, and existing buildings become older every year.

Some of our businessmen are highly successful, others are not - the successful, as is probably their right, spend the winters in warmer climates, leaving others to maintain Tecumseh's business.

It seems to me that some thought must be given as to how we can strengthen our business district.

My list of things that ought to be done consists of:

1. Eliminate the parking meters - they have done their job - there is ample parking - merchants must park so that customers have easy access to store entrances. Why not, "Tecumseh the city without parking meters".

2. Arrange Sunday hours - merchants and employees don't like it, but customers do. Take a drive on Sunday to a shopping center and see who is shopping.

3. Longer banking hours - at the very least, a walk-up window on Chicago Blvd. during most shopping hours would do a lot to encourage business.

4. Improve traffic flow - many things need to be done but the quickest and cheapest would be marking of lanes and turns with arrows leading into our main streets.

5. Create a consumer panel to survey needs - find out what the shopper wants and will buy - what are the kinds of shops and merchandise that Tecumseh doesn't have.

6. Develop a corporation or authority to buy - remodel - finance store buildings and to help existing merchants to expand.

There are probably other ideas that need to be considered, and it is not too early to start.

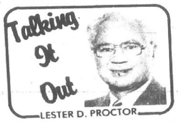
Talking It Out



LESTER D. PROCTOR

A service to the community we have been providing for years is the use of medical aid equipment, such as wheelchairs, walkers, crutches and hospital beds (which will be set-up for you). All of these items are at no cost. Asked of the user is your name, address, phone number, and approximate length of use.

As in the case of Death, we never know when the need for such an item will arise, nor do we know precisely the length of need. Just as in Grief, the recovery period for an illness or incapacitating injury depends upon the individual.

So does **Use** of the equipment. Fortunately over the years an overwhelming percentage of our users have treated the equipment as though it were their own. That's all we ask. Treat the equipment as if you owned it yourself; for you never know when you may need the very same item again.

Other items available at no financial charge unless abused are folding chairs and folding card tables which are handy for hundreds of special occasions. Except for graduation week when the quantity is limited so as to accomodate as many of the numerous inquiries as possible, our inventory will manage most requests.

If you have any further questions, please feel free to call us.

You Are What You Eat

by Shirley Weekley

Brunch, a combination of breakfast and lunch, is becoming an increasingly popular meal, ideal for weekends, family get-togethers, and morning club meetings. Here are some suggestions to help plan your next brunch.

With fresh mushrooms in season right now, what better time to prepare this delicious mushroom omelet?

MUSHROOM OMELET ROLL-UP

1 lb. fresh mushrooms or 2 cans (6 to 8 ozs. each) sliced mushrooms
4 tbsp. butter
8 eggs
3 tbsp. cold water
3 tbsp. baking powder
1 tsp. salt, divided
1 can (8 oz.) tomato sauce
1/8 tsp. ground black pepper
2 tbsp. chopped parsley, optional

Rinse, pat dry and slice fresh mushrooms, (makes about five cups) or drain canned mushrooms. In a large skillet melt butter. Add mushrooms; saute five minutes; cover and set aside. In a large bowl, lightly beat eggs with water. Combine flour, baking powder and 3/4 teaspoon salt and add to egg mixture, and mix well. Pour into a greased and waxed paper lined jelly roll pan. Bake in preheated 375 degree oven until eggs are set, about eight minutes.

Meanwhile, in saucepan heat tomato sauce with remaining 1/4 teaspoon salt and pepper, parsley and one half the sauteed mushrooms. Heat until hot; keep warm. Turn omelet out onto board; gently remove waxed paper. Spoon remaining half of the sauteed mushrooms over the omelet. Roll-up, from the narrow end, jelly roll fashion. Gently lift onto a serving plate. Spoon some of the tomato sauce over the omelet roll-up. Serve remaining sauce in sauce boat. Yield 4-6 servings.

Featuring only quality Boron products, this is one firm which refuses to be in the gasoline business just for the profit if it means sacrificing customer service. You can be assured of a friendly greeting, a clean windshield, under-the-hood service, and the lowest possible price at the pump that the wholesale demands will allow.

Drive on into the BORON OIL CO. and have your tank filled. We can't promise that the gas will be less expensive than anywhere else. . .nobody can do that anymore. We do think you'll notice a big difference in service, though, and as the authors of this 1977 Review we urge all of our readers to give this station a chance to show you what the word "service" really means!

Macon Montage

By Sharon Connors

A slight delay this week in starting my column. This morning as I went into the basement to start the wash, a hamster, that has been missing from an upstairs cage for several weeks, scurried across the floor. I couldn't catch it and after an hour on my hands and knees with a flashlight, I gave up and went to the typewriter!

What do people do on a rainy Saturday afternoon? Tie a quilt, clean the house, watch TV, take a nap, bake some bread, go shopping. Last Saturday as I collected for the American Cancer Society, I was well received by all my neighbors and found them in the midst of a variety of these things.

I was happy to meet neighbors Michael and Joyce Berry and daughters, Christina, 4 and Angela, 2 who moved in last October. They live in the former Dean Moore home and love it. The Berrys have adopted a stray brown and black puppy this week. The dog wandered in the day the Edison men started working. It is a well trained dog and if your dog is missing, give Berrys a call.

++

Mr. and Mrs. Harold Ross attended the wedding of Carol Ruth Almas and Dennis Zagata in Livonia last Saturday evening. The Almases are former neighbors of the Rosses.

++

Activities of Mrs. Sharon Mohr's Camp Fire group include a visit to Austin Pickford's little greenhouse in Macon on Short St. Each girl received a plant. The group is getting ready for the doll parade and a ceremonial in May. Mother's Day gifts are being made. Next Thursday after school, the Macon Blue Birds and Camp First girls will go flying in an airplane. The outing will be from the Calhoun Airport on Rogers Hwy. They will fly over Macon so if you are in your yard or if you hear a plane, wave "hello."

Mrs. Helen Hover from Findlay, Ohio recently spent a productive week at the home of her son, Mr. and Mrs. Paul Hover and family. Grandma did lots of sewing and when the family took her back home, a turkey dinner was served to all at the home of Glen Hover, Paul's brother.

++

Mark Jones celebrated his 9th birthday April 23. The whole family enjoyed dinner at Bill Knapp's in Toledo, Ohio on Saturday night since that was where the birthday boy chose to go.

++

Mrs. Clare Camburn and son, Robert have returned from a five day trip to Florida. They stayed at the home of Mr. and Mrs. Richard Hoehn and son, Ricky in Orlando, Fla. Mrs. Hoehn is the former Mindy Camburn, daughter of Ralph and Eunice Camburn. They did lots of sightseeing and said they had some good food. Highlights of the trip were a visit to Sea World by the whole group. Bob had a day at Disney World with Rick and Ricky. Mrs. Camburn said she enjoyed the visit with her great-grandson who will be five next fall.

++

Former Maconite, Ralph Long now of Weston, Ohio is a patient at Herrick Memorial Hospital.

Lately we have not concerned ourselves with such earth shattering and weighty questions as "how high is up" and "how loud is loud." This is a wonderful time of year and things literally change overnight. Each morning when the curtains and drapes are opened it is a whole new world which greets our eyes. And the greens just keep getting greener and greener.

Spring is a favorite time of year — everything is so pretty and bright now. Our early and prolonged heat wave seems to have speeded up the process which always was fast. One morning the maple buds were all red, the next they were fuzzy, and now there are tiny leaves which will soon replace the blossoms.

A maple tree in flower is a lovely sight — the delicate and lacy blossoms are a yellowish green or a greenish yellow. It is all a matter of lighting.

There is no question about the forsythia. The bushes are bright and beautiful, shiny, golden yellow. As I dictated this, Mom's sarvis tree is a mass of delicate white and pink flowers and the ornamental crabs are beginning to show pink or red. The magnolia trees are in full bloom too.

If history does repeat itself this means that we should be in for some much needed rain. Gertie S.'s magnolia always reaches its peak of beauty only to have the lovely creamy flowers ruined by a heavy and hard rain storm. This year we need rain so badly that I am afraid our thoughts are more concerned about it than the spoiling of the blossoms.

Of course, another factor contributing to our excitement about and appreciation of all this spring time activity is that this is the first time in three years we have been here to see it. Florida's spring is pretty, the flowers indescribably beautiful, but it does not match the dramatic suddenness of the seasonal change around here.

In the bird world the rush is on too. Not only are the birds on the move to family rearing areas but they are all hurrying to acquire new courting clothes as well.

The wonderful little goldfinches come to mind first. After wearing their mates' tan and olive all winter, the males are now 'blossoming out' in bright yellow outfits. This is the time of year when the handsome male goldfinches become pretty wild canaries.

The scene stealers of the past week have been the colorful purple finches. Male purple finches. After a long winter of entertaining ladies and only an infrequent gentleman or two, the tables have suddenly been turned and we are proudly playing host to eight or nine male purples at a time. They are absolutely gorgeous. Their raspberry color is so bright and beautiful —even on a dull day the tops of their heads look like soft plush velvet.

Not to be left behind in the fashion parade are the cardinals. Two pairs are still in the neighborhood but little of the courting is being done at the feeders. Often he 'courts her with some fancy sunflower seeds and, although the seeds are available, we have not seen much of that very special feeding act.

Possibly the finches, both purple and gold, are monopolizing the food trays. They are not, however, deterring the bluejays. They are as big and bold and brash as ever.

All and all the spring happenings are coming thick and fast — and the greens keep getting greener and greener.

General, Wife Entertain Guild

Brigadier General William Larned and his wife, Lucille, entertained members of the Daughters of St. Peters Guild, Tuesday afternoon, in the parish hall of St. Peter's Episcopal Church.

Appearing as Christian magicians, they interspersed their feats of magic with the Bible quotations. They related interesting experiences encountered in their work with the Salvation Army in Adrian and during their travels.

Brigadier Larned spoke briefly concerning the Emergency Disaster Canteen. He told that plans to purchase the unit at an approximate cost of $1,700 began in 1974. When it became possible to order the unit three weeks ago, the price had increased to $25,440. Delivery is expected in June or July.

The completely equipped unit will be housed in Adrian, but will be available to surrounding counties when needed. In case of a disaster in other areas outstate, the U.S. Air Force will fly it to that point free of charge.

In the absence of the president of the Guild, Mrs. Beatrict Gilmore, first vice president, presided at the business meeting.

Next meeting will be May 4, beginning with a noon potluck at the home of Mrs. Vera Driscoll. Mother's Day will be observed with Mrs. Driscoll as chairman.

A dessert luncheon was served by Mrs. Driscoll and Mrs. Arlene Thoss.

Schedule Hearings

Tecumseh City Council set two public hearing dates Monday night.

May 9 at 7:30 p.m. in Council chambers, a public hearing will be held on the 1977-78 budget.

May 16 at 8 p.m. during the regular meeting, Council will hold a public hearing regarding a special assessment district for installation of curb and gutter on Burt St.

Councilman Len DeMoss voted against the special assessment district because of an earlier assessment for sewer levied on Burt St. properties.

At a public hearing Monday night, no objections were raised to the rezoning of property west of Marlboro Apts. from single family to multiple dwelling for the purpose of building condominiums by Charles Cook.

Complaints Are Minor

Minor thefts, drunk driving charges and vandalism dotted the local police blotter the past week.

On April 27, Joe Williams, 1200 Sunset Dr., reported a magnetic sign stolen at Rusty's Drive-In, and Ted Sisson, 421 W. Cummins, reported a car battery, valued at $52, stolen from a pickup truck.

Also Wednesday of last week, John T. Glaser, 20, Adrian, was charged with driving under the influence of liquor. He was arrested after police followed him north on N. Evans St., driving the wrong way and speeding.

Last Friday, Charles E. Stoner Jr., Ypsilanti, was arrested on N. Evans near Brown St., for driving on a suspended operator's license. A check also revealed that he was wanted on a traffic violation in Highland Park.

Sunday, Dalton G. Seegert, 44, Petersburg, was arrested on W. Pottawatamie St. on a charge of driving under the influence of liquor.

The same day, Thurman Stanley, 509 W. Brown, reported four hub caps and from six to eight tapes taken from his pickup, parked overnight in a driveway.

Police officers on patrol Monday discovered a break-in in a building near the city barn. After a window screen was torn off, a log was used to batter in the boarded up window. Contents of the building were not taken nor damaged.

Tuesday, officers arrested Rickey A. Stevens, 20, Leslie, and Robert D. Juckett, 21, Whitmore Lake, for open intoxicants in their car. Arrest was made in the parking lot of the Church of Christ.

BROTHERS ARE PARTNERS — Jim Erb, left, shakes hands with his brother, Dick, in consummation of negotiations that made the identical twins owners of the local Chevrolet and Buick agency, taking over from Walt Beglinger. Their father, Frank Erb, observes from the driver's seat of a 1925 Chevrolet. The Erb family is well known in the county with the father a former dealer and the brothers previously associated with other dealers.

PHOTO BY CORTLAND HUNT

Brothers Buy Agency

A possible first in the state occurred last week when identical twins - Jim and Dick Erb - purchased the Beglinger-Reid Chevrolet-Buick agency here.

It's probably the first time that identical twins have become partners in acquiring an automobile franchise.

Purchase of the agency, one of the oldest in the state and owned for over 50 years by the Schneiders before being sold last year to Walter Beglinger and Hal Reid, was completed after several weeks of negotiations. Reid resigned from the agency several weeks ago.

The Erb family is well known in auto circles and throughout Lenawee County.

The 37-year-old brothers started in the car business with their father, Frank Erb, who operated Erb Buick in Adrian from 1952 to 1964. Since then, the brothers have worked with other dealers.

Dick has been associated with Bud Classon Chevrolet in Adrian, 1and for the past 10 years he was with John Underwood Chevrolet-Olds-Pontiac near Clinton.

Jim, before joining Beglinger-Reid about two months ago, was with George Underwood Ford-Lincoln-Mercury in Clinton.

Their experience totals over 20 years, and their father, who will work with his sons here, has over 40 years in the auto business.

Congressman To Visit

Fourth District Congressman Dave Stockman's Mobile Office will stop in the Tecumseh area during the week of May 9.

The Mobile Office will be staffed by personnel to help district residents with any federally-related problems they might have.

Schedule is:

May 12 in Tecumseh from 12:30 - 3 p.m. at Chicago and Evans and Clinton from 3:15-5 p.m. at the Clintonian Inn.

May 13 in Britton from 3:15-5 p.m. at the Post Office.

$1.7 Million Budget Set for Approval

According to the city charter, Council must approve the city's 1977-78 budget Monday night, when a public hearing will be held prior to adoption.

Any opposition of the budget is unlikely as officials verbally have approved a continuance of the 13 mills, currently collected, and an overall budget of about $400,000 less than a year ago.

Based on the city's assessed evaluation of $39,734,200 - up from $39,323,016 of a year ago - the city will collect $516,544 in local tax dollars, compared to $511,199 in 1976.

A year ago, the budget was $2,090,875, about $400,000 higher than the $1,702,691 planned for the next fiscal year. Last year, approximately $505,000 was included in the budget with these funds derived from federal grants and a bond issue for the now scheduled Russell Rd. project. This half-million is not included in the new budget.

While several funds dropped, three increased considerably. The general fund is up approximately $75,000 because of additional employees, salary increases, and higher electric power rates.

Parks and recreation fund is up because of a planned $83,000 expenditure for new tennis courts at Satterthwaite Park. Power rates and salary increases also have necessitated a bigger public utility fund.

Major sources of income are local taxes, state and federal taxes, local utilities and a federal grant.

Accept Low Bids

Tecumseh City Council accepted Monday night the low bid of Les Dallas, Inc. of Tecumseh for three Dodge Royal Monaco administration police cars at $4,647 each.

However not all Council members were satisfied with the low bid. A debate ensued on the city's obligation to accept the low bid.

Council members Jay Tressler and James Palmer voted against the low bid, preferring the track record of the Chevrolet as cited by Tressler from the 1977 car issue of Consumers Report. Underwood Chevrolet was the second lowest bidder at $111 more per car.

Council member Len DeMoss questioned the city's obligation to the low bidder. He was concerned that bidders would be reluctant in the future. "I think we're obligated to go with the low bid," he argued.

Mayor Harold Eason said he would prefer the Chevrolet but agreed the low bid should be honored. "If his car doesn't fit the bill, if it doesn't do the job, then we just shouldn't ask him for a bid," Easton reasoned.

City manager Cal Zorn said that under state specifications listed the Dodge Monaco, Ford LTD, Chevrolet Impala in the same category. City presently has two Dodge administration vehicles. Some Council members questioned if a year was enough to establish a track record.

"We should make up our minds what is acceptable before we ask for a bid. But I don't think we're putting people in a death car by buying a Dodge Monaco." said Council member Carlton Cook.

"Don't you think we should talk about this before?" questioned Council member Mary Bowers. "Maybe this is one of the mistakes we keep making every year."

"There is nothing to say you have to accept a low bid but I'd say to give a reason," offered Cal Zorn.

Earlier in the meeting Council accepted the low bid of Woodhaven Equipment from Northwood, Ohio for a J.I. Case 580C loader backhoe for $16,512, about $460 less than the bid of Case Power and Equipment of Blissfield.

Later in the meeting Council authorized the purchase of two IBM Selectric II typewriters at $747 each. Although this bid was $153 more per typewriter than from Typewriter Sales and Service on an Olivetti, city preferred IBM because of added features and repairs to existing Olivetti equipment.

Alarm OK'd for Church

Tecumseh City Council approved the installation of a monitoring device at the Tecumseh police post for an alarm at the First Baptist Church.

Mayor Harold Easton excused himself from the action.

Council approved the monitor because the church is a non-taxable property, although located outside the city and city's role requires nothing more than monitoring.

City had reservations however about installation of similar type of fire alarm for the church in the fir barn because the city is no longer paid by the call and false alarms may not be reimbursable.

City previously refused the request of Tecumseh Plywood for fire alarm installation in fire barn because it is a business located outside the city. Owners decided not to annex.

No Factor for Tecumseh

While several townships have received factors on assessed valuations, the city of Tecumseh, along with Hudson and Morenci, did not receive factors which would increase valuations - and taxes.

Only city to receive a factor was Adrian, and it is only .028 percent.

Townships in our area receiving factors are:

Cambridge Township - .147 percent.

Raisin - .037 percent.

Tecumseh - .045 percent.

Townships of Clinton and Franklin are equalized as assessed.

Special Session on May 10th

A special meeting will be held May 10 at 7:30 p.m. at the Tecumseh Community Center for the purpose of coordinating a program to fit the needs of the Tecumseh area senior citizens.

Volunteers are needed for the expanded services being offered to senior citizens.

Volunteers may work in the area of friendly visiting with senior citizens, sharing craft ideas, etc. For more information, readers may call Christine Fliss, 423-2107, ext. 25.

Together Again

Mother's Day — Sunday, May 8 — will be the date for the doubtlessly joyful and tearful reunion of a mother and daughter who were separated for 50 years.

Margaret DeVoid, 58, of Grand Rapids is the daughter and Gladys Gosse, 75, of Florida is the mother. They are the mother and grandmother of Judy Knowles of 206 Cairns.

Judy explained that her mother and grandmother were separated at age seven and Judy and her mother were raised by another female relative.

Over the past years, Mrs. DeVoid tried to find her natural mother but without success. She attended Catholic schools and these records were not helpful. She moved with her own family from Michigan to Connecticut then to Florida - where she owned property in Cocoa 70 miles from her mother without knowing it - and then moved back to Grand Rapids, Michigan.

She found her uncles living in Grand Rapids, where the family was originally from. With the help of a Grand Rapids reporter, Mrs. DeVoid and family were able to find her mother.

"Everything seemed to fall into place last weekend," told Judy. "I got a call from my mother about 2:30 a.m. Sunday. She said 'I found her. I talked to her.' She was as happy as a lark."

The reunion will take place in Grand Rapids on Sunday. Mrs. Gosse will travel by bus.

Two weeks later, the two women will visit their daughter and granddaughter and her family, Mr. and Mrs. LeRoy Knowles and children, Raymond 18, Susan 16 and Jimmy, 12. Mrs. Gosse has a total of six grandchildren and six great-grandchildren.

"I'm glad for mother's sake," Judy told. "I'm really happy for her." Judy said she has mixed emotions herself but is anxious to know her natural grandmother.

Did you know you can pre-plan funeral services at no charge? You can. HERE'S HOW TO DO IT: **First,** come in and complete our Pre-Planning Form with our help. The form covers all the above-mentioned choices and many others. **Second,** you will receive copies of the Form for safe-keeping with your lawyer, accountant, designated estate administator or family member. **Third,** a copy remains with us which you may review from time-to-time and update as you require.

Pre-Payment Options: Several pre-payment plans are available, too. if you choose to pay in advance. But pre-planning does not necessarily mean pre-payment. Stop by for full details.

Solicitors Must Have License

Solicitors affiliated with the Unification Church were in the Tecumseh area last week trying to obtain donations from citizens.

Solicitors in the city of Tecumseh are required to be licensed with the city. However the group is determined to be non-profit and is not required to have a license.

The Unification Church followers, sometimes referred to as "Moonies" after their leader Moon, have received nationwide publicity regarding their controversial cult.

Seniors Forthcoming

The Michigan Commission of Services to the Aging endorsed the proposed Michigan Senior Discount Program at its monthly meeting last Friday.

Under the proposed plan, the Michigan Office of Services to the Aging (OSA) would organize the statewide program. Persons age 60 and over would be issued a free discount card. The card itself would include a picture and social security number. The card will entitle the card holder to a discount, and can also be used for identification.

Senior citizens carrying the discount card will be eligible for varying discounts offered by service and retail businesses participating in the program. Businesses will be asked to participate in the program on a voluntary basis and will set their own discount provisions.

The Michigan Legislature is now reviewing the proposed program and appropriation request sumitted by the OSA.

OSA is prepared to initiate the program by the middle of this summer, the actual start date will be dependent upon legislative action.

Skills Taught at Boysville

by Sharon Connors

"Sis I've never read a book before in my life and I've read five since I've been in this program" — the "Sis" is Sister Annrita Bauer RSM, head of the reading program at Boysville. The statement was made by one of the young men in the program.

All the sisters on the staff are called "Sis" and brothers are called "Bro." The program, which has an average of 33 young men, is concentrated to help them develop reading skills in a short time. Sister Annrita who came to Boysville three years ago from Our Lady Star of the Sea, Grosse Pointe, has developed the program.

It uses a composite of materials ranging from comic book type reading (the comics portray parables which young men can relate to their moral background), to read-along materials (listening to what they are reading as they follow along), and many other workbooks, etc.

Pleasure reading is also important and all materials relate to a teenage boy's life.

"We take them where they are' in this individualized program, the main object being to put them at a level they can meet success, as they need this," said Sister Annrita.

A speedioscope is used to build reading rate along with comprehension, speed is stressed only to the point of developing an ease and enjoyment of reading rather than it being a chore..

Sister Annrita's background includes teaching first grade through high school and adult speed reading. She has a bachelors degree from Mercy College in Detroit and a masters and reading specialist degree from Cardinal Stritch in Milwaukee, Wisc.

Teachers assisting her at Boysville are, Brother Gerald CSC, Ann Xavier, Rita Cook and Carla Braun. Until this week, the classes were held in one end of the library but has now moved into its own spacious room.

The room is attractively decorated with drapes on the windows, lots of plants and carpeted floors. There is a reading corner which has several easy chairs, a table and lamp, a home atmosphere for pleasure reading.

The room also has many cubicals for use when projectors and earphone work is scheduled.

This new room was made possible by private donations from the Krajenke Auto Leasing Co. of Detroit and the Sisters of Mercy of Detroit. The reading program is funded by Title I, P.L. 8910, federal funds for salaries, instructional materials and aides.

Boys coming to Boysville are tested by Sister to determine their need for her class.

"These boys have a large listening and speaking vocabulary at their command and they have to learn to transfer this to the written word. As they progress, one can see a whole world opening up for them."

If a boy leaves Boysville before Sister and her staff feel he has reached a necessary level, a long list of words called "survival words" are immediately covered.

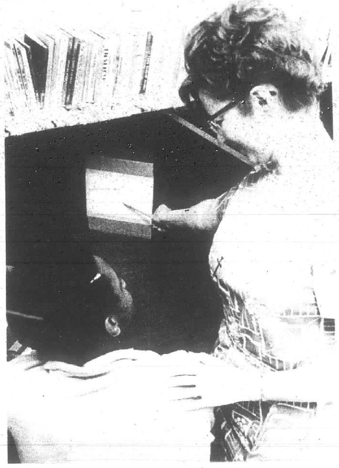
All the boys learn how to read and fill out forms they will use in their future, for example a social security form.

A completed file is kept on each student to record his progress. This helps the teacher see what the student worked on yesterday and involve him in something different today to keep his interst. This is the program's prime concern.

In addition to reading, responsibility is taught and parental type concern is shown for each boy. If he didn't have a pencil he is requited to buy one as he knows the rules which say he must bring a pencil to class. Things like inappropriate dress and an unbuttoned shirt are brought to their attention. A feeling of self worth is imparted to these young people.

A motto on the bulletin board catches the visitor's eye:

"What we are is God's gift to us, What we become in our gift to God."



BOYSVILLE NEW READING ROOM — Sister Annrita Bauer R.S.M. shows one of the students the operation of an aid in the new reading room. The techniques, developed by Sister Annrita, are aimed to teach students lifelong learning skills.

NARROW SIDING RETAINS ARCHITECTURE — The front view of the home of Mr. and Mrs. Miguel Wagner, 125 Brown St. was recently covered with narrow siding when the Herald photographer shot this picture. Narrow siding, whether vinyl or aluminum, helps an older home retain its architectural appearance, market value and makes maintenance easier for owner.

How To Pick Siding

(Reprinted courtesy of The Saline Reporter; Edited for The Tecumseh Herald)

If you own an older home and think a facelift might be in order this year, perhaps some of the tips offered here by Jan Frank, Saline Historic District Commission chairwoman, can help you maintain the economic value of your home while enhancing its appearance.

It makes dollars and sense to carefully think through spring fix-up projects on older homes. Like some of the attractive older women in our midst, homes can actually decrease in beauty with the wrong "cosmetics."

Conventional aluminum and vinyl sidings are popular in Tecumseh. But to increase the long-term value of an older home, it is best not to use any artificial covering if the original wood siding can be saved.

Poorly chosen siding can destroy some of the natural beauty of an older home and can also reduce the resale price of the house by $2,000 to $3,000 — the cost to a new owner of removing the siding and doing a good restoration job.

Ann Arbor's old Westside is a good case in point. One need only take a drive down Sixth St. in Ann Arbor to see how many homeowners have either removed, or are in the process of removing, artificial siding.

If the original wood siding cannot be saved, take some clues from the design of the house in selecting a home material that enhances the older home.

It is most important to use artificial siding in the same — usually narrow — width as the original. Depending on the style of the house, look at white, off-white or one of the many new authentic, subdued colors on the market.

Save important architectural details as well as the trim around the windows, doors and porches.

This is where choosing a good contractor is important. Look at some of the other jobs he has done. Does he do a rip-off and cover-up job? Or does he take the care and have the skill to butt the new siding up to and around the original trim and detail?

When purchasing siding, don't be misled by claims that aluminum siding by itself has insulating properties. Unless you are installing extra insulation along with the artificial siding, the siding itself will do little to insulate your house. You will have to do other interior insulating to lower winter fuel bills.

If replacement of original storms and screens is necessary, use wood or the painted type of aluminum windows now available. Avoid raw aluminum windows and doors that detract from the appearance of an older building.

Follow a few smart consumer rules:

Beware of the telephone hustle and watch out for "bait and switch" tactics. In Tecumseh, anyone selling door-to-door must have a solicitor's permit and must be registered with the city.

Read all contracts before signing. Make sure there are no blanks. Get more than one bid. Ask for names and addresses of former customers.

A good Tecumseh area contractor who is interested in doing business here for a long time, will want to do a good job. He can help you select siding for your older home. Top manufacturers of aluminum and vinyl siding have done a lot of work recently in creating sidings to enhance an older home.

Readers with questions about colors or about what details and trim should be saved may contact Mrs. Carlton Cook, Tecumseh's Historic District Study Committee chairwoman or the Tecumseh Area Historical Society, Richard N. Lewis president.

Co-Op Banquets May 10-11

Speakers for the 10th annual Lenawee County Employer-Employee Co-op Banquets will be Rex Willnow, special needs coordinator for the Intermediate School District, on May 10 and Rex Martin, Judge of Lenawee Circuit Court, May 11.

The Co-op banquets are held each year to give recognition to the people who have trained and worked with students on the Co-op program. It is a way of showing appreciation for the cooperation of these employers. In addition, both Co-op students and their employers receive certificates of recognition at the Co-op banquet.

The banquets have been so successful that it has become necessary to schedule them on two nights in order to accommodate all the participants. Approximately 250 students and their employers attend each night.

To plan the banquet, 22 Vo-Tec coordinators work with students to make arrangements for the events, which are held at the Lenawee Vocation-Technical Center at 6:30 each of the two evenings.

On May 10 students from Addison, Clinton, Hudson, Morenci, Onsted and Tecumseh will be attending. On May 11, those attending will be from Adrian, Blissfield, Britton, Deerfield, Madison and Sand Creek.

The banquet is prepared and served as a final examination for the students in the Food Preparation program under the direction of Mrs. Jane Anne DuBois and Mrs. Lois Marvin.

Other Vo-Tec programs are also involved, including horticulture, business office, distributive education, printing and data processing.

Through My Window

by Marda Gene Duncan

Oh ho, that will teach you, Marda! As usual I am running a bit late with my reading and thus it was only after last week's article was dictated that the March issue of the "Purple Martin News" crossed my reading table. When I talked about purple finches and mentioned the nine males who had lately been visiting the near-my-window feeders it was not done in a bragging manner. It was an exciting thing and I was sharing — however, when I come to think of it, nine male purples could easily sound a shade like boasting. I was brought down a peg or three to read how many Bessie Walker had banded.

A number of years ago on a return trip from Florida we detoured away from our usual route and spent an extra day in Mt. Juliet, Tenn. This is near Nashville and, after some time at Andrew Jackson's home, The Hermitage, we had a most delightful visit with this same Bessie Walker at her lakeside home.

An amazing person, Mrs. W. must be pushing 80 and, from all reports, is going as strong now as she was then. At the time of our visit she was totally involved in bird feeding and had built many feeding stations herself. Some of her rigs were quite ingenious.

Soon we were hearing from Bessie that she was expanding her operation to include caring for sick and injured birds. This is a difficult job, time consuming and all too often heartbreaking. It requires special knowledge and a great deal of trial and error.

Her next venture was bird banding and Mrs. W. has put her hard won license to good use. According to Carol Knauth's article in the "Purple Martin News," Bessie banded 87 purple finches in November and December and 1,104 in January.

Imagine, 1,191 purple finches for just the first three months of the 1976-77 winter. What must her whole count be? I am not sure I want to know — perhaps I will be happy with my nine males at once. And on second thought, I might even brag about them!

I could also brag about the white-throated sparrow. The two who still come to the near-my-window feeders are absolutely handsome. (At least, as of this dictating, they are still coming.) Their appearance belies what I am too often inclined to say and what many of the bird books show in regard to their head markings. Pretty and beautiful are far too mild. The yellow spots between the bill and eyes are far brighter than any of the pictures show and I remember saying that these color spots were not easily seen. Well, during the cold weather months they really aren't too obvious. But this is spring —

Our two white-throated sparrows are sporting yellow markings which are as bright as any goldfinch's. Furthermore, the black and white stripes on their heads are simply outstanding. The lower parts of their faces are a soft gray and the same color extends around to and down the upper breasts. The large white bibs on their throats are outlined by fine black lines. Super birds.

I have said little this spring about the bird songs, the lovely musical serenading which fills each and every day. The cardinals whistle, the robins carol, the bluejays scream, the grackles wheeze. There are also flickers who laugh, gold finches who titter, and pine siskins who lisp.

Although the cowbirds are far from favorites I must say that their song is not unpleasant. It is a rather high-pitched, quite musical, three note phrase.

Yesterday, however, was the day for bird talk. The windows were open and soft warm springtime air was pouring into the room — all sorts of pretty serenading was coming in too. Suddenly a loud clear whistle dominated the chorus. It was a rich and mellow sound which pushed everything else into the background. We could not see the singer but there was no doubt as to his identity. Lord Baltimore Oriole is back again!

For The Record

A typographical error was made in the Phyllis Strohl and Robert Bale wedding nuptials story last week.

It should have read:

The Rev. Allan Gray, pastor of the United Methodist Church of Tecumseh, officiated at the ceremony for the daughter of Mr. and Mrs. Amil Sokoloswki of Wamplers Lake and the son of Mrs. Walter Bale of Tipton and the late Walter Bale.

Pretrip Meeting Planned May 24

The Nova Scotia pretrip meeting will be held at 9:30 a.m. on May 24 at Piotter Center, Adrian. Final discussion on the trip arrangements will be made including proof of citizenship, custom regulations, type of clothing, and departure transportation arrangements. A happy Mother's Day to all moms! The day will find brand new mothers, Mrs. Bruce Dennis, and Mrs. Herbert Short each enjoying the day with their new babies and families.

In addition to celebrating Mother's Day Mrs. Roger Ross will welcome her mom and dad to Macon as new neighbors. I, myself, am looking forward to having my son, Mike, who hasn't been home since last October (if his leave is approved).

Appropriately the Macon Methodist Church will have its annual mother-daughter banquet May 7 at 6:30 p.m.

++

It was birthday time again at the Dean Jones home. This time the birthday girl was daughter Julie who was 15 years old May 2. The family celebrated Sunday with family dinner and of course ice cream and cake. Friends Gail Bigson and Nancy Phelan surprised Julie with a slumber party at the Gibsons' home on Friday evening.

++

Former Maconites Herbert and Meredith Short are the proud new parents of a son, Michael Herbert born April 26 at Bixby Hospital. He weighed 7 lbs. 7 ozs. and joins brothers Mark and Matthew at home in Petersburg. Grandparents are Herb and Emogean Morden. A carnation was placed on the altar at the Macon Methodist Church in his honor Sunday morning.

Beware of Political Solicitors

Tecumseh area residents should be alerted that there is no knowledge of a legitimate solicitor for the Democratic Party circulating in the area at this time, said Jeffrey R. Ely, 311 W. Chicago Blvd., State Central Committeeman, 4th District-Lenawee County.

The following is a letter from Ely in response to reports from across the county:

"Over the past week I have received several reports from across the county that someone is soliciting contributions to the Democratic Party and related functions in this area.

"The Lenawee County Executive Committee of the Michigan Democratic Party is, at this time, not aware of any legitimate solicitor. As a member of the State Central Committee, I am not aware of any legitimate solicitor.

"I would urge that if you are contacted by someone by telephone in the next few days asking specifically for money for the Democratic Party, you take added precautions to make sure that the solicitor is legitimate.

"Contributions can, of course, always be made to the Democratic Party through the County Executive Committee without any risk."

HOW DOES SHE DO IT ?

Knitting is Mom's thing . . . sweaters, skirts, scarves, the works. Somehow in her spare time she keeps house, raises a family, participates in her church activities, collects for the community fund, is a den mother, and on and on.

How does she do it? She evades this question.

If you ask me, a lot of people aren't like Mom. They stick to one job, one hobby, one project — and frequently turn their back on others.

It's people like Mom who make "community" mean something. From her, the young learn that adding — not dividing — brings us together. That's what the church is all about . . . LOVE.

'His Land' at Ridgeway

RIDGEWAY — Ridgeway Church of the Nazarene will show a one-hour color feature motion picture, "His Land", on May 8 at 7 p.m.

"His Land", the story of Israel from ancient to modern times, takes you on a journey through space, time and current events. You see graphically the fact that Israel today is a living testimony to the words of the prophets when they proclaimed that Israel would take her place among the nations of the world.

Picture features Cliff Barrows and Cliff Richard, England's popular star, who sings a number of Ralph Carmichael songs, some of which were written on location. Words of Scripture come to life as the two men reflect upon the events that in recent years have confirmed much of the ancient prophecies.

The motion picture has been called a musical journey into the soul of a nation.

The Rev. James Stephenson, pastor of The Ridgeway Church of the Nazarene invites the public to see this color feature.

BRITTON'S PAST

Old Ledgers

By Thelma Younglove

BRITTON — Years ago a number of farmers kept ledgers in a business-like manner. They usually started keeping records at the time they began farming and continued as long as health and eyesight permitted.

Reading through those well kept ledgers revealed some interesting facts. The oldest ledger dated back to 1905. It's owner registered the prices and dates of articles purchased and products sold.

In 1905, a ton of hay brought $7.40. Think of all the time and hard work that went into producing the hay using horse drawn equipment and much manual labor then having to sell it at that price. Compare the 1905 price with present day prices.

In 1906 hog producers received $7.50 per cwt. for hogs. In 1907 they were paid even less. Prices had decreased to $5.25. Another entry dated 1924 stated that dressed hogs were 10 cents per pound. Two dressed hogs that weighed 362 pounds brought $36.20. How much dressed pork would $36.20 buy today?

In 1924 a veal calf weighing 160 pounds sold for 10 cents a pound. How would the $16 the farmer received then compare to the value of a veal calf at present.

Poultry prices were also very low. In 1915 a 19½ pound turkey sold for 20 cents a pound or $3.90. Eggs were 17 cents a dozen. Geese were 16½ cents a pound.

Twenty-one ducks weighing a total of 139 pounds sold for 19 cents a pound or $26.41 for the lot.

Sixteen roosters were sold at 15 cents a pound. How did those hard working farmers manage on the money they received for their time and labor?

Some time during the year of 1917, a farmer sold a cow weighing 800 lbs. for five cents a pound. The same year a pair of three-year old colts brought $300. Colts of that age were usually ready to be broken (trained to be harnessed, obey commands, and be used for work.)

Farmers not only recorded the items sold each year, stating the price per unit and the amount received, but they also kept a careful record of what they spent and for what.

The cost of items purchased is just as interesting and enlightening. In 1913 a hair cut was 25 cents. Overshoes $1.25. A window pane and a lantern globe each 10 cents. Shoes were $2.50. Work shirt 75 cents. Stockings 7 pair $1.05 (Bet the housewife darned each hole when the stockings began to show wear.) Two pair of rubbers $1.50. Mittens 15 cents and cloth 10 yards, each 15 cents.

Farmers purchased many other articles including - axe handle 25 cents, hay hook 25 cents, scoop shovel 50 cents, garden rake 40 cents, four screen doors for $8, straw knife $1, milk pail 25 cents, broom 55 cents, soap stone 15 cents, lamp wick 10 cents, fly net 30 cents (fly nets were put on horses over their harnesses to keep flies from biting the animals and making them uncomfortable) horse in shed 10 cents (Dundee and Tecumseh each had livery stables where a person could shelter a horse or team for a small fee).

In August 1916 a Model T Ford was purchased from Will Clark (Britton's Ford dealer) for $370. In 1918 auto license cost $9.75. 40 gallons gas was $8.40 and kerosene was 10 cents a gallon. Axle grease was 25 cents.

The cost of food has always interested people. In 1905, 4½ lbs. of butter at 16 cents was 72 cents. ¼ lb. of pepper was 10 cents. A pound of raisins was 13 cents. In 1913 celery was 10 cents.

One hundred pounds of sugar $4.50. (Farmers bought sugar, flour, and salt in quantities). A barrel of salt was $1.25. Peanuts 5 cents. Castor oil 10 cents. Peaches were $1.25 a bushel and apples were 50 cents per bushel. Coffee was 30 cents.

Looking through those old ledgers makes one wonder how the owners managed to keep such complete records. After thinking about the question, one comes to the conclusion that the records were not kept for income tax purposes but for the individual's satisfaction.

Then the question how did a person find time to be so explicit? Having thought about the matter for awhile, one decides that in the early part of the 1900's there were no radios or television sets to command a family's attention and few went out evenings. That time was used to keep records of business transactions.

Many thanks goes to Earl Murphy, one of Britton's senior citizens, for loaning his carefully kept farm ledgers.

Historical Society Meets May 17, Willow Run Project Discussed

Prof. Flavia Reps of Washtenaw Community College, Ann Arbor, will be featured speaker at the next regular meeting of the Tecumseh Area Historical Society on May 17 at 7:30 p.m. in the Clara Waldron Room of the Tecumseh Public Library.

Ms. Reps will discuss the Willow Run Oral History Project, of which she is supervisor.

During the Second World War, Henry Ford converted a sleepy farm community of some 600 families east of Ypsilanti into a massive industrial complex which produced the Liberator bomber, the famed B-24. By the end of the war he had created an instant-city with a population of 42,000 people, many of them workers recruited from Appalachia.

Ms. Reps is compiling a history of the Willow Run community making use of modern oral history techniques. Interviewers are engaged in recording impressions by former residents and workers of the area who made the startling transformation from rural to urban living styles.

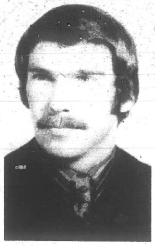
The project entails three data-gathering phases: the farm families living at Willow Run before the war, domestic life and working conditions at the project during the war years, and finally the aftermath-closing down the plant and peacetime utilizations of its facilities.

Ms. Reps has collected an impressive array of slides and tapes bearing upon the project, including firsthand impressions of Henry Ford, Charles Lindberg, and others engaged in the enterprise.

Her program will consist of slides, tape recordings of workers and their families, and a general survey of the impact of the project upon the cultural and economic life of Southeastern Michigan.

Professor Reps, who holds the M.A. degree in Sino-American (Chinese-American) relations from Georgetown University, is a specialist in the use of auditory history and archival film with special studies in those fields in London and New York.

The meeting is open to the general public without charge.



Stephen J. Freckelton, son of Mr. and Mrs. James Freckelton, 124 Brown, will graduate in June from the Michigan State University with a masters in business administration in finance. Stephen is a graduate of Tecumseh High School, served four years in the Navy and is a graduate of Adrian College. His wife is the former Ann Schultz of Adrian.

RENOVATED INTERIOR OF PRESBYTERIAN CHURCH: REDEDICATION SUNDAY.

Rededicating Church

Rededication of the newly renovated First United Presbyterian Church, 211 W. Chicago Blvd., is expected to proceed as planned Sunday during the morning worship service with open house from 2-5 p.m., despite a minor accident Friday in which a workman slipped and his leg poked through the ceiling.

Shortly after a reporter-photographer team from the Jackson-Citizen Patriot toured the church Friday afternoon at about 2 p.m., one of the workmen from Mosher Electric of Monroe slipped and fell trying to install the last of the long awaited brass chandeliers. His leg went through crawl space between the ceiling and roof, puncturing the ceiling. He was shaken but not injured. Plasterers and painters were at work the next day to repair.

Originally a rededication was scheduled for February, but the delay was caused by materials needed to restore the chandeliers.

The church will again open for public tour on May 21 and 22 from 1-6 p.m. during Promenade the Past.

Present Show

The Contemporary Artist Association will present a group show May 15 at Patterson Park, Van Buren St.

Members of the group are Raymond Jarboe, Shirley Martin, Thomas Rudd, Kenneth Thompson, Susan O'Laughlin Wilhelm, Carol Stachnik-Schneider and John Schneider.

Their credits include many group and one-man shows throughout the country and awards in such shows as the Scarab Club, Adrian Art Show, Lenawee County Fair, AAAA Membership Show and shows in various museums.

The Contemporary Artist Association is a newly formed group of professional artists with common goal of bringing contemporary art to this area.

In an effort to achieve this goal, they are presenting this show in a public spirit. Artists will greet the public from noon to 5 p.m. A poster commemorating this event will be available at the show.

A modern and ballet dance will be performed by the members of the Tecumseh Dance Workshop.

"Can a Funeral Director Conduct Funerals of Any Faith?"

The answer is "yes" for most experienced funeral directors. We have acquainted ourselves with most of the local religious customs and can advise you about them.

From the time we and the clergyman are called, we are in close touch with each other so as to pay strict heed to the family's wishes for any and all religious services. It is important for you to contact your own pastor, priest or rabbi EARLY so he can help you -- and us. If you don't happen to be active in any church, we can suggest an appropriate clergy person.

During the time of the funeral planning and service, your religious faith can be a mighty strong support and source of comfort to you. To include meaningful portions of your faith in the funeral service can render additional comfort to those attending the funeral.

If you have any questions about the funeral service and any religious practices, feel free to contact us by phone or stop in for consultation.

Director Urges Families To Fill Questionnaire

The director of the Family Health Project of The University of Michigan School of Public Health urges that the roughly 1,500 Tecumseh residents in receipt of the bright yellow "Family Health Questionnaire" fill it out and return it as soon as possible.

"The family orientation of this research makes it absolutely vital that each family member receiving a questionnaire fill it out and return it," Dr. Ernest Hardburg said. "If any family member doesn't take part, that individual makes the information gathered from the other family members unusable for a major part of the study."

He said that anyone who has lost his questionnaire, or has experienced difficulty in filling it out, can call the project office for assistance, 423-7417.

The office will make personal phone calls to determine the fate of unreturned questionnaires. Since this is only the second time such a method has been used in health research, the project is important as a test of the method as well as for the health knowledge it will ultimately furnish.

The Family Health Project office is located at 900 W. Chicago Blvd. The project is part of the ongoing U-M Tecumseh Community Health Study.

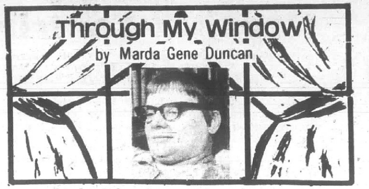
Through My Window

by Marda Gene Duncan



Cowbirds! It has been said many times before but oh my, it is still so very very true. They are not unattractive birds and their short little song is really quite pleasant. If only, they would not travel in such hordes and if only their morals were better. But they do and they aren't — thus, instead of being an exciting treat, the cowbirds are not on this bird-watcher's list of favorites.

Without a doubt the blackest mark against them is their parasitic habit of using other bird's nests. The female cowbird lays a single egg in the nest of a host bird and writes finish to her (the cowbird) role of family rearing.

In each cowbird's territory usually five nests are thus violated. The unsuspecting victim incubates the whitish egg, which is evenly speckled with brown, and raises the hatchling.

Often the cowbird's egg is larger than the host bird's and almost always its incubation period is shorter. The young intruder either throws out the remaining eggs or kills the other nestlings. It can be a direct murder or simply a matter of letting them slowly starve to death. Being larger, it demands and receives all the food brought to the nest by the parents.

One expert, Dr. Herbert Friedmann, estimates that there are over 200 different species of birds who fall victim to the cowbirds. Fortunately about half of this number are not always fooled.

Robins and catbirds often puncture the foreign eggs and toss them overboard, the pretty little yellow warblers simply put a new floor in their nest and start all over again, the chats (a type of warbler) desert the nest.

But song sparrows, wrens, vireos and many other birds, who construct open nests, raise the orphan youngsters with as much care and devotion at they give to their own.

There are those who theorize that because this behavior has been going on for so many years and still the imposed upon species continue to thrive and prosper, the whole 'scheme of things' just must be another facet of Mother Nature's intricate plan of the survival of the fittest.

Well that may be. However, statistics say differently in regards to the rare Kirtlands' warblers. These birds, who are known to nest only in certain areas of Michigan are definitely unable to cope with cowbirds violations. Their carefully watched population took a heartening upswing in the test areas where cowbirds were carefully controlled.

Also, friends who several years ago watched a poor over-worked little wren valiantly trying to find food for the big lumbering cowbird youngster who tagged her around their backyard — these people do not harbor many kind thoughts about cowbirds, I am sure.

Nothing is 100 percent bad though. I must admit that the cowbirds are quite pretty. The males have coffee-with -a-dash-of-cream brown heads and iridescent black bodies. The females are gray with a light bib under their bills. Also their black eyes are very noticeable when seen up close. Dark bills and dark legs are common to both sexes.

Now, at this time of year, the huge flocks of cowbirds have broken up and mated pairs are defending their territories. It is also now that we are most apt to hear their courting song which is really not too hard on the ears. There is a sweet liquid quality to the rather high pitched, squeaky trill.

Once the foster-parent reared youngsters are on their own, the large flocks will again form. As they invade yards and feeders the cycle will be completed. And I still will not put them on my list of favorite birds.

School Projects for Michigan Week

By Kathy Brown

Through music, history, geography, writing, field trips and food, students of Tecumseh Public Schools will celebrate Michigan Week, May 14-21.

Special projects in grades kindergarten through 12th grade have been arranged by local teachers in cooperation with school principals and Pete Clark, chairman for the Michigan Week Education Day, May 19.

This is the first time in about five years that the schools are taking a concerted role in Michigan Week activities.

One of the planned activities, perhaps more visible to the community, will be the six Michigan Week displays in downtown windows, each display representing one grade level from a different elementary school.

Many of the projects in the lower elementary levels will deal with identifying the Michigan state capitol, bird, flower, tree, flag, cities and lakes.

In the higher grades, Michigan facts about history, careers, industrial and agricultural products, tourism, and famous people will be studied through writing booklets, reports, designing crossword puzzles, viewing film strips, taking field trips and making oral report .

Some of the unique projects at each school are:

A Michigan quilt will be made by the fifth grade students at Pattersons School. Each student is embroidering a square showing an important industry, tourist attraction, state fact, etc.

At the Tecumseh Acres School, students will have a memory package for Michigan Week which will include materials ordered by the Michigan Week Committee. Field trips will provide on-the-spot experiences of careers and products in the Michigan economy. Michigan foods will be served at an all-Michigan breakfast and picnic on the school grounds.

At Herrick Park and Ridgeway Schools, Michigan map reading skills will be developed. A papier-mache relief map of Michigan will be made. As an exercise in metrics, miles will be translated into kilometers. Sketches of Michigan nature scenes will be painted and sketched. History projects will deal with Tecumseh in relation to Michigan.

At Sutton and Tipton Schools, special art projects will be completed and teachers will integrate Michigan Week in the creative writing exercises.

The Tecumseh High School will have a mock city council meeting Moday afternoon, May 16 at city hall. The Shawnee Marchers will parade May 18. The choir, directed by Jimmie Rice, and Stage Band, directed by Gerald Bach, will perform at the Mayor's Exchange Day dinner at 7 p.m. in St. Elizabeth Center.

10 Baptized at Methodist Church Sunday

Baptized in the Tecumseh United Methodist Church were Stacia Ann Pelton, daughter of Mrs. An Pelton; James John Burk and Jerry Bill Cissne, sons of Mrs. Marilyn Cissne of Tecumseh.

Class of 10 confirmation youths will join the fellowship of the Tecumseh United Methodist Church:

Timothy and John E. Deming, Susan Erb, Diane Johnson, Timothy Kittle, Jeffrey Korte, Mark McLoughlin, Wendy Mauer, Karen Nash, Shawn Partridge.

The Junior Choir will sing "My Master Was So Very Poor" by Robert Graham.

Area Arts Council

Robert D. Nulf from the Michigan Council for the Arts will be in Tecumseh on May 17 to explain how a local arts council can be formed to achieve an on going arts program in town. He will speak in the meeting room at Tecumseh Public Library at 7:30 p.m.

A function of the Michigan Council for the Arts is to help communities establish local arts councils to promote and coordinate the arts in their areas. There are now about 80 local councils in Michigan, many of them in small and medium-sized communities.

These councils are involved in a number of activities. Most survey cultural resources in the area and develop long-range cultural plans. Some coordinate fund-raising and apply for grants to bring special programs in the visual arts, music, dance and drama to their communities.

Others coordinate area events by publishing arts calendars so that local arts groups can get maximum attendance at events.

Nulf will explain what an arts council is, describe the activities of some Michigan councils, and explain what is involved in starting a council. He will also detail the qualifications of a good arts council member and describe the duties and responsibilities involved.

Interest in an arts council arose at a recent Tecumseh Area Town Meeting Organization (TATMO) gathering. Several Tecumseh residents, including Deborah Harris, Jim Harris, Gerald Johnstone, Carol McClure, Mark Phelan, Dee Jay Rinehart, Donna Roe, Tom Rudd and Rodney Turner have been studying the matter.

Kick Off for Band

Several activities this week for Tecumseh band students will kick off with a junior high school band concert May 12 at 8 p.m. in the high school.

The Shawnee Marchers will perform in the Holland, Mich. Tulip Festival Parade Saturday. Students are asked to bring a sack lunch and their own beverage.

Donations Days for the Tecumseh Band Boosters will be held at A&P on May 18. Cards will be distributed to junior and senior high school band students. Five percent of the total sales will be a donation to the bands. All card holders may shop during regular store hours on May 18.

The 18th annual Band Banquet will be May 19 at 6:30 p.m. in the high school cafeteria. This year the banquet will include varsity, junior varsity, stage band and flag corp members and their families.

Each family is asked to bring a meat dish, another dish of own choice to serve six-eight persons and own table service. Coffee and milk will be furnished.

Awards and medals will be presented and graduating seniors will be honored.

Banquet committee members will contact the families to determine the number of people coming. Committee members are Joan Roberts, Lori Egli, Ilse, Amrhein and Virginia MacGeorge.

Fiddler's Jamboree

The Michigan Fiddler's Association is having its 9th Fiddler's Jamboree and Old Time Square Dance in Monroe on May 14 at the Monroe Community College Cafeteria from 2-6 p.m. Dance begins at 7 p.m. with live callers and fiddler's band.

Some of the tunes fiddlers will play date back to European immigrants who colonized Monroe in the 1700's.

Fiddler's Jamboree is part of Michigan Week celebration in Monroe sponsored by the Monroe Historical Society.

Macon Montage

By Sharon Connors

MACON — Two very talented Macon ladies presented programs in Macon last Saturday night. Judy Ross spoke to the Macon Historical Society and Judee Williamson at the Macon Methodist Church mother-daughter banquet. Judy Ross displayed her many craft items which included pillows, dolls, and her paintings on wood. Judee Williamson brought samples of her famous miniatures and answered questions on her work. I was privileged to be the guest of Mrs. Agatha Camburn again this year at the Macon Church banquet and enjoyed the evening of Christian fellowship. Then I hurried home for the historical society meeting.

++

If 140-year-old barn beams, barn siding and the bricks from the old Strand Theatre in Tecumseh could all have talked last Saturday night they would have had much to add to the Macon Historical Society meeting. The meeting was at the home of Pat and Sharon Connors. In the remodeling several years ago, the before mentioned materials were used and made a "historical" setting for the meeting.

The group voted to have all the pictures loaned to the society reproduced so they could be returned to their owners. Bob Bush went over the legal papers connected with the Mills School (which he is giving to the society).

A Macon village sign should be materializing in the near future. A work-bee at the Mills school will be held Wednesday night at 6 p.m. Bring a hammer and join the group.

++

Mary Lou Moore was the toastmistress at the Macon Church mother-daughter banquet. Swiss steak dinner was served by the church men.

Virginia Thomas toasted the daughters. Her daughter, Judy Stentzel, responded with a toast to mothers and her two daughters, Charlene and Sharon, toasted the grandmothers.

Emogene Morden presented special music and sang a solo. Three of her granddaughters, Kelly and Kristie Feldkamp and Lori Ables, sang "This Land Is Our Land." The entire group sang "Happy Birthday" to Nancy Eldred and Linda Hanes.

Prizes were awarded to Mrs. J.R. Welch of Tecumseh, the oldest mom with a daughter present; Katherine Lindsey, the youngest grandmother; Kim Biskner, the youngest mother with daughter. Ruth Raloff gave the devotions.

++

The Tecumseh High girls JV softball squad was in Macon last Thursday for a team spaghetti dinner at Kathy Perry's. The entire team along with Coach Julie Murphy enjoyed the dinner. The girls played Saline the next day and were victorious.

++

Seven ladies from the Faith Circle of the Macon Church traveled to Chelsea last week to visit their adopted sisters at the Chelsea home. Those going were Geraldine Osburn, Lois Jordan, Delia Hill, Mary VanValkenburg, Evelyn Hawkins, Shirley Riggs, and Agatha Camburn.

The group took along a large selection of fruit for the ladies. Among those visited were Minnie Sarvey, a former Maconite who celebrated her 96th birthday last March.

Mr. and Mrs. Ed Zick, son Philip, his wife, Brenda, and Dana and Dale enjoyed Mothers day dinner in Jackson.

++

Carl and Evelyn Hawkins had a Mother's Day celebration at their home on Sunday and also celebrated their daughter, Nancy Eldred's birthday. Those present were the George Hawkins family, the Marvin Sotler family, the Larry Crittenden family.

Mrs. Eva Kittle is now home after surgery at Herrick Hospital several weeks ago.

++

The Camp Fire doll parade for Tecumseh area girls was held last Saturday in Tecumseh. Each group of girls made a banner for the event. Macon did well in winning prizes for these as Lois Hover's "Singing Crickets" won first place; Sharon Mohr's "Macon Bluebirds" won second, and Janice Slick's "Tipton Adventure Girls" won third. Janice is a former Maconite.

++

Paul Hover flew to Findlay Ohio last Sunday with his brother, Robert from Jackson. Robert picked him up in Tecumseh and he went to visit his sister, Diamond McDougle who was in the hospital following surgery.He also enjoyed having dinner with his mom, Mrs. Helen Hover on Mother's Day.

++

Happy to hear Mrs. Bessie Travis is home from the hospital! Her home address is Rt. 1, Stein-Rod-Baker Farm, Anna, Ohio 45302.

Church meetings Wed., May 18, 9:30 a.m. Hope Circle at Sharon Mohr's home Thursday, May 19, 6:45 p.m. Childrens Choir; 7:30 p.m. Channel Choir.

Kiwanis Group To Attend Dinner Mayor's Day

Tecumseh Kiwanis will forgo its regular meeting next week and attend the Mayor's Exchange Day dinner at 7 p.m. May 18 at St. Elizabeth Center.

State Representative John Mowat Jr. will be guest speaker. Kiwanians' spouses, Rotarians and spouses and general public is also welcome.

On May 14, Kiwanis will post parking meter stickers to remind residents about "safeguarding against crime, part of an ongoing project for Kiwanis in 1977. Kiwanis will meet at city lot at Pearl and Chicago Blvd. Saturday.

At the May 10 Kiwanis meeting, 23 members were present. Guests included Howard Smith, Ed Ciesielski, Nick Klak, Eugene Ulrich, Leonard Garlick, Bruce Williams, program chairman all of Milan and Paul Holcomb, lt. gov. div. 9.

They presented the program on tornados and what to do about them. Silvia Orwillo, radiological defense officer of Ann Arbor's Police Department and Maj. Walter Hawkins of the civil defense presented the talk and filmstrip.

Other guests were Richard Germond, lt. gov. div. 8 and Alan Beatty, new owner of Meyers Industries.

No matter what power tool you use, there are some general rules you should bear in mind. Everyone, of course, wants to operate equipment safely, but it is easy for accidents to happen in a careless moment. Before you begin applying a machine, make sure that the piece on which you are working is held in place — perhaps by a clamp — and that it is situated on a strong table or workbench. When operating your power tool you should stand in a place where you can reach every part of the workpiece without losing your balance. Allow yourself plenty of elbow room in which to work.

You will find at TECUMSEH RENTAL CENTER, 112 S. Pearl, 423-4470, everything you need in the way of tools to do that project you have been putting off. When you rent from us you won't have to worry where to put the item after you are through with it, it comes right back to us. Now is the time to start on your spring project, so come on in and look around and rent anyone of our many fine items. Open: 9 a.m.-8 p.m., Sun. 9-3.

HANDY HINT:

Electric Rates to Increase

CLINTON — Another increase in electric rates - two mills this time - to defray expenses of the new electric plant engine, were voted at the meeting of the Village Council, Monday night. New rates will be effective May 15.

Council granted permission to a group, represented by three citizens, to construct horseshoe courts on the site of the old tennis courts near the electric light plant. These are to be according to specifications of the council and at no cost to council.

Oak Tree plat for Pleasant Valley IV was presented and referred to the zoning committee.

Purchase of a sewer machine from Coleman Co. at a cost of $796 was authorized.

Bids will be sought for new trash containers for placement in the business block. Present containers are unsatisfactory.

Bids will be reviewed after request for references are received, for painting the water tower.

Shannon and Co. financial consultants, will be engaged to handle the financial arrangements for the new sewer plant.

Those persons who requested changes in the proposed zoning ordinance will be contacted by letter prior to final action. This action will be taken at a special meeting May 20 at 7 p.m.

Continuance of meeting was scheduled for following night to handle contract bids on sewer plant.

Opens Country Hardware and Garden Centre May 13

CLINTON — Clarence Adams of Detroit has purchased the property at 13653 E. Michigan Ave., 2 miles east of Clinton, formerly operated by the Alton Emerines as Country House Antiques. Earlier, the antique business was owned there by Laura Sisson of Tecumseh.

Adams, who has had 25 years experience in a similar business in Detroit, will now operate the Country Hardware and Garden Center at this location.

He will reside in the house with his wife, Rita. The family has four grown children and seven grandchildren.

Open house will be held Friday, May 13, for the new business, which will feature a complete line of hardware, houseplants, hanging baskets and pottery. Business opens at 9 a.m. daily.

Just getting started last weekend, Mr. Adams set out a few geraniums on a stand in the front yard and was swamped with customers who bought 500 plants before the weekend was over.

Mr. and Mrs. Emerine, well known in this area as former owners of the Lock, Stock and Barrel, antique business in Clinton several years ago, have now moved to Knoxville, Tenn., where he has transferred with Ford Motor Co.

TO FACE THE WORLD

They are now pushed out of the nest. Meantime, these baby birds are still looking to their mother, chirping for their food. She'll get it for them. But when the time comes to let them go, she will know it instinctively.

Human mothers are not always so wise. It is hard to see your children go out to face the world on their own. Sometimes your instinct is to keep them in the nest.

You have to let your children go. But will they go with a firm sense of values, level hearts and heads, knowledge of the meaning of faith?

Where to find all this? Try your church!

Tecumseh's track squad is looking more impressive each week.

Construction at City Hall Is Scheduled

Tecumseh City Council Monday night accepted the low bid of Krieghoff-Lenawee Co. for the amount of $106,800 for an addition to Tecumseh City Hall.

Architect David Siler's estimate on the 1,320 square foot addition to the east of city hall was $120,000.

Addition includes new counter in general office, remodeling of the heating system and air conditioning and carpeting.

Heavy construction work is expected to begin the first of June with completion in 130 days, estimated the contractors.

City hall addition was originally proposed two years ago. Council rejected the first round of bids last August to try and obtain public works money which it did not receive.

Architect Siler pointed out Monday night that although city hall will actually be expanded, heating system will not need to be enlarged due to insulation and heating system improvements to add efficiency.

Three Bids Are Received by Schools

School board members Monday evening accepted three bids for the construction of a special education classroom and a general purpose classroom — for special education students — at the high school.

One classroom will be solely for special education students while the other will allow a mixture of the general student population with special education students.

Low bid was from Robert W. Holmes, 708 River Acres, in the amount of $91,371. Krieghoff-Lenawee bid $95,700 while Henry deKoning of Ann Arbor bid $104,444.

The bids were turned over to the building committee for evaluation. The Board does not have to automatically accept the lowest bid.

Officials are hoping that construction could begin by mid-June with completion coming before the opening of school next fall.

The Lenawee Intermediate School District will share costs with the Tecumseh School District in a percentage not yet determined.

Suspects Observed in B&E at Park

Tecumseh police have three definate suspects, two of them minors, but have made no arrests yet in connection with a breaking and entering incident on Monday.

Four young eye-witnesses reportedly observed the three suspects break into the Tecumseh Park recreation building about 8:15 Monday. The witnesses saw one suspect break out the boarded window with a large rock and the other two crawled into the building.

The youngsters told police they ran to one of their mothers, who in turn called the police.

Police arrived as two of the subjects were running from the men's room in the building. The third subject was observed at the southeast corner of the building.

A resume of other police investigations includes:

May 11 - Robert H. Bolyard, 40, of 1702 Shepherd Rd., was arrested for driving under the influence of Liquor (DUIL) after police stopped him on westbound M-50 for weaving and driving left of center.

May 12 - Garry L. Humphries, 19, was stopped by police on patrol and arrested after a file on him revealed that Clinton State Police had a traffic warrant.

Walter A. Paulson, of 416 W. Logan, was arrested for DUIL after police saw Paulson almost hit a second auto on W. Chicago. Paulson reportedly swerved into the left lane and then pulled into the Clark Station for Police. A passenger in the auto, a minor, was arrested for possession of beer after police saw the young man throw a beer can out of the car window.

Steven L. Fitzgerald, 18, and Marc A. Nobis, 19, of Toledo, were arrested for open intoxicants after police initially stopped their auto on W. Chicago for having a brake light out.

May 13 - David G. Rangler, 31, of Clinton was arrested for DUIL and for driving with a suspended license. Police stopped Rangler on S. Wyandotte with no lights or helmet on on his three-wheel motorcycle. The vehicle was not registered.

Lance E. Durr, 27, of Clinton was arrested for DUIL after police stopped him on westbound W. Chicago with a rear light out. Durr failed field sobriety tests.

May 14 - Lee W. Frost, 31, was northbound on N. Ottawa when he crossed the center lane, turned onto Evans, and then drove onto Walter Street the wrong way. Police arrested him for DUIL.

Tim R. Powell, 22, of Clinton was arrested for DUIL after he reportedly weaved in his westbound W. Chicago lane and ran off the roadway and back on.

May 15 - John R. Haveman, 25, of 306 E. Pottawatamie, was arrested for DUIL after police observed him turn from Adrian onto Pottawatamie with difficulty. Haveman reportedly resisted arrest and a backup unit had to be called.

DYKE HELMS

Attack Is Fatal

Funeral services were held Tuesday afternoon for Dwight G. Helms, 46, of 810 Adrian St., who died suddenly Saturday afternoon at campgrounds near Carson City.

He was participating in "Frontier Days" activities at the campgrounds, when he apparently succumbed to a heart attack.

Mr. Helms, a city resident for the past 23 years, managed Helms Furniture here for approximately 15 years, following the death of his father, Claude. He and his mother, Goldie, sold the furniture business in May 1974 to Merkel Furniture.

The family had operated the furniture store since 1949 and during that time expanded it to its present size.

For the past two years, Mr. Helms had been employed by Frito-Lay.

He was very active in a number of community organizations, especially the Tecumseh Jaycees. He was a past president and Jaycee International Senator.

While manager of the furniture store, he was a member and director of the Chamber of Commerce here. He also was a member of American Legion Underwood-Orr Post 34, Parent-Teachers Organization at Tecumseh Acres elementary school, and the Lansing Capitol Tote-Iums, a campers organization.

During Tecumseh's Sesquicentennial celebration, he was men's participant chairman.

He was a veteran of the U.S. Army.

Mr. Helms was born on Dec. 8, 1930 in Marion, Ind. On Sept. 24, 1950, he married the former Claire Pulver in Mason. She survives.

Other survivors include two daughters, Michelle and Monica, and a son, Michael, all at home; his mother, and a brother, Wayne Helms, North Little Rock, Ark.

Services were held at the Purse Funeral Home with the Rev. Allan Gray and the Rev. Keith Hayes officiating. Burial was at Lenawee Hills Memorial Gardens, where the American Legion conducted graveside services.

Schools Seeking Millage Increases

By Frank Weir

Tecumseh's school district, like most elements of our society, is feeling the squeeze of inflation.

At Monday night's meeting of the Board of Education, board members accepted the recommendations of the finance committee to raise the millage request to 20 mills on the June 13 election ballot.

The request represents a 1.5-mill increase over the present voted millage of 18.5 mills, and will increase total operating millage to 28.5 mills. County allocation to the schools is 8.5 mills.

The voted millage request for 20 mills is for three years. Principal factor responsible for the mileage increase is utility cost. This cost has increased nearly 60 percent in the past 18 months, according to school officials.

One mill is equal to $92,000.

Cooley went on to say that, in order to be a full participant in state aid, the district would have to levy three mills over the current 27 to a 30-mill total. "No way can we justify a three-mill increase for operating expenses," he said later.

Last year, the state required a levy of 28 mills to be a full participant and the district levied 27.

In addition, the board voted to ask for ½ mill for five years for major maintainance repairs. The money would be put in a special account and earmarked solely for the maintainance of buildings and grounds in the district.

Buildings and contents are valued at nearly $20 million, Cooley said.

Examples of the maintainance include roof repairs, brick and concrete work, asphalt repairs, electrical, plumbing and heating repairs.

Cooley said in a budget squeeze, "major maintainance items are put aside." We let the education program come first which is as it should be." But the ½ mill will give officials a source of funds they can depend on for repairs.

The ½ mill levy, which amounts to $.50 for each $1,000 of state equalized value (SEV), will bring in $46,000 in local dollars. Under the current state aid act, the state would add $33,000 to the maintainance fund.

The June 13 election ballot will, therefore, include three questions:

+ A request to raise millage to 28.5 mills from the current 27 mills.

+ A request for a ½ mill levy over five years for major maintainance repairs.

+ The election of either incumbent Todd Herrick or challenger Dean Sheldon to one four-year term on the board.

Bids 22% Less Than Estimated

Protests Lead to Rejection of Burt St. Improvements

By Kathy Brown

Five property owners of 12 listed on a proposed special assessment district for curb and gutter on Burt St. vigorously objected to City Council Monday night during a public hearing.

They tried to pressure Council to take its vote before the audience, and Council, later, unanimously rejected the street project.

Councilwoman Mary Bowers, who supported the special assessment resolution at the last council meeting, was on vacation and absent Monday night.

Primary objection voiced by residents was the cost.

Actually, cost of the project was 22 percent lower than estimated by the city. Lowest bid was from Cunningham-Gooding for $3.13 per linear foot for curb and $1.20 per square foot for drive approaches - lowest such bids received in past five years.

City estimated curb at $4 and drives at $1.80. Council reluctantly rejected all the bids.

Property owners also objected to the assessment because:

•The road didn't need curb and gutter for drainage.

•The property is undeveloped, would not likely be developed for 15 more years, at which time city would probably have to redo the work.

Another reason was given by Mrs. Bryce Roekle, Burt St. resident of one month. "We moved there because it didn't look like the city." she said.

Others questioned the necessity of the assessment.

City manager Cal Zorn explained that the city has had a curb and gutter program for the past 20 years. Although the residents did not petition for curb and gutter, "This is a major street as compared to local. The county considers it a county primary," Zorn explained.

"It's all Country Club traffic," said one woman at the hearing. "I don't know how you classify it as a major street. Only traffic is to church and the golf course on Sundays."

"Traffic is traffic," replied Councilman Carlton Cook.

"We asked you last time what you were going to do with that, and you forcibly excused us before you took a vote on it," said Dr. Merwin Blanden regarding Council action a few months ago on a sanitary sewer assessment for Burt St.

"This won't happen again," insisted Blanden. (Decide) tonight before we leave," he said.

"Stick around," replied Councilman Cook.

"Yes, we will vote. But, we can still operate the Council meeting, Dr. Blanden, and we can do it without your help," Mayor Harold Easton replied.

Nine residents opposed the special assessment in a hand vote. No one supported it.

"I wish all the property owners could have been here," said Councilman James H. Palmer. He pointed out that only five of 12 property owners were present to oppose the assessment.

"It appears that at this time," Palmer continued, "we are in a better position to take care of this road immediately and not force the assessment. I personally think that curb and gutter would be a great development."

Besides the complaints about the assessment, Burt St. residents complained about the road condition and dust on their homes.

Original road paving was a seal coat, not black top or bituminous, as some residents had argued. It now appears that residents will have to wait longer for a seal coat since these contractors are harder to find.

Zorn said that hopefully in four to six weeks necessary street preparation can be completed and a seal coat contractor can be obtained to pave that portion of Burt.

The county, which used to seal coat for Tecumseh, refused last year.

"Now I hope you people don't expect to see a seal coat tomorrow," said Mayor Easton.

It isn't likely that residents will be happy with seal-coating either, since it creates another menace — dust at first and then tar residue.

Boy 15, Critical

Fifteen-year-old Douglas Barron of 8981 Tipton Hwy. is still in critical condition at press time after a bicycle accident at 7:35 p.m. Sunday.

Baron is still at University of Michigan Hospital, Ann Arbor. He was struck by a car while riding his bicycle along M-50 near Tipton.

He was transferred to Ann Arbor hospital from Herrick Hospital where he was first treated.

The boy was apparently riding his bicycle westbound on M-50 near Wisner Hwy. and was struck from behind by a car driven by Mary E. Outman, 48, of 9617 Nortley Hwy., Tioton.

The driver of the car told sheriff's deputies that she did not see the bicyclist because of the blinding sunlight. She was not charged.

The Tecumseh Fire department was dispatched to the scene of the accident to assist in treating the injured boy.

Douglas, the son of Gert and James Stuart, is the brother of Becky, (nee Barron) Allen, 18, who was killed in a car accident Aug. 20.

Money realized from the poppy drive stays in the community where it is given. Not one cent is used for administrative costs.

Wearing the poppy before and on Memorial Day honors the nation's war dead. "It is an individual personal gesture of remembrance of the sacrifice made by our fallen Americans," said the legionnaires.

ROGER PROCTOR

"How do I Give Comfort to the Terminally Ill?"

It is usually best to maintain the same closeness you have shared in the past. Your contacts with the person should be of the same type as they were in the past - a phone call, short visit over coffee, a personal note - whichever was your manner of contact before you heard of the illness.

If making a personal call seems too difficult, perhaps a short note indicating "Word has come to me that you are ill. Please be comforted that you are in my thoughts and prayers."

Silence can often be interpreted to mean indifference to one who is ill. A simple note of concern and love makes an opening for a personal call at a time convenient to the sick person. That personal visit will surely prove a comfort to both parties!

And finally, that personal visit should be made just as you ordinarily might make. Don't change your personality or behavior - rather "Be your self." Bring news or items of interest into the conversation all in a way to show you care.

MR. and MRS. HAROLD MOLNAR

Wendy Reeves and Harold Molnar Wed

Wendy Reeves and Harold Molnar were married April 30 at 6:30 p.m. in the Grace Lutheran Church in Tecumseh.

The Rev. Kenneth Strack officiated at the ceremony for the daughter of Mr. and Mrs. Robert Reeves of Tecumseh and the son of Mr. and Mrs. Jim Molnar of Manchester.

Altar flowers decorated the church for the ceremony with the bride escorted to the altar by her father.

For her wedding the bride wore a white velvet and lace gown designed by her mother. It featured an empire waistline with lace bodice, velvet skirt and long train.

A velvet covered cap trimmed with lace and seed pearls secured her long veil of silk illusion. Her jewelry was a pair of small pearl earrings.

White orchids and stephanotis were arranged in a cascade design for her bouquet.

Donna Reeves, the bride's sister of Tecumseh, was the maid of honor in a beige gown of Qiana with accents of white lace at the bodice and cuffs. She wore a white hat of lace with matching bow trim.

She carried a hurricane lamp encircled with carnations.

Bridesmaids were Sharon Molnar, the groom's sister of Manchester, Terri Truxell, the bride's cousin of Taylor and Joanne DeClerq, all gowned in yellow Qiana gowns styled the same as the honor attendant's.

They wore white lace hats with matching ribbons and carried a hurricane lamp with carnations.

Adena Lemarand, the bride's niece, wore a replica of the bride's gown.

Gregg DeClerq of Tecumseh was the best man.

Ushers were Andy Martin, the groom's cousin of Southgate, Robert Reeves, the bride's brother of Lincoln Park and Mike Molnar, the groom's brother of Manchester.

Bryon Molnar, the groom's brother, was ring bearer.

A dinner-reception for 200 guests was held at the Peerless Gear Union Hall in Clinton.

Mr. and Mrs. Robert Reeves, the bride's grandparents from Davisburg were special guests.

Mrs. Molnar is employed at Bummie's Restaurant in Adrian and was graduated from Tecumseh High School. Mr. Molnar is employed at Federal Screw Industries in Manchester and was graduated from Manchester High School.

His parents, Mr. and Mrs. Jim Molnar, hosted the rehearsal dinner at the Moose Hall, Adrian.

Aebersold, Warner Are Married

The First Baptist Church in Tecumseh was the setting for the marriage of Elaine Marie Aebersold and Charles Arthur Warner on May 6 at 7:30 p.m.

The Rev. Kenneth Boyd, pastor, officiated at the ceremony for the daughter of Mr. and Mrs. Donald C. Aebersold of Britton and the son of Mr. and Mrs. Earl H. Warner of Tipton.

Mrs. Gerald Eaton was organist and Mrs. Robert Bagdon was the soloist.

Candelabra trimmed in white bows and ferns, an altar centerpiece of carnations, gladioli, daisies and baby's breath and pew bows decorated the church for the bride's approach to the altar on the arm of her father.

For her wedding, the bride selected a white polyester knit gown with empire bodice, A-line skirt, scooped neckline with stand-up collar trimmed in lace, and bell-shaped sleeves edged in matching lace.

Her fingertip veil was edged in floral lace and secured by a cap trimmed in matching lace.

She carried a cascade of white carnations, white sweetheart roses and baby's breath. Her opal necklace was a gift from the groom.

Peggy Aebersold of Tecumseh was her sister's maid of honor in a yellow gown styled the same as the bride's with a lace trimmed neckline. She wore a white picture hat with matching ribbons and carried a nosegay of yellow carnations, white daisies and baby's breath.

Bridesmaids were Rita Aebersold, the bride's sister of Britton gowned in mint green; Jana Robinson of Clinton gowned in apricot; Cindy Thilo of Clinton, gowned in light blue; Mrs. Bruce Smith from Tipton, gowned in light pink; Karen Gardner, the groom's niece of Onsted, gowned in hot pink. They wore white picture hats with matching ribbons and carried bouquets with flowers tinted to match their gowns.

Sarah Corwin, the bride's cousin of Tecumseh, was the flower girl dressed as a miniature bride. She carried a cascade of flowers identical to the bride.

Randy Mann of Tipton was the best man.

Ushers were Scott Warner of Adrian and Rick Gardner of Onsted, the groom's nephews and groomsmen Terry Tennyson and Ron Blumhardt of Clinton and Jamie Weatherwax, Les Redman and Gordon Studnicka, all of Tipton.

Andy Corwin, the bride's cousin of Tecumseh, was the ring bearer, dressed as a miniature groom.

A reception for 400 guests was held at the United Products Workers Union Hall with the bride's aunts and uncles, Mr. and Mrs. Charles Aebersold of Tecumseh and Mr. and Mrs. Robert Lamp of Garden City as the hosts.

A three-horned Fenton milk glass vase filled with daisies, baby's breath and ferns, was used as the table centerpiece at the bride's table.

Cheryl Aebersold of Adrian poured punch. Mrs. Gerald Shultis of Tipton served coffee. Mrs. Randy Mann of Tipton served cake with Kitty Gardner of Onsted, the groom's niece. Dee Force of Clinton passed the guest book. Mrs. Richard Gardner of Onsted and Mrs. John Dorr of Tipton the groom's sisters assisted with the wedding couple's gifts.

The couple honeymooned in Gatlinburg, Tenn. and the Smoky Mountains for four days and reside at 306½ Chippewa St.

Mrs. Warner is a 1973 graduate of Tecumseh High School and is employed as a teletypist at Uarco Inc. in Adrian.

New Kite Dangerous

A utility company official today issued a warning about a new type of kite being sold in Michigan which would be dangerous if it comes in contact with electric lines.

The fabric of the kite is a metallic plastic which is a good conductor of electricity. It could possibly shock and injure the person flying it if the kite touches a power line. The company became aware of the problem after such a kite knocked a 12,400 volt line out of service Wednesday.

Fortunately, the youngster flying the kite was not hurt.

Through My Window

by Marda Gene Duncan

A few 'facts and figures' were leftover from last week's article about the ubiquitous cowbird. Oops, Mom just raised a questioning eyebrow but, after giving the matter a split second thought, she agrees that these characters deserve that tongue twister of a word.

Our population of cowbirds is so numerous and two or three always seem to be on the feeders, in the trees, and in the yard, so yes, the definition about being everyplace at once fits.

But, getting back to the subject at hand. The men who compiled The National Geographic book, "Song and Garden Birds of North America," were not overly fond of cowbirds either. On page 314 the text describing these birds starts by saying that science has done a super job of naming this nuisance of a bird. To quote, Molothrus ater – "dark, greedy beggar".

Reading about cowbirds brought me up against the same puzzlement that the goldfinches did. The whys and wherefores of this English language are mysterious. It is agreed by most of my bird books that the cowbirds originated in South America and rather quickly expanded their range.

In times long past when the great herds of buffalo freely roamed across the unsettled prairies, they were closely attended by flocks of cowbirds.

In other words the niche which in Africa is filled by the cattle egrets was in this country occupied by the cowbirds. They followed the buffalo herds and feasted on the bugs and insects stirred up by the wandering animals. They also 'rode' them and performed the useful task of eating, and thus removing numerous ticks.

In addition of course, the vegetarian aspect of their diet was supplied by the seeds of the grasses and weeds of the area. Quite naturally, at the time the brown-headed and black-bodied males with their all-over-gray females were called buffalo birds.

This brings me to the 'whys' of our language. Why, when speaking about the same birds, do they use two words (buffalo birds) for one name but run them together in one word (cowbird) when referring to the other? It is exactly the same situation with goldfinches and purple finches. Well, no, not exactly the same for the finches are two distinctly different birds. But the idea is the same.

Now for a change of birds. We have been having trouble lately with a mourning dove. A mentally disturbed, emotionally upset, maladjusted mourning dove. Or perhaps he is just plain dumb.

These past few weeks he has been monopolizing the thistle-feeder. Mourning doves are not supposed to eat thistle-seed — finches, siskins, and their friends eat the tiny black seeds but not mourning doves!

The feeder is not even built to accommodate such a large bird. He has to crowd himself on the bottom tray and stretch around to reach the seeds. It can't be easy and it can't be comfortable.

Unfortunately the dandelions are in full bloom now and the goldfinches tend to be more interested in them than in our handouts. When their feeder is full of mourning dove it is just that much easier to stick to their natural foods.

We miss the little bright yellow guys and their olive ladies. It would be nice if the mourning dove would read the books and behave as it should.

...and the number one
reason for that could be price
$3941*

Definitely a No. 1 price. Another reason could be room . . . a major reason you buy a wagon in the first place. Volare gives you more room than any other American compact wagon. More room in the passenger compartment, more room in the cargo area. Volare even has 75% the cargo space of an average of full size wagons. No wonder America is saying. "Thanks for giving us what we need in a station wagon. Thanks for giving us Volare."

Price and room. Not one . . . but two reasons why Volaré is on top.

Sun Country Bath

Ancient Indian culture bridges the centuries. The sun-drenched Southwest was once home only to the Apache and Spaniard. Today, their lifestyles are captured in a room with a fresh hacienda feeling. Americana Brown Rondalyn lavatories, Luxor toilet, and Luxette bidet enhance the warmth of softly stuccoed surfaces. The tangerine soaking tub has gleaming Heritage acrylic handled fittings. It's complemented by the bone-color Designer Line integral shower. Enhancing it all—a skylight that lets in the sun. Or the stars.

News of St. Elizabeth

May is a month of activity for St. Elizabeth Catholic Church. Two recent events are the celebration of Ascension Thursday on May 19 and the mother-daughter banquet on May 22 at the church.

As a unique climax for the school year of the St. Elizabeth religious education program, helium filled balloons will be released after the 4:30 p.m. Mass on ascension Thursday, May 19. Messages for Jesus from each student will be attached. Ascension Thursday, Christ's ascension into heaven, is celebrated 40 days after Easter.

The first graders will bring gifts to the altar—something they would share if they were visiting Jesus. Some plan to bring a favorite toy—such as a Six Million Dollar Man doll.

A party prepared by the students will be held in the school gym afterwards.

A menu of scrambled eggs, ham and rolls will be served at the mother-daughter breakfast on May 22 at 11:30 a.m.

Tickets are available from Mary Kitson. Pat Patten and the Youth Choir and the Sandy Covell Dancers will entertain at the banquet.

On May 17, a teacher appreciation celebration was held at St. Elizabeth's for teachers and their spouses, religious education program. A special liturgy was held at 6:30 p.m. followed by a steak dinner at 7:30 p.m. in the gym. The dinner was catered by boys from the Adrian Training school, under the direction of Jim VanBuren.

Special recognition was given to those teachers who received certificates from the Lansing Diocese for the number of class hours they attended: Mrs. Harriet Desmet, Mrs. Patricia Holmes, Mrs. Josephine Jones, Mrs. Mary Ann Phelan, Mrs. Frances Spreeman, and Mrs. Pamela Niedermier.

This dinner is given yearly by the education commission of the parish as a thank you to the teachers who put so much time, effort and dedication in teaching the basics of the Catholic faith to their students.

High School students in St. Elizabeth's religious education program, spent a one day retreat at Camp De Sales near Brooklyn, (Mich.).

The sophomore retreat was held May 12. The junior and senior retreat began Sunday evening May 15 and concluded Monday evening, May 16.

A retreat is a religious hiatus to meditate on life's goals and reflect on a relationship with God. Talks, scripture study and related activities are designed to spark the reflective process.

Seventy-one children received their First Holy Communion on May 7 at St. Elizabeth Church. The 10:30 a.m. liturgy was planned by their parents and parents and children participated in hymns and readings. A celebration was held in the school gym immediately following the ceremony.

Voters Asked Mill Increase

BRITTON — Voters of the Britton-Macon School Area District will be asked to approve an increase of one mill for additional operating expenses plus the renewal of 16.5 mills that expires this school year, at the June 13 election.

This brings to 17.5 the total number of mills to be voted upon for operating expenses.

The one mill increase will be for one year and is needed to meet the additional expenses to operate the school for the next fiscal year. The rising cost of utilities, supplies, equipment, wages, and a projected drop in enrollment has made it necessary to ask for the additional mill.

The board anticipated lowering the debt retirement millage to .36 of a mill from the .58 of a mill that was levied for debt retirement last year.

This .22 of a mill reduction in debt retirement will result in the total school millage being raised .78 of a mill if this is approved at the annual election.

Memoriam

In loving memory of Robert F. Staulter who passed away one year ago May 20, 1976.

One year has passed since that sad day,
When one we loved was called away;
God took him home, it was His will;
Within our hearts he liveth still.
Sadly missed by his Wife, Daughters, Sons-in-law, and Grandchildren.
5-19p

There is no death, the leaves may fall
And flowers wither, one by one
But they will waken to new life
When winter storms are done.
There is no death, our souls sail out
To anchor on a fairer shore
And mid the flowers of paradise
They live for ever more.
In memorial for deceased members of Camp 4069 Royal Neighbors of America. 5-19c

I wish to thank all my friends for their cards and visits during my stay in Bixby Hospital. They were all so much appreciated.

Promenade, Patrol Attract 4,000 Here

A thunder and hail storm closed down the flight activity at Al Meyers Airport Dawn Patrol Sunday at 4 p.m. and damaged airport manager Harold Lange's plane. Visitors to Tecumseh's Promenade the Past who got soaked were able to continue their tour when the sun came out. Both events brought over 4,000 visitors to Tecumseh on Sunday.

An estimated 1,800 people promenaded the past on Chicago Blvd. Saturday and Sunday exceeding the expected 1,000.

Many of the visitors were from the greater Toledo, Ohio area. Visitors from Northern Michigan came from Grand Rapids and Flint. Other guests represented almost every community in the Detroit Metropolitan area. Four visitors from Cairo, Egypt were the guests of Ann Arborites.

Others came from Baja, Calif., Cazenovia, N.Y., Cleveland and Hamilton, Ohio, Naples and Clearwater, Fla.

Several visitors were seen carrying Promenade publicity stories from the Toledo, Ann Arbor or Detroit newspapers.

Some visitors flew into Al Meyers Airport for both the dawn patrol and promenade.

Tecumseh high school seniors David Bauman and Bill Cook and Tecumseh Area Historical Society president Richard Lewis substituted for the three members of the Four Dads quartet who were out-of-town Sunday.

Emery's flowers of Adrian participated in the decorating and Erb Chevrolet contributed a courtesy car for transportation to and from the airport.

Volunteer hosts and hostesses guided people through the homes and served refreshments with the Presbyterian women at the Church.

Committee members offered rides to visitors and other visitors carpooled.

Largest Crowd Enjoyed Activities at Airport

Though most planes left the airport before the storm, a total of 162 brought over 500 visitors to the Al Meyers Airport Dawn Patrol. About 2,500 visitors were estimated for the day.

Ron Goodacre served as air traffic controller and guided the pilots in landing and takeoff. At one time planes were landing at the rate of about one per minute. The Lenawee REACT and Tecumseh, Clinton, Britton CB'ers handled airport auto parking.

The Jaycees and Jaycee Auxiliary served 786 breakfasts. At 10:45 a.m. they offered the crowd still in line an opportunity to be first for the chicken dinner which of 800 were served. A financial report is pending when expenses are paid.

The farthest pilot was from Palo Alto, Calif. and the pilot from the northermost part of Michigan was from Bois Blanc near Mackinac Island. A number came from Ohio as well as Michigan. Thirty of the Michigan 99's women pilots visited and 50 of the OX-5 aviation pioneers met in Tecumseh.

Several unusual aircraft were at the airport including "Mr. Breezy" from which a young woman parachuted. Ten antique cars were displayed. Twenty arts and crafts people displayed their works.

In a memorial to Al Meyers, Harold Lange led a flight formation over the Al Meyers monument at Brookside Cemetery. An entourage of 15 cars, led by the aviation pioneers, visited the cemetery and laid a wreath at the Al Meyers' grave.

Notable guests included:

"Sinnie Sinclair", originally from Muskegon, the oldest active pilot and teacher in the United States and member of the Aviation Hall of fame with Al Meyers; Lyle Hunt and Woodie Staman of the FAA.

George Koskimaki, chief communications for Gen. Maxwell Taylor during the Normandy invasion showed films and memorabilia about the invasion at the private OX-5 dinner at Don's Contented Sole.

Sixty-three parachuters from Tecumseh Parachuting Services were scheduled to make their first jump Saturday and Sunday but the weather was too windy.

Lenawee County Civil Air Patrol squadron was on hand at the airport.

Les Calhoun offered airplane sight seeing tours and donated a percentage to the Jaycees. Lev DeJonge gave 21 airplane rides to raffle winners from "Lev's Bakery."

Lenawee County registered nurses and licensed practical nurses offered free blood pressure checks to over 100 people. Bennett's Ambulance was on hand and aided a Jaycee who had a sugar reaction after cutting his hand.

Airport manager Harold Lange and Mrs. Allen H. Meyers (Nadia Meyers), pilots and other visitors, credited the Jaycees and the Jaycee Auxiliary with conducting one of the most successful dawn patrols at the airport.

Jaycee committee members were Dan Bush, chairman; Vicki Bush, arts and crafts; Barb Myers, publicity; Margie Ball, dinner; Tom Thayer, breakfast and Ray Russell.

FOCUS
on City Government

By Paul L. Preston, Jr.
Tecumseh's Assistant City Manager
and Community Development Director

Administration . . .

This week will begin a series of articles focusing on different aspects of city government. Major areas of municipal operations and services, such as the budget, utilities, streets, recreation, police and fire will be discussed.

The most logical point to start such a series is with the general administration of the city. The City of Tecumseh has a council-manager form of government. This means that the council's responsibility is to set policies and adopt laws, and that of the city manager to implement those policies and to manage the day to day operation of the city. For example, the city council has been discussing for the last few weeks the question of whether or not to purchase the Raisin Valley Golf Course. This is a major policy decision. If the decision is to buy, it is then the manager's responsibility to negotiate the sale and through the parks and recreation department to manage it.

The council consists of seven members elected at large for two year terms. Four are elected in the even years and three in the odd years. It is the responsibility of the council to hire the city manager and he serves at their discretion. The mayor is elected yearly by the council from among its own members.

Mayor Harold Easton was first elected to the city council is 1958 and has served as mayor for 16 years. When questioned as to why he has served so long Mayor Easton stated, "the community has been extremely good to me so I wanted to repay the community with my time and talents." he indicated that he had seen a lot of progress within the city in the last twenty years, however, "there are other things yet to be done and I want to be a part of it."

In contrast to the long term of Mayor Easton the newest council member, with less than five months service, is Jay Tressler. When questioned as to why he ran he stated he was, "conscious of the needs of the community and a need to represent the interests of the total community, from the children to the senior citizens."

Councilman Aden Mead is completing his second term. This is his first experience in city government but not to elective office, as he served on the school board for 21 years. Mr. Mead feels that the community is "moving ahead and that it is planning for future growth, industrial, recreational, and

Estimate Auto Parts B&E Loss at $1,500

Local businesses continued to be prey for burglars, the latest being Tecumseh Automotive Parts at the corner of E. Chicago Blvd. and S. Ottawa St.

Although police investigated the break-in Friday morning, they theorize that if could have occurred about 11:00 Thursday night. At that time, officers were informed of a glass breakage but patroling officers were unable to locate it.

Early Friday morning, officers then discovered the southeast door of Tecumseh Automotive Parts was open. An attempt had been made to kick the door in before the door's glass was broken.

Jim Palmer, owner, estimates his loss at approximately $1,500.

Tools and tool sets, battery chargers, drills, spray guns and other related equipment were stolen.

A resume of other complaint reports includes:

A parking lot worker there, Alfred Richardson, told police Deck entered the lot and was told to leave in his drunken condition. A fight began between the two and Deck was arrested.

Doyle R. Proffitt of Adrian reported malicious destruction to his auto. Proffitt told police he was driving in front of 501 W. Russell when a man there yelled an obscenity. The complainant yelled back when the man approached and struck the side of Proffitt's auto.

Pool, Courts, Auditorium Are Residents' Choices

by Kathy Brown

An indoor swimming pool, tennis courts (more than one lighted and indoor) and a community auditorium were the top three recreation priorities listed by area residents who responded to a recent survey by the Tecumseh Area Town Meeting Organization (TATMO) task force.

Mrs. Donald Steiner was the chairman for the TATMO task force that questioned adults aged 18-60+ about their leisure time interests and needs.

The task force recommended that TATMO continue to investigate the means of providing the needed athletic and cultural programs.

While only 228 adults responded to surveys distributed in public areas around town, the task force felt there was a good cross section of responses from all ages between 18-60+.

In its report to the TATMO on April 26, the task force pointed out that:

+Each survey represents 31 people or 3.2 percent of the area adult population of approximately 10,000.

+This is the same percentage that attended Town Meeting in Oct. 1976.

+"This is the same percentage that elects our school board so each of us has to decide for ourself whether it is a representative survey," said Donna Roe, task force member.

Survey recorded that 20 respondents, or 13 percent, were satisifed with existing recreation opportunities. Two-hundred and-eight, or 87 percent of the respondents, were not satisfied.

Fifty-one respondents, or 22.4 percent of the adults, said an indoor pool was needed. Tennis courts were named by 44 respondents or 19.2 percent. A community theatre (not cinema) was mentioned by 42 respondents or 18.4 percent.

A "Y" type facility was mentioned by 32 respondents or 14 percent.

Other needs mentioned and statistics were:

+Teen center, cinema, ice rink, each with 21 respondents or 9.1 percent.

+Health spa and indoor courts (for basketball, volleyball, handball, paddleball), each with 20 respondents or 8.7 percent.

Comments by the respondents from all age groups indicated needs for:

+Diversity in the recreation program.

+More publicity

+"Y" type of facility

+A wider range of hours for all recreation programs.

Percentage of response from each age group was as follows:

Age	Percent
18-30	21.9
30-45	37.7
45-60	27.6
60+	12.7

Survey showed that people in the 45-60 age group were satisfied with existing facilities or programs but felt there were more hours needed. There were no measurable comments from the 60+ age group.

The TATMO task force was organized by residents who participated in the first town meeting in Oct. 1976 to determine the needs and feasibility of a Tecumseh Area Community Activity Center. Town meeting participants voted this as one of the most important goals from Town Meeting '76.

The task force first surveyed the needs of teenagers for an activity center. Survey showed several hundred of junior and senior high school students interested in acquiring a place especially for teens and in working to acquire one.

At the April 26 meeting, TATMO membership voted to make "A Place for Teens" or APT one of its major projects.

Driverless Van Crashes Store

Tecumseh police investigated four accidents Friday and Saturday, including one involving an unattended van crossing Chicago Blvd. and crashing into a parked auto along the street.

James L. Lawson, 7221 N. Hendershot, told police Saturday that he thought he left his van in park while it was running beside Lawson's TV. The van crossed Chicago and crashed into a pickup parked next to Tecumseh Office Supply.

The crash also broke the front window of the Office Supply, but no moving vehicles were involved along Chicago. Lawson was cited for leaving his vehicle unattended with the engine running.

Friday, Susan A. McCarty, 21, of Clinton, was cited for failing to yield when she turned left from Chicago onto S. Union. She struck an eastbound vehicle on W. Chicago driven by David A. Meringa, 19, of 507 S. Pearl. McCarty's vision was reportedly blocked.

Saturday, Darryl J. Dunbar, 17, of 216 W. Logan, backed from a parking space along W. Logan and struck a parked car behind him. Parked auto belonged to Deborah Bugermeister of Palmyra.

Robert A. Dunn Jr., 16, of Tipton was cited for improper backing Saturday. Robert L. Anaya, 43, of Britton was attempting to leave the pump area of the Clark Gas Station when Dunn pulled in and stopped in front of him. Dunn moved out of the way, but then backed up and hit the Anaya auto.

Talking It Out

LESTER D. PROCTOR

"What are the rules for funeral traffic?"

Traffic rules governing funeral processions differ sometimes from those governing other traffic. These tips may help if you are in a funeral procession (or to be remembered if you encounter one):

1. Use the windshield sticker or flag we provide.
2. Keep your headlights on. It identifies your vehicle as part of the procession.
3. If the procession is crossing an intersection while the traffic light changes to red, continue through. Do not stop. The funeral procession has the right-of-way. The lead car, of course, will stop and obey all posted signals.
4. A policeman, if available, may direct funeral traffic through busy intersections. We, as funeral directors, appreciate the escort service which our police department provides. The mourners consider this civic safety service both thoughtful and welcome.
5. Obtain and read the state traffic regulations regarding funeral processions.
6. If you are NOT part of the procession, remember it has right-of-way. Do not cross or join it.

Special Olympics at the state level will be held June 2-5 at Mt. Pleasant.

On June 7, a family picnic will be held at 7:30 p.m. for Lenawee Institute families.

Other June activities for the Lenawee Association for Retarded Citizens include the Michigan Association for Retarded Citizens annual conference at Sugar Loaf near Traverse City on June 22-25.

LARC will have a bake sale at the Adrian Mall on June 24 and 25.

Forty-one students and seven adults made an airplane flight with Leslie Calhoun and circled the Lenawee Institute on April 30.

The Respite Care Center (Old Sutton School) has been remodeled for living accommodation for six people and is available for families that would like to leave their handicapped person for a weekend.

The Respite Care Center will be open weekends and for one week during the summer. This offers parents an opportunity for a baby-sitting exchange with parents taking another child with them to spend the weekend at the Respite Care Center.

During the school year, this building is used by young adults in learning aide to daily living.

further improvements downtown." Mr. Mead feels it is the role of city government to control and manage this growth.

Dr. Carlton Cook, who serves as Mayor Pro-Tem, feels as does the Mayor that the city has been good to him and he takes a great deal of pride in the community and feels it is his duty to serve the community on the city council. In regards to the council itself he feels "there is a real good mix of new and long term members with different expertise and points of view which will lead to better government, and better service to its citizens."

Mary Bowers is the second woman to serve on the city council. When questioned as to why she ran, she answered, "so many people urged me to run, and I wanted to be a part of the legislative process." She further stated that, "I have thoroughly enjoyed the experience and it is something I take quite seriously. I try to be objective and look at both sides of an issue and decide for what I feel is best for the community."

Leonard DeMoss is a year and a half into his first term. He ran for the city council because, "my primary goal was to give a voice to these people who felt they were not being represented, and the city council is the best way to get involved and to have an impact on what happens in the community."

Jim Palmer, who is in his fourth year on the council, still believes, "a public servant is everyone's voice in the city, representation and service is what we taxpayers want from our government." Mr. Palmer indicated that he has seen a lot of other Michigan communities the size of Tecumseh, but, "we are still a far stride ahead of everyone else, in everything."

Cal Zorn has served as City Manager since 1963 but joined the city in 1956 as the City Engineer. Mr. Zorn is only the second City Manager since Tecumseh's incorporation as a city in 1954. When looking back over the last twenty years he feels that the city has made excellent progress, "all city departments have been modernized, which means better service to the community. Municipal facilities such as streets, sewers, water, parks and other municipal structures, i.e. city hall, hospital, city garage, have been constructed or improved over the last twenty years." He feels that much of the credit must go to the council members, who over the years, have been progressive and committed to the improvement of the community.

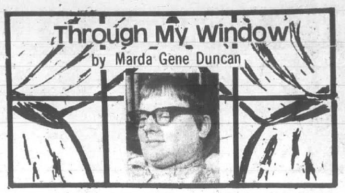
MSGR. VINCENT HOWARD



Through My Window

by Marda Gene Duncan

A scarlet tanager! Mom and I saw one — we really, honestly and truly did. He was beautiful, and might well turn out to THE bird of this spring.

An adult male scarlet tanager, at this time of year, has few rivals as far as appearance goes. He is absolutely gorgeous. Except for black wings and tail, he is red. But by no means are his colors an ordinary red and black.

Scarlet is an apt description as it brings to mind a bright fiery red and the black is a deep rich lush color. They are simply more vivid and breathtaking than most bird hues or shades.

Actually tanagers, as a family, are primarily tropical birds. Of the 220 known members of the family only four are found in this country and of them the scarlet travels into our area. The summer tanager likes the southern states, the western tanager ranges to Texas to Alaska, and the hepatic tanager ventures no further than New Mexico and Arizona.

The scarlets are night migrators and plan their arrival in the nesting areas to co-incide with the leafing out of the trees. Extremely beneficial birds who consume vast quantities of harmful insects, they search the new leaves, blossoms and even bark for the freshly-hatched 'wigglies and crawlies'.

As always I am astounded at people who count and one expert claims to have watched two of these birds 'dining' in an apple orchard. In 18 minutes they ate gypsy-moth caterpillars at a rate of 35 per minute. A little pocket calculator figures that at this rate the pair could work only an hour a day and in one week gobble down 14,700 caterpillars.

But back to our scarlet tanager. It was on one of our pretty sunny days and, because of the jobs on the schedule, my bed was in a slightly different position.

Instead of being turned so that I looked up the creek, the foot was pulled out and my best view was through the south window. The leaves of Prettyman's lovely large maples has just lost their yellowish-green color and were a dark deep green.

Our chokecherry tree was at the peak of its bloom, a pleasant combination of little green leaves and racemes of white blossoms. Suddenly there he was — a scarlet tanager in one of the maples.

Now to point out a bird to someone else is not the easiest thing in the world, especially if one cannot point or talk with her hands. And to make matters worse, when excited, I am apt to stutter and stammer.

Fortunately Mom and Gertie T. are good "translators'. On this particular day Mom quickly followed my 'in the maple tree, the one next to the drive, above the pole, etc.' I was attracted by the color but her sharp eyes picked out the black wings and tail.

Then the bird flew to the cherry tree, an unforgetable sight. In a typically unhurried manner he worked for some moments in the blossoms. These are not flighty nervous birds who emulate the quick nervous darting of the warblers.

Even so they are not seen every day; in fact, if we see another tanager this season it will be record breaking. They are primarily birds of the tree tops and keep well hidden in the dense foliage of the maples and oaks.

Orchard-men who can entice them into their fields of trees are lucky indeed for the birds help keep down the harmful insect population. Remember all those caterpillars.

If the male scarlets are not easily seen, the females are next to impossible. She wears a yellowish front, greenish back and brownish wings. After the mating season he molts his handsome scarlet suit and during the winter months, which these birds spend in Central America, wears a non-colorful blend of olive-yellow body plumage and green tinged black wing and tail feathers.

In a nice turn of tables, the female comes out of her molt with a much brighter outfit.

Nice birds — a shame they are not attracted to the bill-of-fare offered on the near-my-window feeders.

Over $19,000 for Lung Fund

Lenawee County gave $19,485 to the Michigan Lung Association this year toward the prevention and control of lung diseases.

This represents 116 percent of the county goal of $16,800.

The total includes Christmas Seal contributions plus special event dollars from Lung-a-thons (walk-a-thons, bowling events, etc.) and from other sources such as memorial gifts and bequests.

Mother-Daughter Banquet Is Held

The mother and daughter banquet of Grace Bible Church, Tecumseh was held on May 14.

Ninety-four mothers, daughters and friends enjoyed a roast beef dinner prepared and served by the men of the church.

The tables were decorated with the baskets of ivy geraniums and miniature sprinkler cans carrying out the theme "Growing in Him - How Does Your Garden Grow?"

Jo-Ann Mumme, vice-president of the Women's Missionary Fellowship gave the invocation. Following the dinner, group singing was led by Eunice Roe.

Selected Scripture passages to mothers and daughters were given by Connie and Sheila Cochrane and prayer was offered by Roberta Raymond president of the fellowship.

Lois Holly introduced Muriel Corbin from West Rome Baptist Church.

Her subject was Christian growth. She spoke concerning sowing, nurturing and reaping as it relates to the Christian life giving a challenge to each one with respect to her accountability for the type of Christian fruit her life is to bring forth. Chalk drawings were used to illustrate this theme. Mrs. Corbin also presented a saxaphone solo.

The baskets of geraniums were given as awards to Ruby Wattles, the oldest mother when first baby was born; Birdie Wolf, the oldest mother when last child was born; Shirley Whelan, daughter with oldest mother present; Jennifer Hitsman, daughter with youngest mother present; Phyllis Burge and Lorraine Munger, mothers with most daughters and granddaughters present; Mabel Boyd, mother wearing most jewelry; Lois Holly, mother of the congregation; and Phyllis Pawson, mother coming from furthest distance.

The committees making preparations for the banquet were Roberta Raymond, Esther Hammill, Marie McVay, Jo-Ann Mumme, Mary Lou Feight, Connie Cochrane and Lois Holly.

I'm a Customer Service Representative at a Consumers Power payment counter. And since I see heating bills everyday, I know how they go up and down like Michigan's temperatures.

But you don't have to wait from one month to the next to find out what your bill is going to be.

With our Equal Monthly Payment Plan, you can have the same bill in winter and summer. Here's how it works. We'll average your yearly bill, then divide it into 12 equal payments. Once a year your account will be balanced for over or under payment.

The Equal Monthly Payment Plan won't save you money, but it will help you in planning your budget. Call Consumers Power Company and ask for the Equal Monthly Payment Plan. It sure works well for me.

Music Club Holds Final Dinner

The Tecumseh Music Club ended the 1976-77 year, May 10, on a high note - deliciously, musically, and enthusiastically.

Members first met at the Country House for a "finale dinner," an annual event.

Then, they traveled to Mrs. Richard Broniman's home in Clinton, where she gave a musical review on "Those Fabulous Philadelphians" — Part 11.

Of special interest were her notations on conductor Eugene Ormandy's finesse of the artists in the great Philadelphia Philharmonic Orchestra.

Plans were set into motion for Nov. 1977, when an international group of pipers will be featured for the fall concert.

This is who we are and what we do at General Motors.

"Our customers need to have cars that are more fuel-efficient."

Fred Porter, Assistant Staff Engineer, Vehicle Systems Engineering

"I'm responsible for optimizing the fuel economy of a car targeted for the 1980's. We're redesigning our cars because our customers need to have cars that are more fuel-efficient. Right now, we're working on a family-sized car which will yield better fuel efficiency by approximately 30% than the car it replaces, without sacrificing passenger comfort.

"The first thing you have to do when you want to optimize the fuel economy of a car is to examine where the fuel is actually being used. And what you'll find is that fuel is primarily used to push the air aside, to roll the tires and to move all the components, like the fan and so on. What we have done in this program is to take those components and analyze how much fuel is being used by each one. Primarily, we have concerned ourselves with weight reduction, the engine, aerodynamics, tires, gears and component efficiency, pretty much in that order.

"The problem is that you have to identify the trade-offs that you're making. A tire that consumes less power, and as a consequence consumes less fuel, may be very desirable. But it also has to ride properly. The challenge is to make a car efficient and still comfortable.

"There is no reason why an efficient component must always cost more than an inefficient one. We have to optimize our vehicle from a fuel usage standpoint without causing the cost of the components to drive the price of a car beyond what the general public is willing to pay.

"It's very satisfying to be able to work on something that's important to the company and to the world as well. There aren't many programs that come along in an engineer's lifetime where he has virtually total freedom to exercise his skills. This is one of those projects, and it's very exciting.

"Our top management is very responsive to the problems of society, and they're responsive to the employe, too. GM has a very large commitment to improve the fuel consumption of its cars, and that commitment should yield technological progress at a very rapid pace."

TEMPORARY BRIDGE — State Highway Department construction crews began work two weeks ago on the River Raisin bridge on W. Michigan Ave. (US-12) at the west edge of the Village of Clinton. A temporary bridge is being constructed just south of the present bridge, at left, which will be removed and replaced with a wider bridge. This plan will permit continuous use of the heavily traveled highway without a long detour on Matthews and Staib roads as previously planned. Several trees were removed along the river and road will be routed through the DST, Inc. parking lot and the Hulett farm property.

Atlas Mill Is Honored

CLINTON — One of the state's oldest businesses was honored at a joint dinner meeting of the Clinton Rotary Club and the Historical Society of Clinton, May 19, at the United Church of Christ.

Attending were 75 persons and guests, including Dr. Charles Lindquist, curator of the Lenawee County Historical Museum.

Frank Wilhelm, executive director of the Historical Society of Michigan, presented a certificate to Charles Steffens, owner of Atlas Feed and Grain Co., in recognition of the mill's long service to Michigan since 1836, on the original site and in the original building.

Documents verify that the present mill building was built Dec. 1, 1836. Although unable to find evidence, it is believed that there was a mill at the site even prior to that time. The name Atlas has always been associated with the business.

Others receiving recognition were Charles' father, Max Steffens, former owner, Pauline Holt, whose late husband, Paul, and late father-in-law, Hugh Hoyt Sr. were former owners of the mill.

Shirley Fraley, of the Clinton Historical Society presented slides of the mill's history and the history of the water rights of the mill. Artifacts from the mill were displayed.

Dinners received programs featuring brief histories of the mill.

Decorations featured tiny burlap sacks filled with corn made by Jennifer Retke and Elsie Helgren. Red and white gingham foil carried out the Purina-Ralston checkerboard theme, and tables were centered with red geraniums.

Dinner was prepared by women of the United Church of Christ.

Pat's ride May 14 to the new St. Joseph Mercy Hospital was much happier than the one made to the old hospital April 21 when she suffered a severed spinal cord after her car careened off the slippery pavement and smashed into a tree. She was traveling to the hospital for an injection for Hodgkin's disease. She will spend most of the summer in physical therapy to try to learn to walk again. (PHOTO COURTESY OF THE ANN ARBOR NEWS)

The most versatile tool for the artistic craftsman is undoubtably the router. This handpowered machine can be used in wood or plastic to create simple or complex contours, moldings, edgings, trimworks and grooves for inlays. On a strictly practical level, the carpenter uses the router to make dovetail joints and to plane edges. Routers are available with different size motors, with speeds ranging from 18,000 to 36,000 revolutions per minute. For each job you want the router to perform, you must add one of the dozens of different router bits that exist for varying purposes. Then set the depth of cut you want for the given job.

We are called the carpenter's dream at TECUMSEH RENTAL CENTER, 112 S. Pearl 423-4470 because we offer so many different items that the do-it yourselfer can rent and save so much money. Whether you need to rent a router or a tile cutter we have it all for you. Renting saves money and storage space so think twice before you purchase a tool, rent it from us. Open: 9 a.m. to 8 p.m., Sun. 9 to 3.

HANDY HINT:
Be sure that the router's electrical plug is disconnected when you attach the bit and set the depth of the cut.

Macon Montage

MACON — The welcome rain last Sunday afternoon subsided just long enough for Macon area residents to take part in Memorial Day services at the Macon Cemetery.

A few opening remarks were made by Robert Osborne as he tested the PA system. Congratulations were extended to Clarence Hall, cemetery sexton of the past 60 years, who never missed a Memorial Day service in that time.

Clarence saw something unique in his first year as sexton, he recalls. The first motorized hearse (a Ford) from the Hause Funeral Home, Clinton started coming to the cemetery. At the same time a horse drawn hearse was still in use from the Belding Funeral home in Tecumseh. Clarence's wife, Margaret was also congratulated for her 48 years as secretary of the Macon Cemetery Association, an office she still holds.

Ed Clark then gave the invocation which included a reading of "This Moment" by Paul Barnett. The Bush sisters, Dawn, Deborah, Dorothy, Diana and Vangie sang "Battle Hymn of the Republic" accompanied by Dawn playing guitar. The girls are daughters of Mr. and Mrs. Elwood Bush of the Pennington Rd.

The Macon United Methodist Chancel Choir, directed by Nancy Fisher sang "America" accompanied by Howard Mehler at the piano.

The Rev. Albert F. Raloff of the Macon Methodist Church gave the address. He pointed out the ways we can say "Thank You" to those who died defending, freedom, liberty and democracy. He spoke of the bravery, courage and faith these men and women had. He asked us not to take for granted what these people did, dying to make our country a better country. He stressed it is up to us to build a better world.

In conclusion he said "Words are indeed inadequate at a service like this but we can all take constructive action." As heads bowed taps sounded over the cemetery, played by Dorothy Bush.

Memoriam

In loving memory of G. Allen Abner, who passed away, nineteen years ago today, May 26, 1958.
So many things have happened
Since you were called away
So many things to share with you
Had you been left to stay
We cannot bring the old days back
Ways of the world are such
But we have many pleasant memories
of the one we loved so much.
Sadly missed by his wife, children and grandchildren. 5-26p

Letters to the Editor

To the Editor:

Last Friday night my brother was arrested on a malicious destruction of city property charge when he picked one tulip out of a city flower planter downtown. I don't condone what he did, but at the same time there were groups of teenagers walking through the parking lot next to our apartment.

They were throwing rocks or what ever else they could find at the buildings and stores. That includes your building, Mr. Lincoln. It has gone on after every home football or basketball game or other social event since the school year began. Seems to me that is real property destruction and far more important than the city flowers.

The planters, as I see it, are for the enhancement of the downtown area. They are city property, and the city is responsible for their care. But, couldn't the merchants take some responsibility for the one in front of their business and spend five minutes a week pulling the weeds out of the planters?

Last summer when we needed rain so badly, couldn't they have poured some water on the red, white and blue petunias?

An attractive downtown area is more to the advantage of the merchants than anyone else. It makes the shopping area more pleasant and encourages people to shop in Tecumseh.

If the citizens and merchants don't care any more than they seem to about the planters, the city police should get on with more important things. Such as one of Tecumseh's long standing alcoholics that used the city property on the corner of Logan St. and N. Ottawa St. as a restroom on his way home from the bar one night. The police picked him up and took him home.

We need our city government to review it's priorities and treat all members of the public fairly, regardless of their age. More tactful handling of certain situations on the part of the police department would lead to improve police-community relations. Tecumseh certainly could benefit from an improved relationship.

Law enforcement is most effective when it and the public work together for the good of us all.

Sincerely,
Linda S. Tuckey

To the Editor:

I feel I must write to you just to express to your beautiful city of Tecumseh how much it means to a stranger 'passing through' to be treated like a home-town resident.

In my travels throughout the eastern United States and Canada, doing church school teacher training in many different denominations, I am frequently spending time in the shopping area of various communities.

While in Tecumseh a week ago, I visited at least four different places of business in your city...the Office Supply, the D & C Store, a large variety store behind that one, several department stores and the box factory. In every single one of them, I was given the most courteous service a person could expect to receive. The clerks went out of their way to be kind. In one store where I needed to purchase many supplies, and was heavily loaded down with these, the clerks made several trips to the door to hand my things to me as I loaded my car. In other stores where I carried things in, courtesy was shown by allowing me to set them aside while I browsed. In the Tecumseh Dist. store, the man willingly opened a large box just to accommodate me on some merchandise I needed for 'learning centers' for teacher training. I must admit I've travelled a long, long way (nearly 15,000-20,000 miles annually) and cannot remember when I've seen this kind of consistent courtesy and consideration given to a stranger (whether purchases were made or not). I didn't meet an unpleasant one the entire three days I spent in your area.

I'm sure there are many other cities where courtesy is demonstrated, and I've seen some others, but I must say that of your city deserves a big star.

Perhaps this letter may never reach the eyes of your readers, but if there is someone who could convey my deep appreciation to your business people, I would sincerely appreciate it. Certainly, many of their lives are 'living out' the Golden Rule!

Very Cordially yours,
Joyce Lamb

To the Editor:

Monday night, May 16 the Tecumseh City Council voted down the curb and gutter project on Milwaukee road This project involved 22 properties fronting the street owned by 12 individuals, and only five property owners were present who voiced their objection, and won.

A few years ago (1974), someone in City Hall started a similar project on North Union St. This parcel involved five property owners and three of us were against this project and voiced our objections, yet our City Council, four members who are still on the Council, voted it in.

Dr. Merwin Blanden made the statement in the Tuesday, May 17, and I quote "I asked you a year ago (City Council) when you were going to screw us with curb and gutter after we voted down the sewer and you just excused us and went ahead with the sewer".

Apparently Dr. Blanden scored the winning punch because the Council voted it down. If this is justice in our City Government, then we three property owners on North Union St. who were against this project in 1974 are entitled to and should get an explaination from our City Council.

We don't have homes in the $35,000 to $75,000 bracket, we don't have a beautiful country club sitting across the street or a beautiful apartment complex being built next to the Country Club. We don't live on a prestige street as all the home owners in the Country Club area. We live on North Union St...Across from our homes and land is a mobile home park and the 882.5 ft. of frontage that we were assessed $3,620.62 - in 1974 has been and is still farm land.

Now, if Dr. Blanden calls Milwaukee Road "undeveloped land" and got his point across to the City Council, then why did we get "screwed" with curb and gutter on North Union St.? We property owners who were against this project in 1974 would like some answers.

I would like to add that the City of Tecumseh has 973.15 ft. of frontage on Milwaukee Road that was assessed $3,892.60 yet the City Council had the gall to approve curb and gutter projects on North Union St., Park St., Maple St. and Willow St. back in 1974 and then vote down the project on Milwaukee Road. Again we property owners would like answers.

To the Editor:

Did your paper happen to print any pictures of the Bicentennial Wagon Train as we traveled thru your area last year?

My family traveled over 3600 miles with them. Earl, my husband was the official farrier for the Great Lakes Route so we were pretty busy.

If you could possibly get me some pictures and newspaper articles I would appreciate it very much.

Earl is writing a book of our experiences. What we need is some background material. Please see what you can do for us.

Sincerely,

Mike Risner was a double winner in the league meet winning the two mile with a 10:04.7 time. That effort set a conference and school record. Previous conference record was 10:05 while the previous school record was 10:11. Risner set another school record in the mile with a 4:33.8 clocking.

Bill Gerard won the discus with a 128'9" distance.

Eric Pratt was second in the high hurdles as was the 880 relay team of Hinz, Thilo, Karapas, Ihne.

Those who finished third included Cline in the mile, Pike in the two mile, Wojtowicz in the pole vault and Gerard in the shot put.

Cline was fourth in the 880 and Karapas in the 100 dash and the 440 relay team were fifth.

The Redskins finished with a 12-2 overall record, 4-1 and third in the league. Coach Ozzie Hashly said, "I was really happy with our season. The kids exceeded anything I expected. I think we were more than a dark horse in the league. And I'm looking forward to next year. We're losing only two of our top 12 point-getters. Our top five will be back."

The Redskin runners attended their Class C regional held in Hudson last Saturday. They finished 10th out of 18 teams with 9½ points.

Mike Risner qualified for the state meet in the two mile placing second with a 10:16 time.

Indian Baseballers Post 3-8 League Mark

Tecumseh's baseballers split a pair of games this week, dropping a game to Monroe Jefferson Wednesday 6-7, and beating New Boston Huron Friday in nine innings, 4-3.

In Friday's extra-innings game, Jeff Ives went the distance, striking out six and walking only one in a fine performance.

Eric Travis had a two run double in the first inning. The Indians scored again in the third on a New Boston error. The final scoring run came in the ninth when Butch Harvey drove pinch-runner Bill Tooman home with a single. Tooman was running for George Lynch.

Other hitters included Dave Bohannon with two, and Dave Perry with one hit.

Lynch not only provided the base run for the game winning run, but also turned in the finest defensive play of the game. With two out in the bottom of the seventh, he threw a New Boston runner out at home from left field. The runner was attempting to score from second on a base hit.

The Indians had four runs on six hits and three errors. Huron had three runs on six hits with four errors.

In last Wednesday's match against Jefferson, the tide turned against the Indians as costly errors turned the score into a 6-7 loss. Dave Bohannon was the losing pitcher, striking out seven and walking none. Only four of Jefferson's runs were earned.

Jeff Hans had two hits and two RBI's, with a two run homer. Bohannon, Greg Corley, and Terry Brooks each had two hits. Lynch had one.

Scoring for the Jefferson game was spread out for Tecumseh, as they never really threatened until the seventh when Hans pulled Tecumseh within a run at 7-6 with the homer. The Indians just could not come up with the tieing run.

The Indians had six runs, with nine hits and four errors to Jefferson's seven runs, 10 hits and two errors.

Tecumseh now posts a 3-8 league record, 6-12 overall.

Arrest B&E Suspects; Burglaries Continue

A safe, stolen from the Beach Bros. office on S. Maumee on March 31, was recovered by police Tuesday morning when they arrested Eddie C. Williams, 32, and his wife, Sylvia A. Williams, 22, at their trailer in Allen's Trailer Park, just west of Clinton.

Williams was charged with breaking and entering, confined in the county jail and placed under $5,000 bond. His wife, was charged with receiving and concealing stolen property. These charges against her were dropped in District Court Wednesday morning.

Williams appeared before Judge Yale LeLand Kerby Wednesday morning in District Court and was scheduled for his next appearance on June 8th. His bond was raised from $5,000 to $10,000, and he remains in the county jail.

Merlin Mowery, Tecumseh police chief, says the safe was discovered in the bedroom of the trailer and the safe's door had been removed.

Ray Dollison, owner of Beach Bros., used the safe basically for storing papers and records from fire. Less than $20 was in the safe when it was stolen. Important records for the business had been removed and have not been recovered.

While local police have made arrests on the Beach Bros. B&E, another burglary case developed Friday when Erb Chevrolet-Buick agency was broken into.

An undetermined amount of tools and cash were taken from the agency. Desks and cabinets were ransacked with papers and records strewn about the offices. A coke machine was pried open.

Entry was gained by breaking an overhead back door. On leaving, police believe the party used a 1977 van that was in the garage area for service the previous day.

It was returned and found on the agency's car lot with some damages to the right side. It had been driven 123 miles and apparently over gravel roads.

Talking It Out

ROGER PROCTOR

"Should I ever dip into my Capital?"

In her book, "Life is for Living," Theresa Morse maintains that a widow's capital is not always an untouchable commodity, nor need it be sacred. It is intended to be used sensibly for the sake of security but also to help make a better, happier life for yourself.

Ms. Morse points out that, if for all the years **before** you were widowed, you and your husband managed your finances without your children's advice, there's little reason to begin now.

Feel free to do what is important to YOU, without endangering the bulk of your capital. A trip or a special gift to yourself or others may seem extravagant to your children, but extremely meaningful to YOU.

Project the use of your capital wisely, reserving funds for emergencies, but, as Ms. Morse indicates, **your** welfare and happiness comes first and "your life is for living."

Advice regarding major finances can be sought from a banker or accountant, both professionals on whose skill you may rely.

Tecumseh Studied

Lee Boyer, associate professor of history at Eastern Michigan University, is pursuing a rigorous investigation of Michigan Indians, specifically Chief Tecumseh and Andrew Jackson Blackbird, an Ottawa Indian who attended EMU around 1850.

"Tecumseh was quite a physical culturist and humanitarian. He could be poetic and warlike. He had a vision that he would be killed in Thamesville, Ontario, and he actually died there. Indians claim that only they know where his bones are buried," Boyer siad.

"Blackbird is interesting because he was an assimilationist. He believed in intermarriage and adopting the white man's customs," Boyer explained, adding that Blackbird himself married a Caucasian woman he met at Michigan State Normal College, now EMU.

Blackbird published a phamplet and a history of the Ottawa and Chippewa Indians in Ypsilanti. Both are available in the Rare Book Room of EMU library.

Box 30028
Lansing, Michigan 48909
517/373-3088

Date: May 27, 1977
Permit Number: MI 0020583

NOTICE: The City of Tecumseh presently has a valid National Pollutant Discharge Elimination System (Public Law 92-500) Permit, issued December 27, 1974, to discharge treated municipal wastewater from its facility located at Section 34, T5S, R4E. The City of Tecumseh discharges its effluent to the Raisin River.

Said NPDES permit expires on June 30, 1977 at midnight.

The permittee has reapplied for reissuance of the NPDES permit. Federal Law, 92-500 and State Law, Act 245, Public Act of 1929, as amended require that all publicly owned treatment facilities provide treatment commensurate with secondary treatment and capable of complying with the State's Water Quality Standards by July 1, 1977.

It has been determined that the Applicant will not comply with this mandated requirement. The applicant has applied for a Federal Construction Grant, or it is in a Plan of Study area of another grant applicant. Grants may be available for the construction of the necessary facilities, and the applicant has pursued the funding of this project with a good faith effort.

It is hereby noticed that on the basis of preliminary staff review and application of applicable standards and regulations the Michigan Water Resources Commission proposes to reissue the NPDES permit for the discharge subject to certain effluent limitations and special conditions.

It is further noticed that the Michigan Department of Natural Resources intends to initiate formal enforcement proceedings against the Applicant for its failure to comply with the July 1, 1977 date. The Department of Natural Resources will suspend these enforcement proceedings if the Applicant agrees, stipulates and consents to the entry of a Final Order of Determination which orders, directs, and requires the Applicant to adhere to and comply with all conditions of the new NPDES permit. Said Final Order of Determination further orders the Applicant to build the necessary treatment facilities and attain and maintain the operational level of these facilities to the extent necessary to meet the final effluent limitations specified in the new NPDES permit in accordance with the shortest feasible construction schedule predicated on the Federal Construction Grant Program.

It is further noticed that the completion of the necessary facilities will be after July 1, 1977.

The proposed determination to reissue the NPDES Permit is tentative. Persons wishing to comment upon, or object to, the proposed permit and Final Order are invited to submit the same in writing to:

Permit and Enforcement Coordinator
Water Quality Division
Dept. of Natural Resources
Box 30028
Lansing, Michigan 48909

The name of the permittee and permit number should appear next to the above address on the envelope and the first page of any submitted comments. All comments received within thirty (30) days of the date of issuance of this public notice will be considered in the formulation of the final determinations. If no written objections are received and the permittee formally consents to the entry of the Order, the Michigan Water Resources Commission will issue its final determinations no later than sixty (60) days following the date of this notice.

The application, proposed permit and proposed Final Order, and other information, are on file and may be inspected at the Water Quality Division offices, 8th Floor, Stevens T. Mason Building, Lansing, Michigan, and at the District Office located at R#3, 37205 Mouillee Road, Rockwood, at any time between 9:30 a.m. and 3:30 p.m. Monday through Friday. Copies of the Public Notice and corresponding Fact Sheet summarizing application information, proposed Final Order and proposed permit conditions are available at no charge. Copies of all other information are available at a cost of $.20 per page.

Please bring the foregoing to the attention of persons whom you know would be interested in this matter.

You Are What You Eat

by Shirley Weekley

I have two old stand-bys for you this week but prepared with a new twist. I think you will like these.

Grape jelly is an unusual ingredient in meatloaf but this recipe is delicious. The jelly makes a sweet and sour glaze on the meat.

GLAZED GRAPE MEAT LOAF

1½ lbs. ground beef
1½ cups fresh bread crumbs
2 eggs, lightly beaten
1 small onion, minced
1½ tsp. salt
¼ tsp. pepper
½ cup grape jam

When you sign up for the Army today, you can also sign for Europe. It may not be the easiest way to see the world, but it could be the most rewarding.

You'll be there to do a job. You'll soldier. Bivouac in the mud of Grafenwoehr's rainy season, squint into an early August sun in the valley of the Rhine, and fight the chilly January winds of Hohenfels.

And just about the time you wish you had never left the States, you'll be celebrating the Oktoberfest in Munich, eating bratwurst in Frankfurt, or learning the slopes of Garmisch. And all the tough work will have been worth it.

Pool Program Announced

CLINTON—— Summer program is beginning at VanTuyle Pool.

Swimming lessons will be given to boys and girls of all ages and abilities. Lessons will be arranged in small groups, ½ hour per day for four-week periods.

There will be two four-week periods. Students may enroll in either the first session or the second session, or both. All lessons will be scheduled in the morning, Monday through Friday.

Beginning, intermediate and advanced classes will be available for all age levels. Junior and senior life saving will be available for all age levels. Junior and senior life saving will be offered if enrollment justifies.

Schedule for lessons is:

First four-week session, June 13-July 8

Second four-week session July 11-August 5

Enrollment for swimming lessons will be Friday, June 10, from 8 a.m. to 4:30 p.m. at the superintendent's office, or any day from 7 a.m. to 4:30 p.m. before the beginning of classes.

Lessons cost $3 per week or $12 for a four-week session.

Junior and senior life saving classes will be $15 for the four-week session.

The pool will be operated by the school and only qualified swimming instructors are card-bearing water safety instructors qualified through American Red Cross for junior and senior life saving.

The pool opens June 13, at 1:30 p.m. and will remain open all summer according to the following schedule:

Monday-Friday 1:30-4:30 p.m.; Saturday 2-4 p.m.; Tuesday evening 7-9 p.m.; Thursday evening 7-9 p.m.

The pool will remain open on Tuesday and Thursday evenings only if the attendance is high enough to justify keeping it open.

The charge for open swimming will be 75 cents for each session. Season passes will be $15 per person or $35 per family.

Special pool parties may be arranged for groups such as churches or other community organizations, by contacting the superintendent.

Costs will be consistent with open swimming with a minimum fee set. Qualified guards will be provided at all times.

Memoriam

In loving memory of my husband Glen Wilson who passed away one year ago today, June. 5.
To those who have a husband,
cherish him with care
For you shall never miss him
Until he isn't there
Sadly missed by his wife, Catherine. 6-2p

In Memory

It's been five years since that day in 72, the day God held his hand out for you. Here on earth we've all changed, But forget you, we cannot do.
We feel the warmth of your love, in our hearts, on a sunny day. We see your smile in a friendly face, When dark clouds cover our way.
Yes, Life has changed for us down here, since you went away that June day. Loving memories fill our hearts reminding us you're not dead, Just gone away.
Dedicated in loving memory to our son, brother, and friend, Doug Lane, who went with our Heavenly Father on June 2, 1972.

Through My Window

by Marda Gene Duncan

This is the time of year when gardeners, especially those specializing in roses, have nightmares about the tiny pesky aphids. And yes, I do speak from experience. Years ago Dad had a lovely rose garden in the backyard and how well I remember the monumental warfare which was waged against these bugs. Hostilities ceased only when the rose garden was shaded out — as the trees grew, their shadows became larger and larger until finally there was simply no sunny backyard for the sun loving roses.

Not long ago I ran across an article about aphids by Mel Thompson. It was interesting - especially since I could read about them without thinking that right now the nasty little creatures were attacking our roses.

Actually aphids have a most peculiar life cycle. This will not turn into an X-rated column, they are not a bit sexy. There are, of course, umpteen different species of this insect and, in some of the tropical branches of the family, there have never been any males found. Who said something about women's lib?

Mr. T. writes from California and so his bugs are of the western variety but I would assume ours are much the same. And whereas they do not carry things quite as far as their southern relatives, here is only one time of the year when the male aphids appear.

Let's start at the beginning. When warm weather comes the aphid eggs, which were laid the previous fall, hatch. The emerging bugs are tiny pear shaped females who are wingless. Soon these females give birth to more females who are wingless. In some species it is only three days between hatching and reproducing.

The cycle simply continues with wingless females bearing more wingless females who in turn bear more wingless females and so on, and so on.

It takes precious little figuring to realize that the bush who is playing host to this hen party of aphids will soon become overcrowded. These are parasitic insects whose sharp minute breaks are perfect piercing and sucking instruments. They live on the sap of 'their plant'.

When the crowding becomes so great that the food supply is not adequate to support the population, a signal is given and the females suddenly start producing aphids with wings. These winged females fly to a new host plant and thus a whole garden is soon infected.

All summer this continues. It is purely a one-sex society until fall. When cool weather and decreasing daylight foretell the end of the growing season and the approach of winter, a drastic change occurs. Suddenly the females begin bearing live males. Born with no mouths their sole function is to mate. Once this mission is accomplished they die.

The females, who have honeymooned, are the ones that produce the eggs which winter over. The following spring these hatch and the whole cycle starts again.

Although these creepy creatures truly are dreadful pests, their chain of life is interesting. It also poses some still unanswered questions. Is it a chemical message produced by the plant which tells the female it is time for the next generation to move?

There must be some alert, some reason for the sudden appearance of aphids with wings. And how intriguing that the only generation of males occurs in the fall.

Even more amazing is that, where the temperatures are warm enough so there is no necessity for eggs to be laid, the females simply go year round producing more live females. There are apparently never any males.

Fortunately there are many insects who prey on aphids. Ladybugs are super aphid eaters as are the larva of the green lacewing. There are many others, of course. There would simply have to be or else the world soon would be over run.

Mr. Thompson claims that on a four inch section of the thistle stem he counted 200 aphids. Another counter claims that if the offsprings of just one aphid all lived through a summer and reproduced the grand total would be something slightly under six billion! (And then they talk about rabbits?)

THS Softballers Beat Airport in Doubleheader

The Tecumseh girls' softball squad cleaned up on Airport this week, beating them twice last Wednesday. The two were also scheduled to meet in pre-district tournament action Tuesday, but were rained out and will play June 1.

On Wednesday, Luanne Harvey pitched both games, striking out a total of five players and walking eight.

In the first game, Tecumseh had four runs on seven hits and one error. Airport had three runs on three hits and one error. In the second game, scoring ran Tecumseh 5-9-2, Airport 2-2-0.

Tecumseh scored three runs in the first inning of the double header, but Airport tied it up in the fourth inning. Tecumseh came back with the game winning run in the fifth when Cindy Adams reached first on an error, took second on Delly Kruger's sacrifice, and third and home on two pass balls.

In the second game, Airport never really threatened as Tecumseh scored once in the first, and twice in the third and fourth innings.

Wednesday's batting honors went to Gloria Fosbender with two singles in each game. Other leading batters included Tory Iffland, Kim Adams, and Kelly Kruger.

The games pushed the girls' record to 7-6 in the league and 9-14 overall.

Baseballers Drop Two

Britton's baseballers lost two games this week, the second eliminated them from district play when Pittsford downed Britton 9-1.

In the first game against Summerfield Thursday, Chris Kimerer took the loss on the mound as Summerfield won in five innings on the 10 run rule. Scoring ran Summerfield 14-16-3 and Britton 4-7-7.

Chris Kimerer was the leading hitter for Britton with two hits. Britton pushed four runs across the plate in one third inning, but never threatened.

In Saturday's loss to Pittsford, Britton was able to come up with only one run in the sixth inning on five hits and four errors. Pittsford's scoring ran 9-9-0.

Randy Smith went 4 2-3 innings as the loosing pitcher. He was relieved by Chris and Dennis Kimerer.

Randy Smith led Britton in hitting with two.

Britton's record rests at 3-8 in the league and 4-10 overall.

STATE MEET BOUND — These five young tracksters are bound for the state class B track meet Saturday at Harper Creek School in Battle Creek. They qualified by taking first places in the 880 and mile relays in May 21's regional meet. Pictured are: (l-r) Tim Mayers, 880 relay; Mike Eaton, 880 and mile relays; Top: Jeff Anderson, 880 relay; Kim Cantrell, 880 and mile relays; and Dave Bilkie, mile relay. Tim Scheff, a member of the mile relay team is not pictured. At the regionals, the mile relay team won their event with a new school record of 3:28.8, breaking the old mark of 3:29.6.

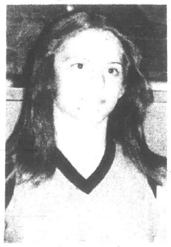
KAREN WISNER — Will compete in the state meet Saturday at Comstock after qualifying in the high jump at the regionals May 21. At the regionals, she captured second with a 5'2" effort.



THERESA DUHAN — Travels to the state meet this Saturday after her :61.4 effort in the 440 May 21 at the regionals. The third place run broke Tecumseh's old record of :63.

Close Out Season with 81-55 Loss

Girl's track in Tecumseh closed out their regular season competition Wednesday against Airport with a 81-55 loss.

Their regularly scheduled Huron League Meet was scheduled for Tuesday but was rained out and rescheduled for June 1.

Winners for Tecumseh in the Airport meet were: shot put - Janet Webb, 34'8½"; high jump - Karen Wisner, 5'; 110 hurdles - Mary Dana 16.2.

Both the 880 relay and mile relay teams won with times of 1:55.4 and 4:46 respectively. 880 relay members included McDonald, Steadley, Stein and Dana. Tomecek, Isom, McDonald, and Bohannon ran the mile relay.

Tide Turns, Bats Idle

After a full season of games with hot bats, but errors that cost them the game, Tecumseh's baseballers played good defensive ball this week, but their bats were idle.

Tecumseh's bats were so cold that they lost two close league meets, to Monroe Catholic Central 1-0 Friday and to Flat Rock last Wednesday 3-0.

Their pre-district game was rained out Tuesday and has been rescheduled for June 1.

In Wednesday's Flat Rock game, Dave Bohannon went the distance allowing only five hits. He struck out one and walked one.

Tecumseh threatened twice in the game, but could not put a runner across home plate against Flat Rock's ace pitcher, Dave Steffen, who struck out 15 and allowed four hits.

Flat Rock's three runs came in the fifth and sixth innings. They committed one error while Tecumseh committed three, but none were costly.

Dave Perry had two singles for Tecumseh, while Dave Bohannon and George Lynch had one each.

In the game against Monroe, Jeff Hans, George Lynch, and Jeff Ives each pitched as coach Bob Ondrovich prepared his pitchers for Tuesday's pre-district game. Lynch took the loss as Monroe CC scored once in the third inning.

Dave Bohannon, Eric Travis, and George Lynch had one hit each for Tecumseh.

Scoring ran Monroe 1-3-0 and Tecumseh 0-3-2.

The two league loses pushed Tecumseh's league record to 3-10 and 6-14 overall.

Tracksters Enter Meet Undefeated

Tecumseh's track team walked all over Airport last Wednesday to up their record to 7-0 in the league. They are the only undefeated team in the league as they enter the Huron League Meet June 1.

First place winners for Tecumseh were: long jump — Tom Wright, 19'6¾"; discuss — Scott Hill, 121'6"; shot put — Mike Martin 48'8½"; high jump — Jim McKinney, 6'; 330 hurdles — Jim McKinney 40.6; 880 run — Dave Bilkie, 2:00.7.

High hurdles — Jim McKinney 15.8; 440 run — Kim Cantrell, 51.1; pole vault — D.J. Biscupski, 12'; mile — Jim Harris 4:43.4; 440 relay, 45.9 and mile relay 3:40.1.

Final score rested at Tecumseh 102 and Airport 56.

Five Tecumseh tracksters were also honored Friday when they competed in the Telegram Individual Invitational.

Kim Cantrell took first in the 440 dash with a time of :51.4, Jeff Robideau won the low hurdle event with a time of :40.1, and the 880 relay team took first in 1:33.3.

Mike Eaton, Tim Mayers, Kim Cantrell, and Jeff Anderson make up the 880 relay team.

The JV softballers at Tecumseh ran over Airport this week 20-8.

Karen Keller, Chris Spagnoli, Sandy Humphries, and Tammy Overton lead in hitting. Keller had one home run and three singles. Spagnoli had two doubles and two singles. Humphries and Overton each had three singles.

With the end of the season, the girls now post a 7-7 season record.

Break 3 Records

Not only did Clinton finish one of its most successful seasons this week, 12-2 overall and 4-1 LCAA, but they also broke three school records Friday in the Telegram Individual Invitational.

Mike Risner broke two of the three records, shattering the mile record of 4:45 by running 4:33.8. He also broke the two mile record held by teammate Wally Pike. Risner ran 10:04.5 against the old record of 10:11.

Bill Gerard broke the third record, his own, by throwing the discus 129'5", 7'5" over his previous record.

Casey Thilo was the leading point scorer for Clinton in the individual invitational. Wally Pike was second.

Ozzie Hashley coaches the very successful team and comments that their future looks bright. He will loose only four tracksters to graduation and 10 of The top 12 point scorers will be returning next year.

Plan 24-Hour Relay

Clinton tracksters will join Onsted and Manchester school teams June 9 and 10 for a 24-hour relay at the Clinton track.

The event was dreamed up by Clinton's cross country runners to raise money for their camp in August.

The three, 10 man teams will have one runner run a mile in relay fashion and then the next runner will take over. Each trackster will be running every hour, or about 24 miles, starting 5 p.m. Friday.

The actual mileage ran by each team will be tabulated at the end of the relay and the winning teammates will receive medals.

Ozzie Hashley, Clinton track coach, explains that there is still room for any ten man team which wishes to participate.

Britton Advances

The Britton softball squad won twice this week, beating Sand Creek 18-12 Thursday, and Concord 22-18 in pre-district play Saturday.

The pre-district win advances Britton to district play Friday noon. They meet Morenci at Deerfield.

In the Sand Creek game, Lesa Campbell went the distance, striking out 8 and walking 11. Leading hitters for Britton were Dawn Bush, Pam Dusseau, and Sharon Wielfaert with two hits each.

Britton took the lead at the end of the second inning, 8-5, and lead the distance as Sand Creek never really threatened. Scoring for Sand Creek ran 12-4-5, Britton 18-10-6.

Lesa Campbell pitched again Saturday against Concord, winning the game on five strike outs and 11 walks. Leading hitters were Allison Judkins, Bush, and Dusseau, each with three hits.

Britton errors almost cost them the game, but 18 hits put the team on top. Concord led through the fourth inning, but Britton pulled away in the next three innings with 10 runs.

Scoring for that game ran Concord 18-4-7 and Britton 22-18-13.

Britton's league record now stands at 6-4 and 10-6 overall.

SCHOOL VOTE MONDAY

Millage, 2 Candidates on Election Ballot

Two millage proposals and a four-year term on the board will comprise next Monday's school election ballot.

Two candidates seeking the board post are Todd Herrick, incumbent, and Dean Sheldon.

Although wording on the ballot asks the electorate to vote on a 20-mill increase for three years for school operation, the increase is actually 1.5 mills, since voters in the past have approved 18.5 mills and this is the amount currently collected.

Also, school officials point out that all 20 mills might not be collected, if state aid exceeds present estimates. In 1973 and 1974, 17 mills were levied rather than the 18.5 mills voted.

Only operational millage required to maintain present academic and extra-curricular programs will be levied, officials explain. State aid for the next school year has not been finalized.

Second millage proposal on the ballot is a request for ½ mill for five years for maintenance and repair of school facilities.

School Board has a long range plan for maintenance, repair and renovation of school facilities presently valued in excess of $20,000,000 - and feels such a plan is essential.

This ½ mill will provide approximately $46,000 from taxes. In addition, the state will provide an additional $33,000 for a total of $79,000, with all monies earmarked specifically for maintenance and repair.

Voting will take place in the Tecumseh High School cafeteria with the polls opening at 7 a.m. and closing at 8 p.m.

Absentee ballots are now available at the Board of Education office on W. Chicago Blvd. Although the office is normally closed on Saturdays, it will be open from 8 a.m. to 2 p.m. for voting by absentee ballots.

TODD HERRICK

DEAN SHELDON

Board Candidates

Todd Herrick has lived almost all of his life in the Tecumseh school district, resides at 261 Wildwood and is employed as vice-president in international operations at the Tecumseh Products Co.

Herrick stated that his prime concerns are to encourage parental participation and give recognition to and boost the self-image of the so-called average student. He stated he wants the "best education for the taxpayer's dollar."

Herrick, 34, received a bachelor of arts degree in management from the University of Notre Dame and has an associate degree in mechanical engineering.

Herrick was a member of the Tecumseh Board of Education for four years during which time he has served the building and grounds administrative and finance committees. He is school board treasurer this year.

Other committees he serves include Howe Military School, Adrian College and the Tecumseh Products Co. board. He was chairman emeritus of Care, Inc., Lenawee County substance abuse program of which he was a founder.

Herrick is a member of the Association of the United States Army officers and a captain in the National Guard. He was a captain in the Vietnam War and also served as an infantry platoon leader and army helicopter pilot.

He and his wife, Linda, have three children, Todd II, a freshman at THS; Lisa, a seventh grader; Kent, a third grader.

Dean Sheldon, born and raised in Tecumseh Schools until his early teens, returned to live in Tecumseh in 1964 as manager of Tecumseh Lumber Co.

Sheldon said that he sees a new middle school as a priority to create additional space in the elementary schools. He said that he wants to see Tecumseh Schools progress and provide opportunities in learning for students equal to schools of similar size and locale.

Sheldon was graduated from Dundee High School in 1953. He attended Eastern Michigan University for two and one half years and majored in business administration. At Michigan State University he studied a lumber management short course.

After his education, Sheldon worked for his father in the retail lumber business in Dundee. In 1965, he joined the sales staff of Abitibi Corp., leaving in 1974 as an area sales manager. He is now employed as an area salesman for Maumee Valley Supply of Toledo.

Sheldon was charter president of the Dundee Jaycees, vice-president of the Tecumseh Jaycees, a member of the Dundee Village Council, past president of his church council and is again serving that council. He and his wife, Jeanne sponsored church youth groups for three years.

The Sheldons have four children, Cheryl, a freshman at Hope College this fall; Lance, a THS junior and Julie, a sophomore; and Jeff, an eighth grade student.

Drug Chemical Is Confiscated in Raid Here

An agent of the Drug Enforcement Agency (DEA) in Detroit called the drug bust here Monday "one of the biggest."

Although the drug, PCB, a horse tranquilizer used by addicts, was not processed here in Tecumseh, agents from DEA did confiscate here over four tons of chemicals used in processing the drug. The chemicals were stored in a former service station on S. Maumee at Russell Rd.

Headquarters for producing the drug apparently was located in Morenci, where three men were arrested Saturday. Two other arrests occurred Saturday night and Sunday in Adrian and Manitou Beach.

Search warrants were obtained in Tecumseh Saturday by the agents who blocked off entries to the building Sunday. Agents then entered the building Monday and confiscated the chemicals.

The four tons of chemicals processed for PCB would produce 600 pounds of saleable drug to addicts. DEA agent says normal seizure of drugs ranges from a few ounces to a pound.

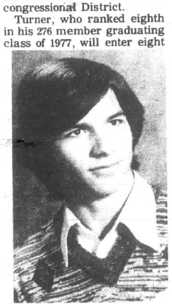
Chemical companies provided agents of the Federal agency with leads to track down the buyers. Two more arrests are expected, bringing those involved in the ring to seven.

THS Graduate Is West Point Bound

Rodney Turner, son of Mr. and Mrs. Ralph Turner of 4807 Whelan, Tipton, received an appointment to the United States Military Academy, West Point, N.Y.

His appointment was made through former Congressman Ed Hutchinson of the Fourth congressional District.

Turner, who ranked eighth in his 276 member graduating class of 1977, will enter eight weeks of cadet basic training on July 6. He said that during his four years of study he plans to minor in either pre-law or political science.



RODNEY TURNER

Turner was also the recipient of a State of Michigan honorary scholarship and in Oct. 1976 was awarded national writing honors for an impromptu essay and other entries.

He was chairman of the 1976 Lenawee County Youth Convention, a group leader during Town Meeting '76, school board representative 1976-77, student council president during the 1975-76 school year, class president during his sophomore year, student council representative his freshman year, National Honor Society, drama club and art club member. FLAMES LEVEL TECUMSEH'S OLDEST INDUSTRY

Fire Destroys Mill

Hayden Mills, Tecumseh's oldest industry, was destroyed by fire early Wednesday morning despite efforts of local firemen to save the 50-year-old structure.

Only ruble and twisted steel beams remain of the business that was started in 1858 by William Hayden and moved in 1927 to the S. Pearl St. site. In 1898, the first Hayden Mill burned and was located on Globe Mill Pond at the Tecumseh Community Center site.

Tecumseh firemen discovered the mill on fire about 1:50 a.m. Wednesday. They had been called out earlier to assist Clinton firemen at a house fire on the Clinton-Macon Rd.

All Tecumseh firemen and equipment were enroute back to the fire barns when firemen in one truck, southbound on S. Evans and eventually to the city barns to gas up, discovered smoke and a few flames coming out of the mill.

Wallace MacGeorge, fire chief, says all equipment was rushed to the scene, but the mill went up like a "torch." Many residences were evacuated in the area as flames swept the structure.

The mills' office, located just a few feet north of the main building, and the old railroad depot, owned by Perry Satterthwaite, were scorched by the flames but saved from destruction.

Tecumseh firemen were still at the scene mid-Wednesday morning as the ruble continued to smoke and burn.

Brion Loses in Playoff

Stan Brion, Tecumseh Country Club golf pro, just missed Tuesday gaining a berth in next week's U.S. Open in Oklahoma.

One of 19 vying for three entries to the tournament, Brion tied for third with a 36-hole total of 149. The long hitting pro - a finalist last year in the PGA driving contest and a sectional winner this year - lost on the first hole of a sudden death playoff when he shanked his second shot. He made bogy while his opponent got down in par.

Qualifying rounds where held at the Barton Hills course in Ann Arbor.

Brion is still in the driving contest and will compete again on July 1 in Chicago for the regional title.

Talking It Out

LESTER D. PROCTOR

"What should I look for in a nursing home?"

People often tell us about their experiences with nursing homes. We have some very fine ones in our city and these are just some of the things to look for in choosing a nursing home.

1. Consult first with your doctor as to the particular type and amount of care required.
2. Visit the facility yourself, alone.
3. Does the home provide all the services your doctor requires?
4. If the patient is dependent on Medicare or Medicaid, does the nursing home participate in both programs?
5. Obtain and read the "patient's Bill of Rights." This is posted conspicuously and it gives the regulations necessary to be certified for Medicare and Medicaid.
6. Who is the "house" doctor? Is he available on staff or on-call 24-hours? How many registered nurses?
7. Are emergency patient transfer to a hospital provided for? How far away is it?
8. What is the exact **total** monthly covered and what is and is NOT covered? Is a written basic service agreement available?

Be sure to discuss with the patient's doctor other special services he may require - special diet, excercise, personal attention, etc.

Opening Set for September

The Tecumseh McDonald's Hamburgers restaurant is expected to be completed in late August with opening of the 124 seat restaurant in September, said the owners, Mr. and Mrs. Bill Sigmund of Jackson, at the June 7 groundbreaking ceremonies.

Restaurant is to be located at the site of the old Partridge Implements building, between the Jack Pine Motel and the United Savings Bank, Occidental Rd. branch on M-50.

This marks the eighth McDonald's restaurant for the Sigmunds who own others in Jackson, Adrian and Albion. It will be the first to have a drive-in window for carry-out orders.

Mike Brown, supervisor of training, public relations and advertising for the Sigmunds, said that the Tecumseh restaurant will employ approximately 50 full and part-time employees and that all would be employed from the immediate Tecumseh area. The employees of the other stores combined equal 450.

Jim Abbs, presently manager of the latest Adrian store, will become the Tecumseh manager.

Mrs. Sigmund announced that the decor of the restaurant will carry out the theme of the life of Shawnee Chief Tecumseh. Oil paintings are being done by Lee Beaman of Jackson.

Judy and Jim Palmer and Paul and Mary Lou Dangler were credited by Mr. and Mrs. Sigmund as being a major influence in their decision to bring McDonald's to Tecumseh.

Mrs. Sigmund stated that the two couples acted as intermediaries as early as three years ago "and when they finally pulled the noose around our necks, we decided to come," Mrs. Sigmund said jokingly. "It was their interest and concern for the young people to have a place to go that convinced us," she said.

Construction Begins on Two Projects

Two construction projects planned by city officials started this week when workers began excavating at city hall Tuesday for an addition there.

Addition is expected to be completed in September or early October.

Other project is underway for a new Russell Rd. street. Trees will be removed on the south side, between Green Hwy. and the railroad tracks, before grading starts.

The new street, three feet wider than the Occidental stretch between Russell and W. Chicago Blvd., will be constructed from Green Hwy. to Mill. When additional funds are available, it will be extended eastward to Rogers Hwy.

This extension will require a new bridge over the River Raisin.

Course Action Postponed

Tecumseh City Council postponed action Monday night on the purchase of the Raisin Valley Golf Course from Willis Porter for $350,000 until further financial information is received and other methods of financing are found.

City manager Cal Zorn explained to Council that Porter wants a commitment for the entire 332-acre parcel which would make it ineligible for federal funds at this time.

Zorn also told Council he investigated the possibility of a third party purchaser, namely the Tecumseh Community Fund Foundation, from which the city could purchase it in annual increments that might make it eligible for Federal funding.

However, Zorn said that there was no guarantee from either the Department of Natural Resources or the Bureau of Outdoor Recreation that those funds would be available annually.

He told that Region II, Jackson, Lenawee and Hillsdale Counties was allotted only $210,000 annually for recreation funds. "It just isn't logical that we could get an annual commitment for $40,000," he told.

Zorn stated that he was informed "that the United Fund Board is not interested." He told Council he did not know why. Tecumseh Park (the Pit) was acquired with the Tecumseh Community Fund Foundation assistance.

Tuesday afternoon, Tecumseh Community Found Foundation president Robert Robinson issued this statement to the Tecumseh Herald:

"The position of the Foundation as expressed by Mr. Zorn was based on my assessment of the facts in the matter only after an unofficial contact by the city had been made. Such position should not have been construed to be the official position of the board of trustees of the Foundation," said Robinson.

"The Foundation has not received any formal written request from the city to present the matter of purchasing the Raisin Valley Golf Course to its board of trustees. If a request had been received, a special meeting would have been scheduled in order for the city to have formally presented its request to the Foundation."

"A vote by the trustees would have been taken at such a meeting on the matter and the official position of the board would have been known immediately, " Robinson concluded.

"Without matching fund, I don't see how we could own it really," said Mayor Harold Easton.

Council member James Palmer suggested that the profit could be used as the matching funds.

Other Council members complained Monday night that not enough financial information about the state of the business was available.

"We've only had a quick look at the bottom line," said one Council member. "I'd like to see the balance sheet."

"This is what I really want to know," said Council member Aden Mead, "after you put it into shape, is there a profit?"

"I wonder what other kinds of information he is showing to other people, " said Council member Jay Tressler. (Porter was reported to be advertising the property for sale elsewhere).

Tressler then moved to postpone the decision until more information could be obtained. Council concurred.

Accidents Minor on City Streets

With one exception, traffic accidents were minor on city streets the past week.

Lone exception occurred about Tuesday midnight when Paul J. Lemanski, 20, of 409 Outer Dr., jumped the curb on N. Pearl St., clipped a telephone pole and hit a tree head-on. He told police that he swerved to miss a barricade, erected by the city water department for fixing a main. Barricade had yellow flashing lights working at the time.

Lemanski was taken to Herrick Hospital for minor injuries. He was then booked for drunk and disorderly by the Sheriff's Department and taken to the county jail.

A resume of other accidents is:

June 2 - Robert D. Hoffman, 17, of 2816 Coachlite Dr., backed into Michael C. Keller, 17, of 119 W. Brown, in the high school parking lot.

June 3 - Ray G. Goodwin, 3591 Osburn Dr., told police his car was damaged while parked in the Kroger lot. Other party is unknown.

June 3 - Douglas P. Wilcox, Paul's Trailer Park, had his vehicle damaged while parked there. Other party is unknown.

June 3 - Donald L. Dowling, 19, rural Adrian, was cited for running a stop sign after an accident with James S. Martin, 27, of 736 Waskin Dr., at the intersection of W. Cummins and S. Union St.

June 4 - Dorothy V. Krall, 69, of 416 N. Evans and Milbrin Brisbin, 65, Manchester, backed into each other in a city parking lot.

June 6 - Dianne L. Hamblin, of 309 Cree Ct., and Charles E. Wilson, 24, Dundee, collided in the Chicago Blvd. - Maumee St. intersection, Mrs. Hamblin was headed south on N. Maumee and Wilson east on the boulevard. Traffic light was changing at the time and both proceeded into the intersection.

Through My Window

by Marda Gene Duncan

The little house was hung out weeks ago and we are still waiting. The roof is steeply pitched and the front door is a small 1½ inch hole. There is good ventilation under the eaves and proper drainage near the floor. The house is hung in the largest maple tree on the creek bank, a site which for many many years has held successful wren houses. The view of it from the west facing window is excellent.

To sum it up, the stage is set and we are all ready for some super fun — watching the wrens build their nest and raise a family. All that is lacking are the main characters, the wrens themselves.

If human traits could be transferred to the bird world I would say that the wrens were teasing us. They have made us wait before and, just when we have given up hope for a good wren raising season, they settle down to serious business.

Hopefully history will repeat itself. There is still lots of time, the boistrous house wrens raise three of four families a year.

The books seem to disagree about the nature of the house wren's song. Some call it bubbling and full of joy whereas others use such words as quarrelsome and harsh. We tend to belong to the camp which looks kindly on the vocal endeavors of these characters.

The male sings to establish his territory and attract a female. Then, once the eggs are laid and she is 'kept inside' incubating, he stays close by serenading her.

It is these loud bursts of song which probably prompted the Chippewa Indians to name this tiny 4½ to 5¼ inch songster O-du-na-mis-sug-du-da-we-shi! Translation, "A big noise for its size."

Once Mr. Wren has set the boundaries of his home territory he spends a great deal of time keeping intruders out, advertising for a mate, and filling potential nesting sites with little twigs, grass stems, etc. A noisy business. Once his lady love is won he takes her on the grand tour and introduces her to potential house building sites. This too is a noise business.

After deciding to stay, Mrs. Wren proceeds to select a home and then usually demolishes her husband's work. She tosses out his nesting material and replaces it with her own. It would seem that there is not too much difference between twigs, rootlets, and stems but, to the disconcerning eye of the female wren, there apparently is. And as she goes about her reconstruction and redecorating, she chatters and scolds. More noise.

It is after the eggs have hatched that the real noise begins. Wren eggs are whitish with reddish brown freckles, and the usual clutch consists of from six to eight. With this many youngsters all squeaking and screaming, it is not hard to see why a house full of babies is far from quiet.

The kids are always hungry of course, and their demands for food are loud. A new element is added to the noise during the last few days that the kids spend at home — even when the parents are away hunting for food, the youngsters chatter to each other and this sounds almost like the buzzing of an angry beehive. The Indians were right, wrens do make big noise for their size.

These dull brown birds are as fierce and hard working as they are noisy. They will attack anything, from another bird to a squirrel to a person, who ventures too close. Much of the wren's bad reputation for puncturing the eggs of other birds is due to its strong protective instincts. Those other nests are usually in the wren's territory and he is merely protecting his own.

As for hard working — well, just imagine how many bugs it takes to keep this fast growing family fed. One observer counted over 1,200 trips made in a single day by a male. These were food-for-the-family trips and did not include any foraging for himself.

Just see all of the action, the good watching and good listening, we will enjoy — when a pair of these stubborn little birds decides to set up housekeeping!

Bible School at Friends

"Sing It Out, Jesus Loves You!" is the theme for the 1977 vacation bible school for the Tecumseh Evangelical Friends Church, Pastor Dane Ruff announced.

Vacation Bible school begins June 13 and continues through June 17. Classes are held at 9500 Tecumseh-Clinton Rd. from 9 to 11:30 a.m.

School Election Is Monday

CLINTON — At the annual school election, June 13, voters will be asked to consider two millage proposals.

One proposal asks for a renewal of five mills which expired this year.

The other asks for a one-half mill increase in total operational millage. Both proposals are for three years.

The Clinton Board of Education has stated that the renewal of the five mills will permit the continuation of present school programs.

The one-half mill additional will allow the board to take advantage of the State Aid bill and procure more state aid for the local schools.

The board seeks to continue the system-wide reading development program, which was begun last year, and to broaden the program to include other communication skills of writing, speaking and literature under one coordinator.

A part-time math-science coordinator will provide subject coordination from first through 12th grade.

Two four-year board positions are to be filled at the election.

Terms of Dr. Dean Kirkland and Glenn Clark are expiring and Glen Clark will not seek re-election.

Dr. Kirkland and James Wilson are the candidates for the board positions.

Other members of the board are: Norman Randall, Robert Werner, Robert Way, Steven Bowman, and Sgt. William Zimmerman.

Electricity Rate Hike

CLINTON — Another rate hike for electrical customers was voted by Clinton Village Council at Monday's meeting.

Increase of five mills will be effective June 15.

Rate increase was necessitated by the rate increase granted Detroit Edison to their wholesale customers.

If full increase is not allowed, a rebate will be applied to the next billing period and the excess will be rescinded.

Council adopted a contract with Ayers, Lewis, Norris and May for repair of a storm sewer on Macon Rd.

A special meeting was scheduled for June 20, at 7 p.m. to complete discharge permit for the new sewer plant.

Board accepted the bid of L. O'Dess, steeplejacks, for $2,750, to clean and paint the water tower.

Council has determined that Oak Tree Inc. must petition the village for improvements before building can be allowed on a section of Railroad St.

Village Engineer Richard Sharpe requested street work bids to be opened June 22 at 4 p.m. in the village office.

Bid of Cletus Waters for $2,007 was accepted for the parcel of land owned by village on Tyrrell St.

Frank Becker, village police chief, reported that control of stray dogs is improving. Two arrests have been made recently, and the county dog warden is responding when called.

Certain amendments to the zoning law will be passed as the result of the public hearing.

Starting in July regular council sessions will be held on Wednesdays as follows: July 20, Aug. 24, Sept. 21 and Oct. 19.

Unlicensed dogs running loose in the village have been a problem for a long time, and the council has been considering an ordinance recently which would limit the number of dogs permitted at a residence.

Six Flee from Fire in House

CLINTON — Fire forced Mrs. Margaret Service and five others from their home at 6825 Clinton-Macon Rd., just after midnight Tuesday. No one was injured.

She roused her husband, Ellis, Mrs. Service, another daughter, Carol Foster and a girl friend, all in upstairs sleeping rooms, and they fled the smokefilled house in bedclothes wrapped in blankets, all unharmed.

Clinton Firemen were called at 12:15 a.m. and then they requested help from Tecumseh Fire Department pumper.

Several loads of water were hauled from Clinton Village limits.

According to Chief Harlon Ruhl major damage was to the back portion of the two story house, kitchen, and family room, with extensive smoke and water damage and gutted walls in that area. No furnishings were removed from the house.

Tecumseh's truck was just preparing to leave the scene at 1:49 a.m. when the call came for the Hayden Mill fire in Tecumseh.

Oral History Takes Many Hours

Interviewing is the glamorous, fun part, but the hours of research, editing and indexing are the real work and backbone of any oral history project, Dr. Flavia Reps told members and guests of the Tecumseh Area Historical Society at the May 17 meeting.

Dr. Flavia Reps teaches oral history at Washtenaw Community College. She described the techniques and problems of oral history projects as encountered in the field and classroom. She presented a 20-minute slide and tape documentary - the result of approximately 200 hours of preparation and field work.

The Willow Run Oral History project traces the transformation of a community of 600 farm families from rural to a sprawling urban community of 42,000 laborers in just four years. Then in 1945, after V-E Day, the population plummeted to 16,000.

The expansion of Willow Run Schools, the building of temporary housing, the construction of I-94 expressway, the medical, educational and social demands on the small community were the major effects discussed in excerpts of interviews with people involved with the community's growth.

The Willow Run Oral History project was developed into three phases of research to determine the social and economic impact of the bomber plant on the rural community of Willow Run.

+The lifestyles of the farm families prior to 1941 were documented.

+The political, social and economic lifestyles prior to 1941 and the conflicts and adjustments caused by the rapid growth for the Willow Village community were studied.

+The varied occupations in the plant, housing problems created by temporary housing of Willow Village and the educational and social activities of the community were studied.

Finally, the post war impact was studied to determine the impact of the reduction of the work force to just 16,000 in 1945.

Dr. Reps said that a study plan is a prerequisite to any oral history project. Interviewers and interview subjects are often matched to obtain a successful interview. Technical difficulties such as audibility of the speaker must also be dealt with.

Dr. Reps teaches these techniques for individual or group projects at Washtenaw Community College. Another course will be offered this fall.

In contrast to the historical documentary she presented, Dr. Reps showed a Telex film from the Smithsonian Institute archives that presented a glamorous, idealistic picture of the burgeoning community of Willow Village.

'No Strings Attached'

Mrs. James Robideau, owner of one year, offered the Bidwell Building (better known as the Palman building) at S. Evans and W. Chicago Blvd., as a gift to the city of Tecumseh, "with no strings attached."

Mrs. Robideau said that she would like to see the building stay if it is feasible and that it be used for a cultural center possibly as a home for the Tecumseh Players, Chamber of Commerce, a teen center or any one of the number of organizations that have publicized a need for a meeting place.

Council appreciated the "generous" offer but told Mrs. Robideau they would have to study the proposal before accepting the building.

"I don't believe in giving a gift with strings attached," Mrs. Robideau told the Herald. She said that the city could do whatever it desired with the building and property.

She turned over a feasibility study to Council which included restoration estimates for use of the three floor building as a mini-mall. Reportedly several potential retailers were interested in the concept but felt it was not a profitable venture.

New barrier free design codes, which could require an elevator for the handicapped, could make restoration of all three floors expensive. It may be possible, however, to obtain a variance for the historic building and federal funds to restore it. One source estimated the cost to recondition the interior of the building at $175,000.

In a report to Tecumseh City Council two years ago, restoration architect Richard Frank of Saline from Preservation Urban Design, cited the Bidwell building as an important landmark to the architectural streetscape of that downtown business block.

His remarks were made in a restoration feasibility study on the Kennedy House, then located at S. Ottawa and E. Logan Sts. City Council opted to demolish the building and made the city owned property a mini-park when the estimate for restoration was $75,000. Council could see no immediate use for the building and did not have funds.

A Detroit newspaper recently reported on the restoration of the old Goodyear Block Building in Manchester as the Black Sheep Repertory Theater with public opening July 6. That structure was built in 1867. The Bidwell building was built circa 1855.

Residents Complain

"You've done it to us, why not do it to other people?"

That was the complaint of residents from N. Union, Hiawatha, Muscody and Evans St. at Monday night's Council meeting.

They wanted an explanation as to why a special assessment district was not approved for Burt St. at the May 16 council meeting.

"They (Burt St. residents) may have won the battle," replied Mayor Harold Easton, "but I think they've lost the war." He and Councilman Carlton Cook said that they thought curb and gutter would be constructed sooner or later and probably at a higher cost.

Council member Aden Mead said he is still in favor of the Burt St curb and gutter but voted against it with the rest of Council because the same residents were assessed just a few months before for sewer and water.

Louis Caterina argued that he was also assessed for sewer and water and a lift station on N. Union. Furthermore, his property is farm and undeveloped, an argument used by Burt St. residents.

Residents also complained Monday about the quality of drive construction. Said one resident in the Muscody-Hiawatha neighborhood:

"I used to think that this was a wonderful place to live. But, it sure gets sickening when you're left with messes like these and a $1,000 bill to pick up on a retirement income."

City manager Cal Zorn said he would report back to Council on these complaints.

Council member Jay Tressler suggested that the city make a public relations effort to explain to each person in a special assessment district exactly how his or her property would be affected, in addition to the public and individual notices that Council must now issue to property owners.

You Are What You Eat

June is the month for fresh Michigan strawberries and what a treat they are. Here are just a few ways we enjoy them.

Fresh strawberry pie is hard to beat anytime and this recipe is simple and delicious.

1 3 ounce package strawberry gelatin
¼ cup cold water
3 tablespoons cornstarch

baked pie shell

Add sugar and dry gelatin to boiling water. Blend cornstarch in cold water and add to hot mixture. Boil three to four minutes. Cool and add the fresh berries, sliced. Pour into baked pie shell. Refrigerate until firm. Top with whipped cream to serve and enjoy.

This Strawberry Parfait, from Norma Wonderly, is a terrific super quick dessert.

STRAWBERRY PARFAIT

1 (6 ounce) package strawberry gelatin.
2 cups boiling water
2 cups vanilla ice cream
2 cups strawberries
½ angel food cake

Tear the ½ angel food cake in pieces and place in 9x13 inch pan. Dissolve the gelatin in hot water; add the vanilla ice cream. Stir in the strawberries. Pour over the angel food cake pieces and refrigerate. To serve, cut in squares and top with whipped topping.

++

I prepare several varieties of homemade jam but this strawberry has to be our favorite. This recipe is simple and the results are superb.

FREEZER STRAWBERRY JAM

1 qt. strawberries
1 box Sure-Jell
4 cups sugar
¾ cup water

Select only fully ripe berries. Crush completely one layer at a time. Measure two cups of fruit into large bowl. Add sugar to crushed berries, mix well and then let stand for 10 minutes. Mix ¾ cup water and Sure-Jell in sauce pan. Bring to boil and boil one minute, stirring constantly. Stir into fruit and continue stirring for three minutes. Ladle quickly into scalded containers and cover with lids. Set at room temperature, takes up to 24 hours. Store in freezer. If used within three weeks, store in refrigerator.

Note: Each box of Sure-Jell contains directions for making a variety of jams and jellies, both cooked and uncooked.

See you next week.

Mothers Celebrate

Mary Francher, 96, a resident at the Herrick Nursing Home, was the oldest woman present and the great-grandmother with the most great-grandchildren (46) at the Ladies' banquet May 9 at the Tecumseh center for senior citizens.

Mary received a corsage made by another senior citizen, Marie Meyers, as did other honored women - Lodica Peotter, mother with the most children (six) of those ladies present; Edith Lauden, grandmother with the most grandchildren (24). Marie Myers also made necklaces for women at Herrick Nursing Home.

Approximately 70 people attended the special ladies' day. Senior citizens invited their children, grandchildren or friends to have lunch with them.

Games were played and the Jaycee Auxiliary presented a clever "silly style" show, with gag costumes such as an afternoon tea dress designed with a teapot bustle and tea bags pinned to the dress.

The Jaycee Auxiliary presented flowers to senior citizens at the banquet and at the nursing home.

Keep On Going

They were marching down Main Street, and right at the height of the parade the tuba player blew a sour note. A really sour note.

People snickered. Some burst out laughing. But, regardless, they had to hand it to the tuba player . . . he kept right on blowing, right on going.

Makes you stop and think. Sure, it's natural to laugh at someone else's sour note. But how about our own mistakes? No one can get through life without them — that's sure.

The question is, do you stop or do you keep on trying, keep on going? If you've been in church lately, you'll know the answer to that one.

17.5 Mills To Be Voted On

BRITTON — The voters in the Britton-Macon Area School district, on Monday, June 13, will be asked to approve an increase of one mill for additional operating expenses plus the renewal of the 16.5 mills that expires this school year.

This brings to 17.5 the total number of mills to be voted upon for operating expenses.

The 17.5 mills will be for one year and is needed to meet the additional expenses to operate the school for the next fiscal year.

The rising cost of utilities, supplies, equipment, wages, and a projected drop in enrollment has made it necessary to ask for the additional mill, explained Supt. William Saxton.

The Board anticipates lowering the debt retirement millage to .36 of a mill from the .58 of a mill that was levied for debt retirement last year.

This .22 of a mill reduction in debt retirement will result in the total school millage being raised. .78 of a mill if the millage is approved at the annual election.

Incumbents Wesley Gilmore and Jim Squires will run unopposed for the two four-year vacancies on the school board which expires this year.

The election will be held in the high school study hall. Polls will open at 7 a.m. and close at 8 p.m.

COUNTRY ESTATE LIVING — OR A FABULOUS NEW RESTAURANT? — This beautiful English Tudor home overlooking Evans Lake could make the transition easily. As a private home it offers an indoor heated pool, four very large bedrooms, three and one half baths, mud room, completely furnished kitchen which is very modern, fire place in the 19' x 33' living room adjoining the 11' x 30' sun room - from there into the kidney shaped pool (room is 28'x36'). Upstairs you'll find four very spacious bedrooms, one of which contains another room measuring 9½ x 12'. The basement is finished, has a juke box and measures 18½ x 33' in the recreation area - there is a laundry area, workshop and below, a sub-basement. The baths are ceramic - this home was built in 1929 and has all the original lighting fixtures; wainscotting, beamed living room ceiling, polished ash floors lie beneath the beautiful carpeting. The three car heated garage has a ceramic cistern below. And we're very sure that the suit of armor standing in the main foyer will be of more than a passing interest. All this and we haven't even mentioned the view which is beautiful anytime of the year! The 24 acres of ground boast a three stall horse stable, 150 mature fruit trees, and a 91 foot paved curved drive coming up from the highway. Country living at its best - or a beautiful new restaurant where the elite would surely meet. If it strikes your interest, compare and you'll find the asking price is a most reasonable one.

A GENTLEMAN FARMER — would be right at home in this fabulous home on 167 acres. The beautiful ranch style home overlooks a small lake and rolling hills and woods. Two fireplaces, one in the guest bedroom, are featured along with two kitchens. Beautifully decorated. The natural beauty landscape can be viewed from the upper deck or from the lower walkout area.

Mayor Sends Off Troop

Tecumseh Mayor Harold Easton is expected to give the 11 members of the Cobra Patrol Troop 272 a send off from Tecumseh's four corners at 9 a.m. Sunday for a 90-mile hike to Lansing. Young men will attend church services first.

Scouts will hike to complete their merit badges and receive partial credit for their cooking and camping badges.

Object of the hike is to walk 10 miles a day for five days and 20 miles in one day.

Duane Covell is the patrol leader and his mother, Rosemarie Covell, will be the adult accompanying the Scouts on their hike. John Covell, Duane's father, will transport the camping tents and drive the group back to the Tecumseh Area.

Their scoutmaster, John Deming, was unable to participate due to work.

The hikers will camp June 16 and 17 at the Danville State Game Area where they will receive a tour of the fish hatcheries and game reserve.

June 18 and 19 they will camp at the KOA Campground five miles south of Lansing. On Father's Day, their fathers will be honored guests at a hobo supper.

The group will spend June 20 touring the Michigan State Capitol building and hope to meet with representative John Mowat, R 40th district and Governor William Milliken.

Mrs. Covell arranged to have farmers along the route allow the hikers to camp on the owners' property. Her sons are making the hike. "We work with our boys," she explained.

The hiking Covell family inadvertently gained some publicity for itself recently on the Tecumseh Spotlight radio program. Residents may have spotted the Covell family hiking about town. "We've built ourselves up for this one," Mrs. Covell explained.

"What's different about summer flying?" will be the topic presented by "Woody" Stamen, government speaker at the first Federal Aviation Administration workshop-lecture to be given in Tecumseh, June 14, 7-10 p.m. at the Tecumseh Community Center.

Pilots, student pilots, parachutists, wives and friends are invited to attend. Workshop is for all concerned in southern Michigan.

Attendants are encouraged to bring their problems. Color sound movies will be shown. Admission is free. Refreshments will be served and transportation will be available from the Al Meyers Airport.

Seminar is being held in cooperation with the Al Meyers Airport.

Seaman Participates In Dawn Patrol

Navy Storekeeper Seaman Daniel D. Fitch, son of Mr. and Mrs. Charles D. Fitch Sr. of 107 Cairns, recently participated in the major NATO exercise "Dawn patrol '77."

He is serving as a crewmember aboard the amphibious assault ship USS Inchon, homeported in Norfolk, Va.

The two-week exercise was designed to test the ability of NATO forces to provide rapid reinforcement of southern Europe.

Twenty-four ships from the U.S. Sixth Fleet joined with naval units from Italy, Turkey and the United Kingdom to form the naval component of "Dawn Patrol '77." Air and land forces were composed of units from the U.S., the Netherlands, Belgium, Italy, West Germany and the United Kingdom.

"Dawn Patrol '77" was directed by Italian Admiral Luigi Tomasuolo, commander-in-chief, Allied Forces, Southern Europe.

The Sixth Fleet units were under the operational command of Vice Admiral Harry D. Train, II, in his NATO capacity as Commander, Naval Striking and Support Forces, Southern Europe.

The exercise provided training in tactical air operations, electronic warfare tactics, antisurface operations and reconnaissance, and included a major amphibious landing on Sardinia.

A 1974 graduate of Tecumseh High School, Fitch joined the Navy in Dec. 1974.

Bloodmobile at Products

The Bloodmobile will be at the Tecumseh Products Co. on Wednesday, June 22 from 11 a.m. to 5 p.m. in the plant cafeteria.

"We would like to encourage as many people as possible to walk-in to the Products to give blood," said Shirlie Fielder.

She stated that this is the first bloodmobile since the last one held during the Christmas holiday 1976. That one did not receive a good response from residents in town per se but the goal was neared thanks to out-of-town donors. Another mid-winter bloodmobile was cancelled due to weather.

Goal for this blood drive is again 100 pints. Red Cross workers are hoping Tecumseh's turn out will be better this time.

Mrs. Fielder said that residents should go to the main gates of the Tecumseh Products Co. plant and guards will see that they go through.

For The Record

In the engagement announcement for Marcia Wynn and Francis H. Bishop, the date should have been July 16 for a reception for local family and friends, not July 19 as printed.

In the pre-district game, Luann Harvey pitched, walking 11 and striking out two. Leading hitters included Kelly Kruger and Kim Adams with two hits, Karen Bunch with three.

Airport led throughout the game until the seventh. The score stood at 8-5 as Tecumseh went to bat. Gloria Fosbender singled, Kim Adans singled, Karen Bunch then singled and Kelly Kruger doubled in the winning run.

Final scoring statistics sat at Tecumseh 9-10-12 and Airport 8-4-5.

At the district games, Tecumseh destroyed Milan 17-7 to advance to the finals. In the game against Monroe St. Mary's, the girls just slipped by, scoring eight runs to St. Mary's seven.

In the first game, Tecumseh had just five hits, but was helped along by nine Milan walks and five errors. Kelly Kruger had the big hit of the game as she hit a two-run homer.

Jean Egbert pitched, allowing just five hits, but walking 12. She struck out nine.

In the game against St. Mary's for the title, LuAnn Harvey pitched, allowing ten hits, walking four and striking out three batters.

The shortstop attempted to force Fosbender out and double up Iffland, but dropped the throw to her. Harvey was able to score.

Harvey then shut St. Mary's down in the bottom of the seventh, pitching to four batters and allowing just one of them to reach base on a single.

Tecumseh picked up 10 hits. Gloria Fosbender lead the way with three. Becky Hamilton and Kelly Kruger each had two hits.

Tecumseh will now play Grosse Ile Saturday at Riverview High School in the regionals.

They set the old record a week earlier at the Huron League Meet.

Honor Bohannon, Iffland

Both accepted the Marsh Memorial Award, a special award presented each year to the overall outstanding athletes.

Vicki McDonald and John Egbert were also honored as they were awarded the first Annual Meade Award, given to the track member who contributes the most overall to the team.

All spring teams were represented, as members of the boys baseball and girls softball, boys and girls track teams, received awards and letters in front of a crowd of 500.

Season Not All Sour

Tecumseh lost a close game, 2-1, to Airport last Wednesday, lowering their league record to 3-11 and destroying their hopes to continue in the district tournaments.

The season did not end on a total sour note however, as Tecumseh had two players elected to the all-league team. Dave Bohannon was elected to the first team. Jeff Hans received honorable mention. Both were honored for their infield abilities.

The Airport game Wednesday was both a regular league game, and Tecumseh's pre-district competition.

Jeff Ives pitched for Tecumseh, striking out five and walking none. He pitched across from Airport's Tim Duffy.

Tecumseh's only run came in the fourth as Jeff Hans singled. He stole second and then took third on the catcher's bad throw to second. John Brooks then singled Hans home.

Airport scored once in the first and once in the fourth inning.

Hans had two hits for Tecumseh, Brooks one and George Lynch one.

Final scoring ran Airport 2-6-1, Tecumseh 1-4-2.

Although the team had far from a good season, coach Bob Ondrovich explained that he is still very pleased with his players, especially with the last four games. They did loose three of those games, but the team showed the kind of ball they could play and showed much improvement, especially defensively.

SLOW START, BUT... Tecumseh's softball squad may have started slow, but came on strong at the end of the season to capture the district title. They now travel to the regional competition Saturday. Team members include: (l-r) first row: Cindy Adams, Jill Hibbard, Gloria Fosbender, Jean Egbert. Second: Kim Adams, Pam Palmer, Becky Hamilton, Kelly Kruger, Deb Hamilton. Third: manager Darlene Williams, Sandy Banda, LuAnn Harvey, Tory Iffland, Kathy Kruger and manager Laurie Hite.

Millage, Sheldon Win in Election

An upset in the School Board race occurred here Monday when voters elected Dean Sheldon to the board for a four-year term.

He defeated Todd Herrick, incumbent, 457 to 428. In 1973, Herrick was first elected and polled nearly twice the number of votes over his closest contender.

Voters approved both millage proposals. In the board's request for 20 mills for operation - an increase of 1.5 mills - the millage was approved 532 to 333.

The ½ mill for maintenance and repair was passed by a 513 to 347 margin.

The maintenance and repair millage is for five years, and the 20 mills for operation, three years.

Voting was extremely light with less than 15 percent of the district's eligible voters going to the polls. Breakdown shows 885 voting for the term on the School Board, 865 on the 20-mill proposal, and 860 on the ½ mill proposition.

RECEIVING $312,00 FOR PROJECT

City To Complete Street, Bridge over River Raisin

A Federal appropriation of $312,000 has been announced, and it will enable the city to complete construction of Russell Rd., from Rogers Hwy. to Green Hwy., and a drive into the city's industrial park.

Cal Zorn, city manager, says notification of the additional monies was received last week from Congressman Dave Stockman's office.

New funds bring the total Federal monies here for projects to over $600,000 and also will allow for construction of a new bridge over Raisin River on Russell.

The urban portion of the Russell Rd. project already is underway, and this section may be completed well before the Nov. 1 scheduled date. Officials here expect work now on Russell to continue on through the fall and winter with completion, including the bridge, early next year.

One of the guidelines in the Federal appropriation is that work start within 90 days. Zorn expects to meet with engineers soon and complete plans for the bridge. All other engineering work on the project is finished.

Work on Russell, east of Mill, is expected to start before September. Overall, the new stretch of Russell Rd. will amount to about one mile and will have bituminous concrete paving and curb and gutter.

As for the industrial park drive, it will be U-shaped, extending south off Russell, just east of Evans St., then east and back north to Russell, east of S. Maumee St. This drive will be one half mile in length.

Although much of it will not show up in the city's annual building report, Tecumseh is experiencing more construction this year than for many past years.

Federal funds are building the new addition at city hall. Footers and block work is well underway there, and the addition should be completed by late September or early October.

Tecumseh Corrugated Box, having just completed another expansion, is now working on the north end of the building for new corporate offices.

Both Big Boy and McDonald restaurants have started construction with both expected to open this summer.

Supt. Robert Duhan says construction on a two-story, two classroom addition at Tecumseh High School is scheduled to start this week.

FOCUS
on City Government

By Paul L. Preston, Jr.
Tecumseh's Assistant City Manager and Community Development Director

Contrary to what you may believe, what with the rain and cold weather the last few days, summer is here. Summer means children out of school and the inevitable question, "What can I do?"

Tecumseh's Parks and Recreation Department has the answer for you, a complete recreational program for all age groups. The community is well endowed with parks and open space. There are 64 acres at the public schools and 114 acres in the city parks. The National Recreation and Park Association standard recommends a total of 10 acres for recreational land per 1,000 population. Tecumseh has a present ratio of 32 per 1,000 persons.

In the period 1973-76 park appropriations increased from $96,000 to $136,000 or appoximately 40%. Funds have been used for several capital improvements as well as for general maintenance and upkeep of the parks. Money for the park fund comes from donations, revenue sharing monies, tax dollars, and fees.

In addition to providing a physical setting for summer activities the Tecumseh Parks and Recreation Department provides a full range of recreational programs and activities as well. Ward Eardly, who has been the Parks and Recreation Director for the last eight years feels that "recreational program[illegible] must be flexible to meet the [illegible] and desires of the program participants."

Many families have already received flyers describing the activities for the summer. I don't think it is necessary to list all the activities once again but would like to hit the highpoints. Four playgrounds will be open and supervised starting June 20th with special programs and activities planned. The four locations are Herrick Park, Tecumseh Acres, Patterson and Elliot Park. The time of the sessions are from 10 to 12 noon and 1 to 3 P.M. Three major trips are planned this year to Cedar Point, Mackinac Island, and a summer camp.

The swimming pool is now open with both afternoon and evening hours. In addition there is swimming daily at Tecumseh Park. For those of us who can not swim, or just barely do the dog paddle, beginner swimming lessons will be offered at three different times during the summer. For those of you who can swim from one end of the pool to the other, without touching the sides or the bottom, life saving classes will also be offered.

Probably the activity that has the greatest number of participants is the youth baseball program for all girls and boys ages 5 to 14. This program is for children who have never played baseball as well as those who are destined for the major leagues. For those who would rather watch than participate there are both men and women

WARRANTS ISSUED FOR OTHERS

3 Seized Here in Drug Raid

Three Tecumseh youths have been arrested on narcotic charges in raids conducted by approximately 75 officers in the Tecumseh-Adrian area.

Two were arrested early Tuesday morning and the third late Tuesday night. A warrant has been issued for the arrest of a fourth, according to Merlin Mowery, Tecumseh police chief.

Officers from Tecumseh, Adrian, State Police, county deputies and the Region II Metro Squad arrested 30 about daybreak Tuesday morning. Mowery said the officers left a briefing shortly before 5 a.m. and made most arrests at residences.

Local youths seized were James Moore, 20, of 211 Chippewa, and Denver Smith, 20, of 207 N. Pearl St. Both have been charged with delivering heroin.

Rocky L. Cole, 22, of 213½ E. Chicago Blvd., was arrested in his apartment Tuesday evening, although local officers encountered some difficulty there.

Vicky L. Bacon, 22, same address, told police he was not home. Officers observed Cole from the doorway and attempted to enter. She fought the officers and attempted to prevent them from entering. Cole, charged with delivering marijuana, gave no resistance.

After police took Cole into custody, they returned and arrested Bacon for interfering with an arrest. Both Cole and Bacon were scheduled for arraignment in District Court Wednesday.

Among those picked up early Tuesday was Cleveland Edmonds of Adrian. He is charged with five counts of delivery of herion and is in jail under bond of $175,000 on each charge.

A number of years ago he was frequently seen in the Tecumseh High School area. After a couple encounters with Tecumseh police, his visits here dropped, and he was seen here only occasionally in recent years.

Tuesday morning's raid is said to be the largest in Lenawee County history and resulted after months of investigations. County Prosecutor Harvey Koselka has issued over 40 warrants for indiviiuals in the county, leaving many yet to be arrested.

B & E Accused Pleads Guilty

Eddie C. Williams, 32, Allen's Trailer Park, west of Clinton, pled guilty Tuesday morning on charges of breaking and entering Beach Bros. on March 31 and concealment of stolen property.

Judge Rex Martin ordered a pre-sentence investigation.

Officers discovered the Beach Bros. safe in Williams' trailer on May 31 and made the arrest at that time. Charges against his wife have been dropped.

Midway Market Owner Killed

Services are Thursday at 1:30 p.m. at the Proctor Funeral Home for Earl David Yoakum, 61, owner and operator of the Midway Market, Occidental Rd., who died Sunday at Mercy Memorial Hospital in Monroe as a result of a car accident.

Yoakum, who resided in Petersburg, was eastbound on Ida Center Rd. when the accident occurred at 9:58 p.m. Sunday.

Felix Tkachuk St. of 19301 Ida Center Rd. was westbound on Ida Center. His vehicle had a flat left front tire. He turned south into a private drive and into the path of Yoakum's eastbound vehicle.

Both cars had headlamps in operation and road conditions were clear and dry according to the report of the Monroe County Sheriff's Department. Yoakum was still in the car on impact and apparently died of injuries as a result of the accident.

The Monroe County Sheriff's Department has asked the prosecuting attorney that charges of negligent homicide be brought against Tkachuk, but at press time, no warrant was issued.

Yoakum was born Feb. 22, 1916 in Ross County, Ohio.

On July 23, 1949, he married Wanda Kopka who survives. Together they operated Midway Market since 1969 and lived above the store. The couple moved to Petersburg one year ago.

Yoakum retired from the Tecumseh Products Co. in 1972 where he worked as a machine operator for 30 years.

He was a 1934 graduate of Bourneville High School in Ohio. He was a World War II veteran of the U.S. Navy and a member of the Underwood-Orr Post 34 of the American Legion. He was a past member of the Centerview Golf Club and a member of the Wednesday night golf league.

Yoakum is survived by four sons, Larry of London, Ohio, Richard of Bainbridge, Ohio,

New Playground for Youngsters

A recreational area for Tecumseh's littlest residents, a "Tot Lot," is in the planning stages for Elliott Park, the location of Tecumseh's scout cabin.

The "lot" has been in the early planning stages for quite some time, but should soon become a reality with the help of the Dyke Helms memorial fund.

Local JC's and the downtown businessmen are spearheading the plans for the recreational area, which will feature swings and other play items for children.

Donations from groups, businesses, and individuals are presently being taken by Merlyn Downing at the United Savings Bank and by Dick Eggleston at Eggleston's Jewelry.

The "lot" is both badly needed and an exceptionally good source for a memorial to Dyke Helms. Area businessmen, JC and city officials plan to meet in the immediate future to finalize plans.

CLARENCE HALL SETS RECORD

Macon's Sexton for 60 Years

By Kathy Brown

In the heart of Macon is an obscure cemetery, Macon cemetery, located on the Mills-Macon Rd. just north of the Clinton-Macon Rd., temporarily closed except to local traffic.

Possibly just as obscure to the rest of the area is sexton Clarence Hall. But Clarence Hall has distinguished himself as being the sexton for 60 continuous years. It ought to be some kind of record.

There are other milestones in his life:

Hall will celebrate his 85th birthday anniversary on Oct. 31, 1977. He had cataracts removed three years ago. Until 1972, he hand dug the graves himself. He retired from farming on his Hack Rd. homestead at age 78.

Working beside Hall is his wife of 60 years, Margaret, who served as cemetery association secretary for 48 years.

Whatever it is that keeps Hall interested in the job, it isn't the pay.

In 1917, then sexton Allen Collins shared his pay with Hall whom he groomed for the job. Hall received 75 cents per grave. Today, the salary is the cost of opening a grave less the amount he pays for someone to dig it and the boys to maintain it.

As cemetery sexton, he also takes care of lot sales and lays the foundations himself.

"(Collins) Gave me everything he knew about the cemetery as we went through it," said Hall. "At that time, every cent counted and the present man weren't doing it to suit him," So newlywed Hall took the job. Collins had been sexton for 37 years.

"He was an a No. 1 gent," Hall said of his predecessor. "He said, 'You're doing a good job. Try to do it as long as you can.' " Hall continues doing exactly that.

It is a way of life for Hall just as farming was. He continues to do it because he loves every minute of it. He is proud of his work.

"I've got so many friends in Macon and Tecumseh. Ain't very many come visiting in here I don't know who it is."

When the gravestone of a Tecumseh woman's ancestor was taken, Hall replaced it with one he had hand made.

"I've never been beat yet," said Hall. His common sense and trust in people have guaranteed that.

If you ever wanted to find Clarence Hall you would probably find him at the cemetery. He is the kind that always finds something to do.

This year Hall completed a porch for the cemetery chapel from which memorial services are conducted. His labor was a gift to the cemetery association.

Beside the white frame chapel is an 1887 field stone vault. Hall never used it during his tenure. In 1920 he dug through 32 inches of frost with a pick ax to bury two victims of a flu epidemic.

. This past winter, fires were built atop the grave to thaw the 54 inch frost. Why didn't he do that 56 years ago? Never would have thought of it then. Cemeteries were too sacred.

"In that day, people were particular about the way things were done. The first bodies were buried on the west side of the road facing west. Then somebody decided that that wasn't right. The bodies should be on the east side of the road headed west so they'd be headed in the right direction when resurrection day came." Today they all head west on the east side of the road.

Through the cemetery, where Hall granted his interview, a breeze carried the fragrance of iris, newly planted geraniums and the sounds of a lawn tractor. Steve Chatters, one of Hall's boys, passed the sexton and they exchanged a hello salute.

"Aren't very many kids like that," said Hall. "He does it just like I want it. His brother, too."

Before he left for the day, Hall flagged down the rider, slipped off his wrist watch and handed it over to the boy with final instructions.

"That's so's he'd know when to come home," said Hall gesturing toward the late afternoon sun.

He is the kind of man that keeps things in his head, not on paper. When he leaves that job, there may always be another sexton, but not another like Clarence Hall.

When Clarence leaves the job, the heart of Macon will miss him.

Talking It Out

ROGER PROCTOR

"Why am I afraid to talk about death?"

You should know first that your fears are common ones which have been fostered for many centuries. Till recent years the subject has been taboo and "swept under the rug" till it affects us personally. Only recently has there been substantial scientific research on the subject.

We don't talk about death because we fear it and we know so little about it. In the interest of mental health, such feelings need to be changed. Public education, based on our new psychological and medical data, offer us our greatest help.

These educational helps are becoming more and more available to us. The librarian (and we) can recommend some very fine books written about death and dying; thanatology courses are offered in many schools; many churches now offer classes and discussion groups on the subject.

Here at Proctor Funeral Home, we can arrange a tour of our funeral home and an explanation of our services for you and your friends. We can also be your personal consultants to answer some of your concerns about death.
